

## Fir Lodge Volume 1 The Restarter Series

**This book gathers selected high-quality research papers presented at the Seventh International Congress on Information and Communication Technology, held at Brunel University, London, on February 21–24, 2022. It discusses emerging topics pertaining to information and communication technology (ICT) for managerial applications, e-governance, e-agriculture, e-education and computing technologies, the Internet of Things (IoT) and e-mining. Written by respected experts and researchers working on ICT, the book offers a valuable asset for young researchers involved in advanced studies. The work is presented in four volumes.**

*With Sithannan's book 'Police Investigation-Powers, Tactics and Techniques' 4th Edition 2022, every Police Officer will be able to do a comprehensive investigation even if he/ she just follow the checklists given. The book is written in simple language, which can be easily understood by all Police Officers and will serve as a valuable tool/guide for every officer who has to investigate a crime, participate in the All India Police Duty Meet etc. This is a more exhaustive treatise than his initial one, prepared when he was working in the Police Training College and which is still used by Investigating Officers all over the state of Tamil Nadu. In his present work titled 'Police Investigation: Powers, Tactics and Techniques', the author has meticulously catalogued the tools available to a police officer to become a successful investigator. He has carefully listed the duties of Police Officers at various stages of the investigation and the legal and statutory supports officially available to an investigating officer. The book contains 25 chapters and 4 annexures. In all the chapters, the author describes the problems at hand in elaborate detail, supported by relevant statistical and legal data, drawn from authentic sources. The first chapter includes a discussion on the development of settled society, the origin of law in society and the emergence of military and police in developing societies. In the following chapters, the author has given an exhaustive account of the role and powers of Police in the registration of offences and taking up of the investigation. He has also discussed problems encountered by a Police Officer during the investigation, the trial till the judgement. The book dexterously deals with problems such as the jurisdiction of a Police Officer, the dying declaration of victims, the conducting of inquest, arrest, interrogation and confession of the accused, etc. Apart from Police Officers, Advocates, Law and Judicial Officers would also find this book very useful as a reference book. The reference to judgements pertaining to a host of criminal cases during the period 1965–2018 merit careful study by the guardians of Law. The checklist provided at the end of each chapter can serve as a ready-reckoner to the Police*

*Officers at various stages of the investigation. A trainee and a veteran equally will find this book a useful aid. To cite an example, under chapter 14, "Arrest", he has cited 37 landmark judgements. By reading these fourteen pages alone one can avert many a pitfall. While writing this book, the academic pursuit of the author is in full bloom, as he has drawn valuable and authenticated data from various enactments, official documents, court judgements and a vast domain of related literature of national and international significance. Moreover, in this scholarly work, the author does not limit himself to expressing his sentiments of fellowship to the investigating Police Officers but also is concerned more about their legitimate and authorized duties, responsibilities, jurisdiction, rights of the accused and the natural processes of the long arm of the law. That the Author's utopian ideal of no innocent person should be punished and no offender should go unpunished can be seen to dominate the whole message of the book. For this purpose, the Author has taken extra pains to give a balanced treatment of the whole problem of crime and its investigation.*

**Research Notes**

Daniel Defoe is known as the father of the English novel. This is the modern critical edition of Defoe's novels. It brings together all three parts of "Robinson Crusoe" and examines their relationship. The editorial material includes an introduction to each novel, explanatory endnotes, textual notes, and a consolidated index in volume 10.

Hearings, Reports and Prints of the Senate Committee on Interior and Insular Affairs

Police Procedural and Police Administration

Masterpieces of German Literature

*Comprehensive bilingual dictionary of the Hocak language.*

*The most comprehensive dictionary of the Hocak language*

(formerly known as Winnebago) to date, this bidirectional Hoc?k-English/English-Hoc?k dictionary contains approximately 4,000 entries. Hoc?k is a highly endangered North American Indian language spoken by less than two hundred people in different parts of Wisconsin and Nebraska. This dictionary and volume 2 of the Hoc?k Teaching Materials are the outcome of a large project on the documentation of the Hoc?k language, which was carried out in close cooperation with the Hoc?k Language Division, a tribal institution for the stabilization and revitalization of the Hoc?k language in Mauston, Wisconsin. The volume contains a lengthy introduction to the basics of the phonology, orthography, and morphology of the Hoc?k language, written in a learner-friendly, easy-to-access style, explaining linguistic terms so that it can be used by nonlinguists. The individual lexical entries of the words are organized according to the standards of modern lexicography, containing all necessary phonetic, grammatical, and semantic information for the use of the Hoc?k words. In addition, every word is provided with about three Hoc?k example sentences in order to demonstrate the typical use of the words in different contexts. Also of interest are a frequency list of all words in the dictionary counted on the basis of a large corpus of Hoc?k texts, and a thesaurus of all Hoc?k words in the dictionary. A valuable source of information on the Hoc?k language and culture, this work will appeal to linguists in general, and specialists in Native American languages, as well as anthropologists and all learners of the Hoc?k language. Collaboration between the Ho-Chunk Nation and University of Erfurt linguists yielded this and a second volume intended to teach the nation's language. The need is urgent: a people of 6,500 contains but 200 native speakers This is an important acquisition for reference collections supporting Native American studies and linguistics study. ? CHOICE

A text of central importance to the Chinese literary tradition, the Wen xuan was compiled by Xiao Tong (501-531) and is the oldest surviving anthology of Chinese literature arranged by genre. This volume, the first of a planned eight-volume translation of the entire work, contains thoroughly annotated translation of the first section of the Wen xuan, the rhapsodies on the metropolises and capitals." Originally published in 1983. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.
