This collection of essays offers a multi-faceted exploration of audiovisual translation, both as a means of intercultural exchange and as a lens through which linguistic and cultural representations are negotiated and shaped. Examining case studies from a variety of media, including film, television, and video games, the volume focuses on different modes of audiovisual translation, including subtitling and dubbing, and the representations of linguistic and stylistic features, cultural mores, gender, and the translation process itself embedded within them. The book also meditates on issues regarding accessibility, a growing concern in audiovisual translation research. Rooted in the most up-to-date issues in both audiovisual translation and media culture today, this volume is essential reading for students and scholars in translation studies, film studies, television studies, video game studies, and media studies.

Feeling the Vibes Mission: Babysit a Buddha! HarperCollins Pub Limited

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

***It's no secret that in today's complex world, students face unparalleled demands as they prepare for college, careers, and active citizenship. However, those demands won't be met without a fundamental shift from traditional, teacher-centered instruction toward innovative, student-centered teaching and learning. For schools ready to make such a shift, project-based learning (PBL) offers a proven framework to help students be better equipped to tackle future challenges. Project Based Teachers encourage active questioning, curiosity, and peer learning; create learning environments in which every student has a voice; and have a mastery of content but are also comfortable responding to students' questions by saying, "I don't know. Let's find out together." In this book, Suzie Boss and John Larmer build on the framework for Gold Standard PBL originally presented in Setting the Standard for Project Based Learning and explore the seven practices integral to Project Based Teaching: Build the Culture Design and Plan Align to Standards Manage Activities Assess Student Learning Scaffold Student Learning Engage and Coach For each practice, the authors present a wide range of practical strategies and include teachers' reflections about and suggestions from their classroom experiences. Favorite Seventh century England is a hodgepodge of warring Anglo-Saxon states filled with shifting alliances and treacherous grabs for royal power. Kings rise and fall, depending on Woden's Luck. Northumbria, the damp kingdom north of the River Humber, is a state riven with rivalries and kings determined to expand at any cost. Women have no obvious role in a warrior society, but by using their wits, four women—two queens and two abbesses—make monumental changes. One woman marries a pagan king and successfully converts him to Christianity before he dies in battle. One becomes the most powerful abbess in Northumbria and holds the Great Synod at Whitby Abbey, which brings the kingdom back to the Roman Church. Another becomes queen and keeps political alliances strong despite different religious denominations. The fourth woman ushers in a new age by negotiating with kings and churchmen to establish one united church in the Northumbrian kingdom. Based on true events and people, this is the story of Northumbria through the eyes of the most important women of their time.

Larry Doyle, the author of *I Love You, Beth Cooper*, returns with *Go, Mutants!*, a hilariously outrageous novel of teenage angst and restlessness, populated with heroes and villains straight out of the classic sci-fi and teen movies of the '50s and '60s. Soon to be a major motion picture from Universal Studios, Larry Doyle's *Go, Mutants!* is the funniest, most original bit of genre-bending since *Pride, Prejudice and Zombies*. This story of alien high school rebels without a cause is sure to bring out the unabashed B-movie fan in everyone.

There was a time when Davis Cup winner Chris Monte had it all. Now, down and out in Dade County, restringing racquets at a South Beach tennis shop and hiring himself out for an occasional lesson, he's dead broke. Then, along comes Elizabeth Jones, a mousy student with an irresistible proposition: fifty thousand dollars in exchange for marrying her. As sole beneficiary of the Valentine estate, Elizabeth is set to inherit a fortune. There's only one stipulation: She must be married. She'll collect, they'll divorce, and Chris will get paid off. Simple. But there are a few details Elizabeth left out, including the other claimants who are ruthlessly scheming to get their shares; her former boss, a goon with shady connections; her institutionalized mother, the target of whispers and gossip; the syndicate representative behind the execution of the will; and the pressing question of the actual identity of the deceased. Before long, Chris is in over his head. And wondering what his real part is in this twisted game of family secrets, Chris has good reason to fear that in agreeing to marry Elizabeth, he's set in motion the carefully drawn plans for his own murder. From a Mystery Writers of America Grand Master, *The Valentine Estate* is a gripping thriller and was named an Edgar Award finalist for Best Novel.
