### *Financial Reporting Analysis Ebooks*

All business organizations produce financial statements, and the information communicated (or hidden) in these is relevant to a wide range of users. After a number of recent financial scandals from banks to supermarkets, the need to fully understand financial statements has never been so imperative, and the topic itself so pertinent. With updated examples to reflect the current business environment, including new material on the ethical considerations, and a wider array of business examples, from retail to services and banks, O'Hare continues
