to everyone, which helps build motivation to learn the material. Accounting issues are also placed within the context of marketing, management, IT, and finance. Financial accounting is undergoing a period of unprecedented change. The FASB and IASB have been working together to issue converged accounting

standards that will dramatically change key reporting areas, and more generally have sought to converge accounting standards over time. In late 2011, the SEC will announce its decision on whether large public companies in the U.S. will be able to choose whether to report under U.S. GAAP or IFRS or if all companies

are anticipated to be reporting under IFRS in the near future. So, while there currently is considerable overlap between U.S. GAAP and IFRS, and that overlap is increasing as convergence continues, important differences remain. To help instructors deal with the challenging environment, the Spiceland team is
