A full one-third of all known exonerations stem from no-crime wrongful convictions. The first book to explore this common but previously undocumented type of wrongful conviction, *Smoke but No Fire* tells the heartbreaking stories of innocent people convicted of crimes that simply never happened. A suicide is mislabeled a homicide. An accidental fire is mislabeled an arson. Corrupt police plant drugs on an innocent suspect. A false allegation of assault is invented to resolve a custody dispute. With this book, former New York City public defender Jessica S. Henry

Charges were fabricated against him, and his evaluations-once focused on praise-became tools to plot his destruction at the hands of those he once trusted. Having known it would be career suicide to come out, he tolerated the attacks for years until he had finally had enough. Rather than quit, he mustered the courage to stand up to the department and filed over a dozen allegations of misconduct. The harassment only escalated, leading to an unfair demotion with a reduction in pay. Though the idealistic optimism with which he began his career

that the legal profession is in a failing condition characterized by flawed practices and deplorable ethics. Respected, experienced lawyers call for key improvements but nothing more than cosmetic changes ever happen. Anecdotal evidence demonstrates the need of drastic reforms but the real push for correction must come from the non-lawyering public. Criminal trials must become something more than lotteries. The adversarial system must eventually be eliminated. To solve one of the most serious shortcomings of all, inadequate legal service for all of the poor, the

From the book - "American acceptance of the conduct of trial lawyers should make clear something that has disturbed people for over half a century. How could the great mass of German people have tolerated the evils of the Nazi regime when they had to have known at least in part what was occurring? Putting legal history and women's history in dialogue, it demonstrates that nineteenth-century women's organizations first offered legal aid to the poor and that middle-class women functioning as lay lawyers, provided such assistance. Felice Batlan illustrates that by the early twentieth century, male lawyers founded their own legal aid societies. These new legal aid lawyers created an imagined history of legal aid and a blueprint for its future in which women played no role and their accomplishments were intentionally omitted. In

From this premise, McDurmon argues significant theses about continuities and discontinuities between Old and New Covenant law. This discussion is very significant in the debate over Theonomy.
