

First Grade Journal Starters

It's my bible for teaching young children and It reads like a novel, said veteran and preservice teachers alike.

From the day it was released in 2000, Keeping a Nature Journal has struck a profound chord among professional, casual, and occasional naturalists of all ages. In response to this groundswell of enthusiasm, we have revised KEEPING A NATURE JOURNAL, updated the interior design, and created a new cover. Undoubtedly the most exciting new element in this second edition is a portfolio of 32 illustrated pages from Clare Walker Leslie's most recent journals, reproduced in full color. What makes KEEPING A NATURE JOURNAL so popular? It is inspiring and easy to use. Clare and co-author Charles Chuck E. Roth offer simple techniques to give first-time journal-keepers the confidence to go outside, observe the natural world, and sketch and write about what they see. At the same time, they motivate long-time journal-keepers to hone their powers of observation as they immerse themselves in the mysteries of the natural world. Clare and Chuck stress that the journal is a personal record of daily experience and the world around us. Nature's beauty can be observed everywhere, whether in the city, suburbs, or country.

This kids writing prompt journal is perfect for teachers to use for a classroom monthly journal or help parents develop strong writing skills at home by incorporating drawing fun.

Ideas and examples for helping children keep journals and do other creative writing activities.

Twelve-year-old Grace and her feline best friend, Midnight, have a secret: Midnight is a ghost. But then again, so are the rest of Graces' friends.Since she's the only person in hundreds of years with the ability to see them, the many ghosts of Tansy have flocked to Grace since birth. She doesn't mind. She prefers the company of the dead to that of the cliquey kids at school. Grace is happy with her strange life, until one day, the ghosts tell her about the secret her town has hidden for centuries. There's a reason there are more ghosts than living people in Tansy. Three-hundred years ago, a lonely witch cast a spell that mistakenly trapped the soul of every person to ever set foot in the tiny town. So when the spirits beg her to find a way to break the curse, Grace is eager to help. As she searches for answers, Grace makes discoveries about the secret her family hid for generations and a world of magic hidden in her own backyard.Grace soon realizes that if she succeeds in breaking the curse, she'll lose Midnight and all of her ghost friends, but if she fails, everyone living in Tansy will face the same fate. Can Grace break the curse before it's too late?

Expanding on the philosophy and methods of The Laws Guide to Nature Drawing and Journaling, John Muir Laws and Emilie Lygren have developed the first-ever comprehensive book devoted to helping educators use nature journaling as an inspiring teaching tool to engage young people with wild places. In their workshops Laws and Lygren are often asked the how-tos of teaching nature journaling: how to manage student groups in the outdoors, teach drawing skills (especially from those who profess to have none), connect journaling to educational standards, and incorporate journaling into longer lessons. This book puts together curriculum plans, advice, and in-the-field experience so that educators of all stripes can leap into journaling with their students. The approaches are designed to work in a range of ecosystems and settings, and are suitable for classroom teachers, outdoor educators, camp counselors, and homeschooling parents. Full-color illustrations and sample journal pages from notable naturalists show how to put each lesson into practice. Field-tested by over a hundred educators, this book includes dozens of activities that easily support the Common Core and the Next Generation Science Standards--and, just as important, it will show kids and mentors alike how to recognize the wonder and intrigue in their midst.

"Diabetes is a serious, chronic disease that occurs either when the pancreas does not produce enough insulin (a hormone that regulates blood sugar, or glucose), or when the body cannot effectively use the insulin it produces. Diabetes is an important public health problem, one of four priority noncommunicable diseases (NCDs) targeted for action by world leaders. Both the number of cases and the prevalence of diabetes have been steadily increasing over the past few decades. Globally, an estimated 422 million adults were living with diabetes in 2014, compared to 108 million in 1980. The global prevalence (age-standardized) of diabetes has nearly doubled since 1980, rising from 4.7% to 8.5% in the adult population. This reflects an increase in associated risk factors such as being overweight or obese. Over the past decade, diabetes prevalence has risen faster in low- and middle-income countries than in high-income countries. Diabetes caused 1.5 million deaths in 2012. Higher-than-optimal blood glucose caused an additional 2.2 million deaths, by increasing the risks of cardiovascular and other diseases. Forty-three percent of these 3.7 million deaths occur before the age of 70 years. The percentage of deaths attributable to high blood glucose or diabetes that occurs prior to age 70 is higher in low- and middle-income countries than in high-income countries. Because sophisticated laboratory tests are usually required to distinguish between type 1 diabetes (which requires insulin injections for survival) and type 2 diabetes (where the body cannot properly use the insulin it produces), separate global estimates of diabetes prevalence for type 1 and type 2 do not exist. The majority of people with diabetes are

affected by type 2 diabetes. This used to occur nearly entirely among adults, but now occurs in children too."--Page 6.

The development of good reading and writing skills is essential not only for success in school but also for success in life. Writing daily will help your student develop his/her writing skills and practice sentence development---a fundamental key to becoming an excellent writer. This blank writing journal can be used in conjunction with ready-made story-starters or it can be used daily as a tool by student writers to record their day's activities, adventures, imaginative thoughts, etc. Journals can help students clarify their thoughts. Taking time to jot down feelings and thoughts about daily events can give young writers an opportunity to discover what they think and how they feel about different topics. Writing in a journal is comfortable for beginning writers because it is a casual and informal process. It isn't structured or graded. Students are allowed to free-write and become immersed in expression. Students should be allowed to write about different topics, which will give them the opportunity to improve their writing skills while exploring their thoughts without being chastised for grammar, usage, or other errors. Let this journal be an "idea book"--a place where the student is free to "think" in writing.
