

## Financial And Managerial Accounting 2nd Edition

**This book describes the essential accounting for anyone in the hospitality industry, which includes hotels, restaurants, spas, and similar businesses. It familiarizes the accountant with basic concepts and then addresses the various types of financial statements and the accounting needed to construct them. More detailed accounting topics include payroll, fixed assets, and payables. There are also many managerial accounting topics, such as the construction of a budget, price formulation systems, cost-volume-profit analysis, and cash management. In short, the book prepares the accountant for any accounting issues likely to arise in the hospitality industry.**

**Financial and Managerial Accounting provides students with a clear introduction to fundamental accounting concepts beginning with the building blocks of the accounting cycle and continuing through financial statements. This product is ideal for a two-semester Financial and Managerial Accounting sequence where students spend equal time learning financial and managerial accounting concepts as well as learn the accounting cycle from a corporate perspective.**

The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680229293. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

**Financial and Managerial Accounting for Undergraduates**

This textbook provides an accessible introduction to accounting, giving a clear and concise overview of financial accounting, management accounting and financial management. Using international examples, cases and real company data to contextualise the theory, the authors explain the key concepts in a logical fashion, providing students with a theoretical and practical foundation in the subject. In particular, the running case study helps students to keep applying new concepts to a familiar context. The main author, Jill Collis, is an experienced author who has a proven ability to simplify difficult topics and communicate them in a clear and engaging way. This textbook has been developed specifically to provide a comprehensive introduction to accounting for anybody coming to the subject for the first time, either at

undergraduate or postgraduate level. New to this Edition - The important and contemporary topics of ethics, corporate governance and corporate social responsibility are given more prominence in this new edition - A new chapter on the statement of cash flows has been added - The number of questions in the book and online has been increased substantially to provide students with more opportunity to test their understanding and provide lecturers with more materials to perform assessments Accompanying online resources for this title can be found at [bloomsburyonlineresources.com/business-accounting-3e](http://bloomsburyonlineresources.com/business-accounting-3e). These resources are designed to support teaching and learning when using this textbook and are available at no extra cost.
