*While most children learn to read fairly well, there remain many young Americans whose futures are imperiled because they do not read well enough to meet the demands of our competitive, technology-driven society. This book explores the problem within the context of social, historical, cultural, and biological factors. Recommendations address the identification of groups of children at risk, effective instruction for the preschool and early grades, effective approaches to dialects and bilingualism, the importance of these findings for the professional development of teachers, and gaps that remain in our understanding of how children learn to read. Implications for parents, teachers, schools, communities, the media, and government at all levels are discussed. The book examines the epidemiology of reading problems and introduces the concepts used by experts in the field. In a clear and readable narrative, word identification, comprehension, and other processes in normal reading development are discussed. Against the background of normal progress, *Preventing Reading Difficulties in Young Children* examines factors that put children at risk of poor reading. It explores in detail how literacy can be fostered from birth through kindergarten and the primary grades, including evaluation of philosophies, systems, and materials commonly used to teach reading.*

THIS JOURNAL is designed to make learning to spell a more positive experience for both first grade students and their families. Once the teacher delivers the spelling assignment for the week the child can use this journal as the designated place to practice writing their spelling words all week long. This journal has proven to raise student's grades, as well as their confidence when it's time for them to take their spelling test. At the end of the year the student will be able to look back over their journal with pride realizing their accomplishment of this very vital milestone in a tangible way. The learning experience is both organized and easily preserved when students use this spelling words journal. Parents have reported to us that their child experienced an immediate improvement in their spelling scores once they began consistently journaling their spelling words in this spelling journal. What Your First Grader Needs to Know (Revised and Updated)

"Educators and researchers disagree about the best way to teach spelling to children. Frustrations from the lack of a spelling program provided by the school led the author to research a new spelling routine focused on choice and differentiation of spelling lists. First-grade students participated in a three-and-a-half-week study focused on the effects of individualized, student-selected spelling lists on student learning and motivation. Students took pre-and post-surveys about their viewpoints of various activities involved in first-grade spelling, which included spelling lists, word-work, spelling tests, and personal feelings about spelling achievement. The researcher held one-on-one discussions with students about spelling and observed students during spelling. Students' spelling test grades and sentence dictation grades were recorded along with an analysis of specific student word choices in relation to their developmentally appropriate spelling level. Students enjoyed the choice that was intertwined into the study when they selected words for their lists, practiced in the classroom with word-work activities, and practiced at home with spelling homework assignments. Student motivation for word-work and spelling increased during the study.

Implications from this study demonstrate student attitudes and reflections of a new spelling program in the classroom. The author argues that choice is an important motivator in a spelling program."--Abstract.
