4 starred reviews! Orange Is the New Black meets Walter Dean Myer ’ s Monster in this gritty, twisty, and haunting debut by Tiffany D. Jackson about a girl convicted of murder seeking the truth while surviving life in a group home. Mary B. Addison killed a baby. Allegedly. She didn ’ t say much in that first interview with detectives, and the media filled in the only blanks that mattered: a white baby had died while under the care of a churchgoing black woman and her nine-year-old daughter. The public convicted Mary and the jury made it official. But did she do it? There wasn ’ t a point to setting the record straight before, but now she ’ s got Ted—and their unborn child—to think about. When the state threatens to take her baby, Mary ’ s fate now lies in the hands of the one person she distrusts the most: her Momma. No one knows the real Momma. But does anyone know the real Mary?

Catching Fire (Hunger Games, Book Two)

The Help

Teenagers from varying states and walks of life offer an inside look at their true feelings about their parents and other adults in their lives, and suggest approaches to improve communication with adolescents.

The second book in Suzanne Collins’s phenomenal and worldwide bestselling Hunger Games trilogy.

Considered by many to be mentally retarded, a brilliant, impatient fifth-grader with cerebral palsy discovers a technological device that will allow her to speak for the first time.

Congressman John Lewis (GA-5) is an American icon, one of the key figures of the civil rights movement. His commitment to justice and nonviolence has taken him from an Alabama sharecropper’s farm to the halls of Congress, from a segregated schoolroom to the 1963 March on Washington, and from receiving beatings from state troops to receiving the Medal of Freedom from the first African-American president. Now, to share his remarkable story with new generations, Lewis presents March, a graphic novel trilogy, in collaboration with co-writer Andrew Aydin and New York Times best-selling artist Nate Powell (winner of the Eisner Award and LA Times Book Prize finalist Swallow Me Whole). March is a vivid first-hand account of John Lewis’ lifelong struggle for civil and human rights, meditating in the modern age on the distance traveled since the days of Jim Crow and segregation. Rooted in Lewis’ personal story, it also reflects on the highs and lows of the broader civil rights movement. Book One spans Lewis’ youth in rural Alabama, his life-changing meeting with Martin Luther King, Jr., the birth of the Nashville Student Movement, and their battle to tear down segregation through nonviolent lunch counter sit-ins, building to a stunning climax on the steps of City Hall. Many years ago, John Lewis and other student activists drew inspiration from the 1958 comic book Martin Luther King and the Montgomery Story. Now, his own comics bring those days to life for a new audience, testifying to a movement whose echoes will be heard for generations.

Teachers Have it Easy

Widening the Circle is a passionate, even radical argument for creating school and classroom environments where all kids, including children labeled as “disabled” and “special needs,” are welcome on equal terms. In opposition to traditional models of special education, where teachers decide when a child is deemed “ready to compete” in “mainstream” classes, Mara Sapon-Shevin articulates a vision of full inclusion as a practical and moral goal. Inclusion, she argues, begins not with the assumption that students have to earn their way into the classroom with their behavior or skills, it begins with the right of every child to be in the mainstream of education, perhaps with modifications, adaptations, and support. Full inclusion requires teachers to think about all aspects of their classrooms—pedagogy, curriculum, and classroom climate. Crucially, Sapon-Shevin takes on arguments against full inclusion in a section of straight-talking answers to common questions. She agrees with critics that the rhetoric of inclusion has been used to justify eliminating services and “dumping” students with significant educational needs unceremoniously back into the mainstream with little or no support. If full inclusion is properly implemented, however, she argues, it not only clearly benefits those traditionally excluded but enhances the educations and lives of those considered mainstream in myriad ways. Through powerful storytelling and argument, Sapon-Shevin lays out the moral and educational case for not separating kids on the basis of difference.

With its pure focus on the unique challenges and rewards of teaching middle school, this provocative new casebook provides a window into the day-to-day life of middle school teachers and the middle school students they teach. The book presents brief, realistic case studies covering a wide range of topics to create an opportunity for readers to examine the full spectrum of middle school issues, including interdisciplinary teaming, advisory programs, the nature of the preadolescent learner, instructional methods, grouping, parental involvement, leadership, and others.

Teaching to Learn, Learning to Teach uniquely addresses three problems that frequently concern pre-service and beginning teachers: classroom control, satisfying state and federal mandates, and figuring out exactly what is the role of the teacher. Integrating practical, theoretical, and critical teaching considerations, it presents a model student-centered approach for designing lessons, developing personal connections with students, and building classroom communities: PRO/CLASS Practices (Planning, Relationships, Organization, Community, Leadership, Assessment, Support, Struggle). Pre-service teachers are encouraged to reinterpret the principles and continually redefine them as they develop their own reflective practice.

Changes in the Second Edition • Updates throughout with attention to the Common Core State Standards, high stakes testing, the possibilities and limitations of technology use in the classroom, and preparing for the job market! • Fully revised chapter on literacy • New interviews with teachers • Companion Website: Supplemental planning, teaching, and assessment materials; 32 extended essays including a number of the author’s widely read Huffington Post columns; interviews with beginning and veteran teachers; Ideas for Your Professional Portfolio, Resume, and Cover Letter; Recommended Websites for Teachers

A totalitarian regime has ordered all books to be destroyed, but one of the book burners suddenly realizes their merit.

Tom Rademacher wishes someone had handed him this sort of book along with his teaching degree: a clear-eyed, frank, boots-on-the ground account of what he was getting into. But first he had to write it. And as 2014’s Minnesota Teacher of the Year, Rademacher knows what he’s talking about. Less a how-to manual than a tribute to an impossible and impossibly rewarding profession, It Won’t Be Easy captures the experience of teaching in all its messy glory. The book follows a year of teaching, with each chapter tackling a different aspect of the job. Pulling no punches (and resisting no punch lines), he writes about establishing yourself in a new building; teaching meaningful classes, keeping students a priority; investigating how race, gender, and identity affect your work; and why it’s a good idea to keep an extra pair of pants at school. Along the way he answers the inevitable and the unanticipated questions, from what to do with Google to how to tell if you’re really a terrible teacher, to why “Keep your head down” might well be the worst advice for a new teacher. Though directed at prospective and newer teachers, It Won’t Be Easy is mercifully short on jargon and long on practical wisdom, accessible to anyone—teacher, student, parent, pundit—who is interested in a behind-the-curtain look at teaching and willing to understand that, while there are no simple answers, there is power in learning to ask the right questions.

Since its initial publication and multiple reprints in hardcover in 2005, Teachers Have It Easy has attracted the attention of teachers nationwide, appearing on the New York Times extended bestseller list, C-SPAN, and NPR’s Marketplace, in additio...

The #1 New York Times bestseller! Now a Hulu original series starring Reese Witherspoon and Kerry Washington. “I read Little Fires Everywhere in a single, breathless sitting.” —Jodi Picoult “To say I love this book is an understatement. It’s a deep psychological mystery about the power of motherhood, the intensity of teenage love, and the danger of perfection. It moved me to tears.” —Reese Witherspoon “Extraordinary . . . books like Little Fires Everywhere don’t come along often.” —John Green From the bestselling author of Everything I Never Told You, a riveting novel that traces the intertwined fates of the picture-perfect Richardson family and the enigmatic mother and daughter who upend their lives. In Shaker Heights, a placid, progressive suburb of Cleveland, everything is planned—from the layout of the winding roads, to the colors of the houses, to the successful lives its residents will go on to lead. And no one embodies this spirit more than Elena Richardson, whose guiding principle is playing by the rules. Enter Mia Warren—an enigmatic artist and single mother—who arrives in this idyllic bubble with her teenaged daughter Pearl, and rents a house from the Richardsons. Soon Mia and Pearl become more than tenants: all four Richardson children are drawn to the mother-daughter pair. But Mia carries with her a mysterious past and a disregard for the status quo that threatens to upend this carefully ordered community. When old family friends of the Richardsons attempt to adopt a Chinese-American baby, a custody battle erupts that dramatically divides the town—and puts Mia and Elena on opposing sides. Suspicious of Mia and her motives, Elena is determined to uncover the secrets in Mia’s past. But her obsession will come at unexpected and devastating costs. Little Fires Everywhere explores the weight of secrets, the nature of art and identity, and the ferocious pull of motherhood—and the danger of believing that following the rules can avert disaster. A must-read for parents, new teachers, and classroom veterans, Educating Esmé is the exuberant diary of Esmé Raji Codell’s first year teaching in a Chicago public school. Fresh-mouthed and free-spirited, the irrepressible Madame Esmé—as she prefers to be called—does the cha-cha during multiplication tables, roller-skates down the hallways, and puts on rousing performances with at-risk students in the library. Her diary opens a window into a real-life classroom from a teacher’s perspective. While battling bureaucrats, gang members, abusive parents, and her own insecurities, this gifted young woman reveals what it takes to be an exceptional teacher. Heroine to thousands of parents and educators, Esmé now shares more of her ingenious and yet down-to-earth approaches to the classroom in a supplementary guide to help new teachers hit the ground running. As relevant and iconoclastic as when it was first published, Educating Esmé is a classic, as is Madame Esmé herself.

Educating for Empathy presents a compelling framework for thinking about the purpose and practice of literacy education in a politically polarized world. Mirra proposes a model of literary civic empathy that encourages secondary ELA teachers to consider how issues of power and inequity play out in the literacy classroom and how to envision literacy practices as a means of civic engagement. The book reviews core elements of ELA instruction—response to literature, classroom discussion, research, and digital literacy—and demonstrates how these activities can be adapted to foster critical thinking and empathetic perspectives among students. Chapters depict teachers and students engaging in this transformative learning, offer concrete strategies for the classroom, and pose questions to guide school communities in collaborative reflection. “If educators were to follow Mirra’s model, we will have come a long way toward educating and motivating young people to become involved, engaged, and caring citizens.” —Sonia Nieto, professor emerita, University of Massachusetts, Amherst “Grounded in respectful research partnerships with youth and teachers, this is a book that will resonate with and inspire educators in these precarious times.” —Gerald Campano, University of Pennsylvania “If ever there were a time for a book on empathy in education, the moment is now.” —Yolanda Sealey-Ruiz, Teachers College, Columbia University

Travis Maddox, Eastern University’s playboy, makes a bet with good girl Abby that if he loses, he will remain abstinent for a month, but if he wins, Abby must live in his apartment for the same amount of time.

As teachers, parents and counsellors cope with the roller-coaster of early adolescence, too few stop to ask students how they feel about these critical years. Here, students from diverse backgrounds offer insights into what it takes to make classrooms more effective and how to forge stronger relationships between young adolescents and adults. Students tackle critical topics such as social, emotional and academic pressure, classroom behaviour and preparing for higher education. Invaluable resource for all teachers.

bestselling author Neal Shusterman and Jarrod Shusterman. The drought—or the Tap-Out, as everyone calls it—has been going on for a while now. Everyone’s lives have become an endless list of don’ts: don’t water the lawn, don’t fill up your pool, don’t take long showers. Until the taps run dry. Suddenly, Alyssa’s quiet suburban street spirals into a warzone of desperation; neighbors and families turned against each other on the hunt for water. And when her parents don’t return and her life—and the life of her brother—is threatened, Alyssa has to make impossible choices if she’s going to survive.

If we can do it, so can you! That's the message sent to students in this advice book, written with college students who were the first in their families to go past high school. It's tough to aim for college if other family members have not--so this book offers the kind of encouraging, practical guidance that an older sibling would give. Inspiring stories of the diverse student contributors--who end up at institutions from community colleges to elite universities--combined with warm and well-organized counsel and checklists.

"This is Claude. He's five years old, the youngest of five brothers. He also loves peanut butter sandwiches. He also loves wearing a dress, and dreams of being a princess.When he grows up, Claude says, he wants to be a girl. Rosie and Penn want Claude to be whoever Claude wants to be. They're just not sure they're ready to share that with the world. Soon the entire family is keeping Claude's secret. Until one day it explodes."--

Discover how human beings react to danger—and what makes the difference between life and death “Fascinating and useful . . . [shows that] the most important variable in an emergency is your own behavior.”—The New York Times Today, nine out of ten Americans live in places at significant risk of earthquakes, hurricanes, tornadoes, terrorism, or other disasters. Tomorrow, some of us will have to make split-second choices to save ourselves and our families. How will we react? What will it feel like? Will we be heroes or victims? In her quest to answer these questions, award-winning journalist Amanda Ripley traces human responses to some of recent history’s epic disasters, from the explosion of the Mont Blanc munitions ship in 1917—one of the biggest explosions before the invention of the atomic bomb—to the journeys of the 15,000 people who found their way out of the World Trade Center on September 11, 2001. To understand the science behind the stories, Ripley turns to leading brain scientists, trauma psychologists, and other disaster experts. She even has her own brain examined by military researchers and experiences, through realistic simulations, what it might be like to survive a plane crash into the ocean or to escape a raging fire. Ripley comes back with precious wisdom about the surprising humanity of crowds, the elegance of the brain’s fear circuits, and the stunning inadequacy of many of our evolutionary responses. Most unexpectedly, she discovers the brain’s ability to do much, much better—with just a little help.

About Becoming a Teacher

“ Lucid, accessible ” research on classroom language bias for educators and “ parents concerned about questions of power and control in public schools ” (Publishers Weekly). In this collection of twelve essays, MacArthur Fellow Lisa Delpit and Kent State University Associate Professor Joanne Kilgour Dowdy take a critical look at the issues of language and dialect in the education system. The Skin That We Speak moves beyond the highly charged war of idioms to present teachers and parents with a thoughtful exploration of the varieties of English spoken today. At a time when children who don ’ t speak formal English are written off in our schools, and when the class- and race-biased language used to describe those children determines their fate, The Skin That We Speak offers a cutting-edge look at this all-important aspect of education. Including groundbreaking work by Herbert Kohl, Gloria J. Ladson-Billings, and Victoria Purcell-Gates, as well as classic texts by Geneva Smitherman and Asa Hilliard, this volume of writing is what Black Issues Book Review calls “ an essential text. ” “ The book is aimed at helping educators learn to make use of cultural differences apparent in language to educate children, but its content guarantees broader appeal. ”

—Booklist “ An honest, much-needed look at one of the most crucial issues in education today. ” —Jackson Advocate

Since its initial publication in hardcover in 2003, *Fires in the Bathroom* has been through multiple printings and received the attention of teachers across the country. Now in paperback, Kathleen Cushman ’ s groundbreaking book offers original insights into teaching teenagers in today ’ s hard-pressed urban high schools from the point of view of the students themselves. It speaks to both new and established teachers, giving them firsthand information about who their students are and what they need to succeed. Students from across the country contributed perceptive and pragmatic answers to questions of how teachers can transcend the barriers of adolescent identity and culture to reach the diverse student body in today ’ s urban schools. With the fresh and often surprising perspectives of youth, they tackle tough issues such as increasing engagement and motivation, teaching difficult academic material, reaching English-language learners, and creating a classroom culture where respect and success go hand in hand.

Following on the heels of the bestselling *Fires in the Bathroom*, which brought the insights of high school students to teachers and parents, Kathleen Cushman now turns her attention to the crucial and challenging middle grades, joining forces with adolescent psychologist Laura Rogers. As teachers, counselors, and parents cope with the roller coaster of early adolescence, too few stop to ask students what they think about these critical years. Here, middle school students in grades 5 through 8 across the country and from diverse ethnic backgrounds offer insights on what it takes to make classrooms more effective and how to forge stronger relationships between young adolescents and adults. Students tackle such critical topics as social, emotional, and academic pressures; classroom behavior; organization; and preparing for high school.

Cushman and Rogers help readers hear and understand the vital messages about adolescent learning that come though in what these students say. This invaluable resource provides a unique window into how middle school students think, feel, and learn, bringing their needs to the forefront of the conversation about education.

This is a vital resource for any teacher or administrator looking to help students tackle issues of race, class, gender, religion, and cultural background. Authors Martha Caldwell and Oman Frame, both lifelong educators, offer a series of teaching strategies designed to encourage conversation and personal reflection, enabling students to think creatively, rather than stereotypically, about difference. Using the Transformational Inquiry method, your students will learn to explore their own identities, share stories and thoughts with their peers, learn more through reading and research, and ultimately take personal and collaborative action to affect social change in their communities. This second edition’s updates include new research throughout, as well as additional lessons on gender and sexuality. The lesson plans and handouts throughout the book are appropriate for middle and high school classes and are easy to implement into your own curriculum.

Limited and persecuted by racial divides in 1962 Jackson, Mississippi, three women, including an African-American maid, her sassy and chronically unemployed friend and a recently graduated white woman, team up for a clandestine project against a backdrop of the budding civil rights era. Includes reading-group guide. Reissue. A #1 best-selling novel.

A sequel to the classic *Fires in the Bathroom* that illuminates what adolescents most need from teachers in today’s upsetting times The context in which adolescents are learning has shifted radically since students first offered blunt advice to high school teachers in the groundbreaking *Fires in the Bathroom*, a perennial bestseller. Now their world is changing at warp speed, and classrooms too are seething with anxiety. This sequel raises the voices of diverse youth around the nation as they live through the mind-bending quandaries of this era and ask their teachers to notice. In *Fires in Our Lives*, Kathleen Cushman and her co-authors Kristien Zenkov and Meagan Call-Cummings (both leaders in bringing student voices to teacher education) present new first-person testimony on how today’s youth experience the risks and challenges of high school. The students who speak here need their teachers more than ever as they navigate cultural, social, and political borders in their communities. Reinforced by classroom examples and supplemented with helpful takeaways, *Fires in Our Lives* offers a compelling dialogue about students’ emotions, ideas, and developing agency. In a world that sorely needs the thoughtful participation of its rising generation, this new staple belongs on every high school teacher’s bookshelf.

This is an up-to-the-moment, engaging, multicultural introduction to education and teaching and the challenges and opportunities they present. Together, the four authors bring a rich blend of theory and practical application to this groundbreaking text. Jeannie Oakes is a leading education researcher and former director of the UCLA teacher education program. Martin Lipton is an education writer and consultant and has taught in public schools for 31 years. Lauren Anderson and Jamy Stillman are former public school teachers, now working as teacher educators. This unique, comprehensive foundational text considers the values and politics that pervade the U.S. education system, explains the roots of conventional thinking about schooling and teaching, asks critical questions about how issues of power and privilege have shaped and continue to shape educational opportunity, and presents powerful examples of real teachers working for equity and justice. Taking the position that a hopeful, democratic future depends on ensuring that all students learn, the text pays particular attention to inequalities associated with race, social class, language, gender, and other social categories and explores teachers role in addressing them. The text provides a research-based and practical treatment of essential topics, and it situates those topics in relation to democratic values; issues of diversity; and cognitive, sociocultural, and constructivist perspectives on learning. The text shows how knowledge of education foundations and history can help teachers understand the organization of today’s schools, the content of contemporary curriculum, and the methods of modern teaching. It likewise shows how teachers can use such knowledge when thinking about and responding to headline issues like charter schools, vouchers, standards, testing, and bilingual education, to name just a few. Central to this text is a belief that schools can and must be places of extraordinary educational quality and institutions in the service of social justice. Thus, the authors address head-on tensions between principles of democratic schooling and competition for always-scarce high-quality opportunities. Woven through the text are the voices of a diverse group of teachers, who share their analyses and personal anecdotes concerning what teaching to change the world means and involves. Click Here for Book Website Pedagogical Features: Digging Deeper sections referenced at the end of each chapter and featured online include supplementary readings and resources from scholars and practitioners who are addressing issues raised in the text. The Big Lies of School Reform provides a critical interruption to the ongoing policy conversations taking place around public education in the United States today. By analyzing the discourse employed by politicians, lobbyists, think tanks, and special interest groups, the authors uncover the hidden assumptions that often underlie popular statements about school reform, and demonstrate how misinformation or half-truths have been used to reshape public education in ways that serve the interests of private enterprise. Through a thoughtful series of essays that each identify one “lie” about popular school reform initiatives, the authors of this collection reveal the concrete impacts of these falsehoods—from directing funding to shaping curricula to defining student achievement. Luminary contributors including Deborah Meier, Jeannie Oakes, Gloria Ladson-Billings, and Jim Cummins explain how reform movements affect teachers and administrators, and how widely-accepted mistruths can hinder genuine efforts to keep public education equitable, effective, and above all, truly public. Topics covered include common core standards, tracking, alternative paths to licensure, and the disempowerment of teachers’ unions. Beyond critically examining the popular rhetoric, the contributors offer visions for improving educational access, opportunity, and outcomes for all students and educators, and for protecting public education as a common good.

A triumphant tale of a young woman and her difficult childhood, *The Glass Castle* is a remarkable memoir of resilience, redemption, and a revelatory look into a family at once deeply dysfunctional and wonderfully vibrant. Jeannette Walls was the second of four children raised by anti-institutional parents in a household of extremes.

One day Sophie comes home from school to find two questions in her mail: "Who are you?" and "Where does the world come from?" Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder's unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.

"The book provides practical steps on how to prepare for a life in teaching, curriculum-making, building relationships with students, and fostering an effective learning environment. Should I become a teacher? What commitments should I bring with me into the classroom? How should I develop my own unique teaching signature? These are three of the questions that shape and structure this accessible and helpful guide for people who are moving toward teaching. Grounding hands-on advice and concrete examples in a concept of teaching as both a practical art and an essentially ethical practice, this book can be put to immediate use even as it invites new and prospective teachers to consider the deepest dimensions of a life in teaching"--

The visionary author ’ s masterpiece pulls us—along with her Black female hero—through time to face the horrors of slavery and explore the impacts of racism, sexism, and white supremacy then and now. Dana, a modern black woman, is celebrating her twenty-sixth birthday with her new husband when she is snatched abruptly from her home in California and transported to the antebellum South. Rufus, the white son of a plantation owner, is drowning, and Dana has been summoned to save him. Dana is drawn back repeatedly through time to the slave quarters, and each time the stay grows longer, more arduous, and more dangerous until it is uncertain whether or not Dana’s life will end, long before it has a chance to begin.
