SAP S/4HANA Financial Accounting Certification Guide

SAP ERP modules are notoriously hard to configure and use effectively without a lot of practice and experience. But as SAP ERP Financial Accounting and Controlling: Configuration and Use Management shows, it doesn't have to be so difficult. The book takes a systematic approach that leads SAP Financial Accounting and Controlling (FICO) users step by step through configuring and using all the program ' s facets. This approach makes configuration complexities manageable. The book ' s author—SAP expert, trainer, and accountant Andrew Okungbowa—ensures that both you and your end users are up and running quickly and confidently with FICO. He also provides sound and tested procedures that ensure your implementation works without error. SAP ERP Financial Accounting and Controlling: Configuration and Use Management is in fact the most comprehensive and easy-to-follow SAP FICO configuration book in the market. It incorporates a hands-on approach, with hundreds of screen shots and practical examples, that allows a person without prior configuration training to make SAP FICO ready for use in the enterprise. You ' ll find that you don ' t need to be a rocket scientist to grasp the concepts explained and apply them to your work—even when the finances are complicated, such as with the ins and outs of taxes, currency conversions, or special general ledger entries such as down payments or bills of exchange. Providing an in-depth coverage of both configuration and end user procedures, the book covers most aspects of the SAP FICO certification syllabus—SAP ' s view of the module ' s key tasks and procedures—including: Configuring and using the general ledger and accounts payable and receivable screens Configuring and completing

Read PDF Financial Accounting Basic Configuration Sap Practical Guide For Beginner Hans Sap Manual Book Book 1

closing procedures, asset accounting, and financial reporting Configuring global settings and enterprise variables Accounting for both profit and cost centers Creating a house bank Integrating FICO with other SAP modules Taking a jargon-free tone and providing an abundance of examples, Andrew Okungbowa provides a clear understanding of configuration techniques and the breadth of functionalities encompassed by SAP FICO. And as an accountant, Okungbowa understands the needs of end users as well as of those answering to the CIO.

This definitive guide is a must-have resource for the day-to-day use of Financial Accounting with SAP. Using clear, simple step-by-step instructions and detailed screenshots, you will learn how to perform key activities in the core areas of SAP General Ledger, Asset Accounting, Accounts Payable, Accounts Receivable, Banking, and the Special Purpose Ledger. Each section starts with quick reference material such as transaction codes, tables, and menu paths, and ends with easy-to-use answers to frequently asked questions and problems commonly encountered by users. Day-to-Day Solutions Discover practical, detailed guidance for the day-to-day use of Financial Accounting with SAP ERP Financials, including troubleshooting and problem-solving information. Quick Reference Take advantage of Quick Reference boxes at the beginning of every section to immediately identify the key pieces of information you need. All Key Functions Detailed Find all of the major subcomponents of Financial Accounting with SAP ERP Financials covered here: SAP General Ledger, Asset Accounting, Accounts Payable, Accounts Receivable, Banking, and the Special Purpose Ledger.FAQ and Troubleshooting Tips Get expert insight into everyday problems and the answers you need. Hands-On Format Learn in an interactive, hands-on way through the use of screenshots, menu paths, and transaction codes throughout the book. Highlights * SAP General Ledger * Organizational Entities in Financial Accounting * Accounts Payable and Accounts Receivable * Asset Accounting * Banking * Special Purpose Ledger * Transaction Codes * Tables and Program Codes

Preparing consolidated financial statements for an enterprise with a parent and one or more subsidiaries requires a detailed review of underlying transactions in order to properly reflect results and financial position. For large, integrated, and multinational organizations, likely with millions of transactions, it is imperative that the financial accounting software facilitate this process. This expertly written guide focuses on leveraging SAP S/4HANA Finance for group reporting. Explore key functionality and how the universal journal has led to the evolution of the group reporting solution. Using a detailed case study, the author discusses configuration and master data and walks the reader through the period-end process for consolidation and explores reports using financial transactions that have already been entered into SAP S/4HANA Finance for group reporting. Explore reports delivered with SAP S/4HANA Finance for group reporting. This book is targeted at both finance professionals and the functional consultants who perform the configuration and execution of processes for preparing consolidated financial statements. By using practical examples, tips, and screenshots, this book covers: - SAP S/4HANA Finance for group reporting and the universal journal - Configuration and master data - Period-end process for consolidation - Reporting and analysis

Quick Reference Guide

Credit Management in SAP S/4HANA

SAP is the world leader in Enterprise Resource Planning (ERP) software; of the software's modules, the FI (Finance) and CO (Controlling) are by far the most popular and are widely implemented. This book has no competition?it is the only book on the market on how to configure and implement SAP's FI and CO modules to maximize functionality and features hands-on, step-by-step instructions and real-world examples that provide immediate and practical solutions. Updated for SAP's ECC 6.0, the book covers FI enterprise structure, general ledger, substitutions and validations, automatic account assignments, accounts payable and receivable, asset accounting, accrual engine, closing entries, credit management, lockbox, CO enterprise structure, profitability analysis (CO-PA), and more.

An example of SAP Electronic Bank Statement (EBS) Configuration.

In this book, noted expert Andrew Okungbowa explains SAP Asset Accounting (FI-AA) in SAP-ERP, including its associated business benefits, and guides you through the considerable complexities of SAP-ERP configuration. Using FI-AA for fixed asset management enables you to manage assets in multinational companies across a broad range of industries and produce reports to meet various needs in line with legal requirements. Configuring SAP-ERP can be a daunting exercise, however, and there are few resources that address these issues. Asset Accounting Configuration in SAP ERP fills that resource gap by covering the major aspects of SAP FI-AA for anyone with SAP experience and the basic accounting knowledge and bookkeeping skills necessary to apply configuration. It provides configuration explanations in the simplest forms possible and provides step-by-step guidance with illustrations and practical examples. What You'll Learn

- In-depth coverage of FI-AA syllabus*
- How to configure FI-AA accounting in SAP*
- How to integrate FI-AA accounting with other SAP modules*
- How to explain the functionalities of SAP FI-AA*
- Knowledge gained from real-world practical examples and case studies*
- Who This Book Is For*

The key target audience for this book includes SAP consultants, developers, accountants, support organizations and beginners. It is also a resourceful learning manual for universities and institutions whose curricula covers SAP-ERP Asset Accounting.

Highlights Include: 1) Exam C_TS4FI_1909 2) Exam C_TS4FI_2020 3) Deployment 4) General ledger accounting 5) Accounts payable (AP) 6) Accounts receivable (AR) 7) Asset accounting 8) Financial closing 9) Document parking 10) Validations and substitutions 11) Bank account management

This book offers a comprehensive introduction to the fundamentals of SAP ERP Financials (FI) configuration. Dive into configuration details for general ledger (FI-GL), accounts receivable (FI-AR), and accounts payable (FI-AP) transactions. You'll learn about the primary features and functions of SAP FI configuration including how to create company codes and chart of accounts, assign a controlling area, and define number ranges. Get tips for automatic posting rules and posting periods. Gain proficiency navigating in SAP FI, including how to access configuration transactions. Walk through step-by-step instructions for executing transport request configuration. Get exposure to advanced SAP FI configuration topics including SAP tables, SE11, SE16N, and SQVI. This introductory guide to SAP FI configuration covers: - Get an overview of SAP Financials configuration - Explore fundamental aspects of FI-GL, FI-AR, and FI-AP configuration - Learn how to create, define, and assign company codes and chart of accounts - Obtain hands-on instruction based on examples and screenshots

This book on 'Configuring SAP Accounts Receivable & Accounts Payable (SAP S/4HANA Finance)' covers: Case Study Accounts Receivable and Accounts Payable Customer Accounts Vendor Accounts Incoming Invoices / Credit Memos Release for Payment Outgoing Payments Outgoing Invoices / Credit Memos Incoming Payments Payments with Payment Cards Dunning Open Item Clearing Down Payment Received Down Payment Made Adjustment Posting / Reversal Interest Calculation Closing Information System Apps for FI-A/R & FI-A/P The book starts with a case study that forms the basis for further discussions across the various Chapters. The case study mirrors a real life business enterprise that wants to implement SAP Accounts Receivable and Accounts Payable components, as a part of configuring SAP FI. The book provides an overview of SAP Accounts Receivable (FI-A/R) and Accounts Payable (FI-A/P). It, then, goes on to discuss customer and vendor accounts, in detail. It outlines the structure of customer / vendor master records, and elaborates the preparations and the configuration settings that you may need to make in the system to create / change / delete the master records. It discusses the various business transactions of both FI-A/R and FI-A/P viz., incoming invoices / credit memos, release for payment, outgoing payments, outgoing invoices / credit memos, incoming payments, payments with payment cards, dunning, open item clearing, down payment received / made, adjustment posting / reversal, interest calculation, closing, information system and Apps for SAP FI-A/R and FI-A/P. It helps you to comprehend the configuration activities that you need to complete, in setting up these transactions in the system. For example, on

configuring the settings for outgoing payments, it discusses (in detail) the global settings and the steps that are required for setting up the manual and the automatic payments. In dunning, it deals with basic settings, dunning procedure, printout, dunning process flow etc. In interest calculation, it starts with the fields (in customer / vendor master) that are relevant for item interest calculation and goes on to discuss the interest calculation process, global settings, actual interest calculation, interest posting and interest letters. In closing, it discusses the important closing operations like count (including balance confirmation), valuate and reclassify, in great detail. The book also discusses the FI-A/R and FI-A/P information system besides discussing the Apps for accounts receivable / accounts payable accountants, managers and credit controllers. As with my other books on SAP, this also follows a case-study approach to make your learning easy. Every effort has been taken to guide you, step-by-step, in configuring your SAP system in implementing SAP Accounts Receivable and Accounts Payable, in SAP S/4HANA (1909), to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you understand better a topic or a setting or a concept. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide) for easy comprehension. You will come across with appropriate menu paths and Transactions, to help you to navigate the various configuration activities. In all, you can use this book as a desktop-reference for configuring SAP FI-A/R and FI-A/P.

This book is for the professional financial manager, accountant, or bookkeeper who needs to learn the basics of SAP R/3 FI quickly, without wading through a morass of technical jargon. Featuring a clear, functional outline, copious sample screens, and simple step-by-step instructions, Using SAP R/3 FI presents the most widely used FI functions in plain, argot-free English, following menu lines from the actual program. The book also provides details about using FI for international business, such as translating the chart of accounts, keeping accounts in foreign currency, entering transactions in foreign currency, and revaluing accounts and open items in different currencies. You'll also learn the highlights of integrating R/3 FI with SD (order entry, shipping, and invoicing) and MM (purchasing, receiving, and inventory control). This remarkably detailed manual shows you how to use R/3 FI for all your basic accounting functions, including * General ledger * Accounts receivable * Accounts payable * System administration * And much, much more.

Configuration and Design**

Asset accounting setup is mandatory in SAP S/4HANA--so get the details you need to get it up and running! Walk through the configuration that underpins all of asset accounting, starting with organizational structures and master data. From there, master key tasks for asset acquisition and retirement, depreciation, year-end close, reporting, and more. Finally, see how to migrate your legacy asset data from SAP ERP to SAP S/4HANA. Covering both SAP GUI and SAP Fiori, this guide has it all!

This guide dives into the basic SAP S/4HANA configuration settings for FSCM Credit Management. Beginners seeking to better understand the features, as well as consultants looking for information on how to configure the system, will find the information they need. Each chapter contains specific knowledge for both business users and technical support staff. What exactly is a Business Partner and why do you need one? Explore the Business Partner master record and its relationship to the older master data model. Review settings required in the SAP customizing menu (IMG) for organizational structure and master data, as well as credit limit checking. Walk through the documented credit decision process in SAP. Review integration points with Accounts Receivable (FI-AR) and Sales and Distribution (SD) in depth. Learn more about additional functionality available including credit limit requests and credit exposure updates. - Basic configuration settings - Integration points with FI-AR and SD - Organizational structure and master data - Business Partner master record

The first and only book to offer detailed explanations of SAP ERP sales and distribution As the only book to provide in-depth configuration of the Sales and Distribution (SD) module in the latest version of SAP ERP, this valuable resource presents you with step-by-step instruction, conceptual explanations, and plenty of examples. If you're an SD consultant or are in charge of managing an SAP implementation in your enterprise, you'll want this valuable resource at your side SAP is one of the leading Enterprise Resource Planning (ERP) software products on the market, with over 40,000 implementations Covers the latest version of SAP ERP-ECC 6.0 Covers common through advanced configurations, so it's helpful no matter what your level of experience with SAP Explains the conceptual framework behind the configuration process If your company uses the SD module, keep this indispensable guide on hand.

This book on 'Configuring SAP General Ledger Accounting' in SAP S/4HANA Finance, covers configuring your SAP system for making use of the important functional areas of SAP General Ledger (G/L) Accounting. As with my other books on SAP, this book also follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you comprehend a topic or a configuration setting or a concept better. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide), for easy reference. You will come across with appropriate menu paths and Transactions, to help you to navigate the various activities. The

coverage includes: Case Study SAP General Ledger Accounting: Overview Features & Functionalities Pre-requisites for Configuring SAP G/L Accounting Master Data Business Transactions Periodic Processing Preparation for Productive Start Information System The book starts with a case study, setting up the tone for further discussions, outlining the various business processes that you will be configuring towards implementing SAP G/L Accounting for your business. You will come across with the case study brief per configuration activity / step, in each Chapter. We discuss the overview of SAP G/L Accounting, before moving on to discuss its important features and functionalities. You will learn about extensibility, ledger concept, document splitting, parallel accounting, segment reporting, fast close and integration of SAP FI with SAP Controlling. We, then, move on to discuss the pre-requisites for configuring SAP G/L Accounting. Here, you will learn about the important FI general settings and also on how to configure the fields, ledgers and currencies. You will learn more about parallel accounting and the FI integration with CO. While on G/L master data, we discuss the G/L account master data, the profit center master data and segment master data. We bring out, in detail, the preparations that you need to make for creating these master data, besides elaborating their creation and processing. You will, then, be taken to learn about the functionality as well as the configuration of G/L business transactions, including document splitting, open item clearing, bank account interest calculation, and adjustment posting / reversal. In periodic processing for G/L, you will learn about the various closing operations like check/count, valuate, reclassify, allocation and carry forward. We, then, discuss the preparations that you need to make for productive start of SAP G/L Accounting system. You will learn about the preparations, in detail, for new implementation, as well as for migration from an existing non-HANA SAP system. Finally, towards the end, we discuss the G/L information system. You will learn about the various G/L reports that are available for your business, including the drilldown reports and reports created with Report Painter / Report Writer. In all, you can use this book as a desktop-reference or a refresher for configuring SAP G/L Accounting. As the Chapters have been progressively elaborated, you will find the book very informative and easy to read.

Business User Guide

Configuring SAP R/3 FI/CO

SAP R/3 Financial Accounting

First Steps in SAP S/4HANA Finance

This bestselling author demystifies SAP Financial Accounting (FI) through an innovative and easy-to-understand Q & A format, using 440 + questions, over 200 illustrations & screenshots (including ERP 6.0), 430 FI transaction codes, and 195 FI Tables."

SAP Financial Accounting (FI) SAP FI module as the term suggests deals in managing financial transactions within enterprises.

This financial accounting module helps employees to manage data involved in any financial and business transactions in a unified system. SAP Finance and Controlling (FICO) is one of the most widely used SAP modules. SAP FICO module includes SAP FI configuration, SAP CO configuration, SAP FI user and SAP CO user. Anyone looking forward to begin their career as an SAP

FICO consultant needs to build a strong base covering all these aspects of SAP FI module and SAP CO module. This book will give you the step by step configuration process for the FI module with a brief overview of the CO module. Also included is the book is a host of screen shots and options to download video tutorials to assist with the configuration process. As the author I would like to thank you for the purchase of my book and hope you find this material helpful in your pursuit of becoming a SAP Software Engineer.

This book on 'Configuring SAP Financial Accounting' in SAP S/4HANA Finance (1909), has been published in two volumes: Volume I and Volume II. The Vol. II (this book) covers: Configuring SAP Financial Accounting - Vol. I Case Study (Project Dolphin & Project Starfish) Accounts Receivable and Accounts Payable Contract Accounts Receivable and Payable Bank Accounting Asset Accounting In Vol. I of the title we have covered: SAP HANA SAP S/4HANA SAP S/4HANA Finance Case Study (Project Dolphin & Project Oyster) Enterprise Structure FI Global Settings I (Fields, Ledgers, Fiscal Year, Posting Period, Parallel Accounting, Integration of SAP CO with SAP FI, and Company Code Global Parameters) FI Global Settings II (Documents, Inflation Accounting and Correspondence) FI Global Settings III (Taxes including Extended Withholding Tax) General Ledger Accounting To give you an idea of what has been covered in 'Configuring SAP Financial Accounting - Vol. I', we have captured the details, in this book, in a Chapter-wise summary of that coverage with configuration highlights that has been discussed in each of those Chapters, from 1 to 9. The book covers Accounts Receivable (FI-A/R) and Accounts Payable (FI-A/P), in detail. It covers customer and vendor accounts, business transactions associated with both FI-A/R and FI-A/P and the information system. In business transactions, you will see topics like incoming invoices, release for payment, payments (outgoing & incoming, manual and automatic), dunning, open item clearing, down payment processing, adjustment posting, interest calculation and closing operations. In Contracts Accounts Receivable and Payable (SAP FICA), with a separate case study (Project Starfish), we discuss the functionality and the configuration required for setting up of SAP FICA for a business. In Bank Accounting (FI-BL), you will learn about bank master data (bank directory, house bank, business partner's bank, bank distribution etc.), bank chains, payment transactions including manual & electronic bank statement, lockbox processing, cash journal and online payments. The book covers Asset Accounting (FI-AA) in great detail. It covers the organizational structure, structuring fixed assets in FI-AA (including special forms of assets, asset classes etc.), integration of FI-AA with other SAP components including SAP FI-G/L, general & special valuation, depreciation, master data, transactions (like acquisitions, retirements, transfers, capitalization of assets under construction etc.), FI-AA information system, asset data transfer, preparations for going live and overview for experts. As with my other books on SAP, this book also follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you understand a topic or a configuration setting or a concept better. The entire content of the

Financial Accounting with SAP S/4HANA

A Practical Guide to SAP S/4HANA Financial Accounting

Asset Accounting with SAP S/4HANA

First Steps in SAP Financial Accounting (FI)

Configuring SAP Asset Accounting, based on the latest version of SAP S/4HANA Finance, is a complete guide to comprehend and configure SAP Asset Accounting (FI-AA). The book comes from the author who has written several books on SAP, including 'Configuring Financial Accounting in SAP ERP' (3rd Edition), by SAP Press (2018). This book follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of context-based additional information across Chapters, for better assimilation of concepts / settings. The entire content of the book has been presented as in SAP Implementation Guide with appropriate menu paths and Transactions. Coverage: SAP HANA SAP S/4HANA SAP S/4HANA Finance Case Study Asset Accounting: Overview Organizational Structures Structuring Fixed Assets in FI-AA Integration General Valuation Depreciation Special Valuations Master Data Transactions Information System Asset Data Transfer Preparations for Going Live Overview for Experts In this book: You will learn about SAP HANA, SAP S/4HANA and SAP S/4HANA Finance. You will learn how to use SAP FI-AA to manage your business entity's fixed assets internationally. You will learn how to portray your organizational structure. You will understand what a 'chart of depreciation' is and how the 'depreciation areas' enable managing the rules for asset depreciation / valuation. You will learn how to structure assets. You will learn FI-AA's integration with SAP's other application components, including G/L Accounting. You will learn how to manage general / special valuation, to meet differing business needs. You will learn how SAP supports both automatic (ordinary & special depreciation) and manual depreciation (unplanned depreciation & transfer of reserves). You will understand how SAP carries out depreciation calculation using 'Depreciation Calculation Program'. You will learn how information is arranged in an asset master record, in general master data area and in the data area for calculating asset values. You will learn about various 'transaction types', for carrying out asset transactions including acquisitions, retirements, transfers etc. You will learn about SAP Queries, asset history sheet etc., as a part of FI-AA Information System. You will learn how to undertake legacy asset data transfer into SAP FI-AA. As a part of going live, you will learn about production startup activities. You will learn how to use the 'overview for experts' functionality to check / verify

configuration. In all, you will find this book easy to use as a desktop-reference for configuring SAP FI-AA.

This book on 'Configuring SAP Financial Accounting' in SAP S/4HANA Finance, has been published in two volumes: Volume I and Volume II. The Volume I (this book) covers: Case Study Enterprise Structure FI Global Settings I (Fields, Ledgers, Fiscal Year, Posting Period, Parallel Accounting, Integration of SAP CO with SAP FI, and Company Code Global Parameters) FI Global Settings II (Documents, Inflation Accounting and Correspondence) FI Global Settings III (Taxes including Extended Withholding Tax) G/L Accounting The Volume II covers: Case Study Accounts Receivable and Accounts Payable Contract Accounts Receivable and Payable Bank Accounting Asset Accounting Here, in Volume I, you will learn about the context and relevance of SAP HANA, SAP S/4HANA and SAP S/4HANA Finance, before actually learning the configuration of SAP Financial Accounting. This book follows a case-study approach with a story-board technique, that provides you with the required business background for a given configuration activity. Towards configuring SAP FI, you will start your learning with SAP enterprise structure focussing on SAP FI/CO organizational units, their definition and assignment. Then, you will learn about FI global settings, in great detail, spread over three Chapters. You will learn about fields, ledgers, field status variants, fiscal year and posting periods. You will also learn parallel accounting, integration of SAP Controlling with SAP FI and configuring company code global parameters. Later, you will learn about documents (document structure, document types, posting keys, screen variants, document change rules, bar code entry, tolerance groups, summarization, default values, business transaction types, recurring entries, document parking and document archiving) besides inflation accounting and correspondence. Finally, in FI global settings, you will learn taxes: the tax on sales and purchases, the settings required for calculation / posting and interfacing your SAP system with external tax application (Vertex). You will also learn about withholding tax, including extended withholding tax: the configuration settings and how to manage withholding tax changeover. You will also learn SAP G/L Accounting, in great detail, covering the preparations required for creating the master data including chart of accounts, account groups, sample accounts etc. You will learn how to create / process G/L accounts, besides understanding the configuration towards business transactions like document splitting, cross-company code transactions, open item clearing, balance interest calculation, closing operations, and preparing for 'going live'. As with my other books on SAP, this book also follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you understand a topic

or a configuration setting or a concept better. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide), for easy comprehension. You will come across with appropriate menu paths and Transactions, to help you to navigate the various activities. In all, you can use this book as a desktop-reference for configuring SAP FI. As the Chapters have been progressively elaborated, you will certainly find this as informative and easy to comprehend.

Annotation The book explains the important concepts / terms used in FI, provides you with several consulting, configuration, and usage tips on a variety of application components within FI. Separate chapters on SAP FI Tables and SAP FI Transaction Codes will help you navigate this complex software! This book will be an invaluable guide to everyone in the SAP community: beginners, end-users, programmers, and trainers. Features:Features an easy-to-understand "Q & A" format with configuration / consulting / usage tipsIncludes screen-shots from SAP ERP (ECC 6.0), separate chapters on SAP FI Transaction Codes and SAP FI TablesUses over 450 questions, 200 screen shots and illustrations, 430 FI transactions, and 195 SAP FI tables to help master this complex softwareIncludes a CD-ROM with FI templates, short cuts, and figures (including 4color) from the bookBrief Table of Contents:Organizational Units & Basic Settings. General Ledger (FI-GL). General Ledger Accounting (New). Accounts Payable (FI-A/P) & Accounts Receivable (FI-A/R). Bank Accounting (FI-BL). Asset Accounting (FI-AA). Lease Accounting (FI-LA). Travel Management (FI-TV). SAP FI Tables. SAP FI Transaction Codes. Tables. Index.
