The study of early drama has undergone a quiet revolution in the last four decades, radically altering critical approaches to form, genre, and canon. Drawing on disciplines from art history to musicology and reception studies, The Routledge Research Companion to Early Drama and Performance reconsiders early "drama" as a mixed mode entertainment best studied not only alongside non-dramatic texts, but also other modes of performance. From performance before the playhouse to the afterlife of medieval drama in the contemporary avant-garde, this stunning collection of essays is divided into four sections: Northern European Playing before the Playhouse; Modes of Production and Reception; Reviewing the Anglophone Tradition; The Long Middle Ages Offering a much needed reassessment of what is generally understood as "English medieval drama", The Routledge Research Companion to Early Drama and Performance provides an invaluable resource for both students and scholars of medieval studies. The national element in music has been the subject of important studies, yet the scholarly framework has remained restricted almost exclusively to the field of music studies. This volume brings together experts from different fields (musicology, literary theory and modern Greek studies), who investigate the links that connect music, language and national identity, focusing on the Greek paradigm. Through the study of the Greek case, the book paves the way for innovative interdisciplinary approaches to the formation of the 'national' in different cultures, shedding new light on ideologies and mechanisms of cultural policies.

The first study of colonial Taiwan in English, this volume brings together seventeen essays by leading scholars to construct a comprehensive cultural history of Taiwan under Japanese rule. Contributors from the United States, Japan, and Taiwan explore a number of topics through a variety of theoretical, comparative, and postcolonial perspectives, painting a complex and nuanced portrait of a pivotal time in the formation of Taiwanese national identity. Essays are grouped into four categories: rethinking colonialism and modernity; colonial policy and cultural change; visual culture and literary expressions; and from colonial rule to postcolonial independence. Their unique analysis considers all elements of the Taiwanese colonial experience, concentrating on land surveys and the census; transcolonial coordination; the education and

*recruitment of the cultural elite; the evolution of print culture and national literature; the effects of subjugation, coercion, discrimination, and governmentality; and the root causes of the ethnic violence that dominated the postcolonial era. The contributors encourage readers to rethink issues concerning history and ethnicity, cultural hegemony and resistance, tradition and modernity, and the romancing of racial identity. Their examination not only provides a singular understanding of Taiwan's colonial past, but also offers insight into Taiwan's relationship with China, Japan, and the United States today. Focusing on a crucial period in which the culture and language of Taiwan, China, and Japan became inextricably linked, Taiwan Under Japanese Colonial Rule effectively broadens the critique of colonialism and modernity in East Asia. This is a book that looks at how drama has its basis in good early years practice. Most early years practitioners are doing some drama and are edging towards more structured work - this text will help them go further by building their own skills. Using tried and tested example dramas based on traditional stories, the authors show how clearly dramas are constructed. They move from the simple use of TiR (Teacher in Role) to more complex, full dramas, using traditional stories including Little Bo Peep, Cinderella, Sleeping Beauty, Humpty Dumpty, The Pied Piper, The Billy Goats Gruff and Hansel and Gretel. Drama in the early years covers a number of key areas where drama is of particular importance for this age group including: * drama in the National Curriculum * how drama can help your teaching of the Literacy Hour * personal and social education and citizenship * drama and special needs * assessment * recording and progression * developing a school policy for drama.*

Everyone has heard of Method acting . . . but what about Modern acting? This book makes the simple but radical proposal that we acknowledge the Modern acting principles that continue to guide actors' work in the twenty-first century. Developments in modern drama and new stagecraft led Modern acting strategies to coalesce by the 1930s – and Hollywood's new role as America's primary performing arts provider ensured these techniques circulated widely as the migration of Broadway talent and the demands of sound cinema created a rich exchange of ideas among

actors. Decades after Strasberg's death in 1982, he and his Method are still famous, while accounts of American acting tend to overlook the contributions of Modern acting teachers such as Josephine Dillon, Charles Jehlinger, and Sophie Rosenstein. Baron's examination of acting manuals, workshop notes, and oral histories illustrates the shared vision of Modern acting that connects these little-known teachers to the landmark work of Stanislavsky. It reveals that Stella Adler, long associated with the Method, is best understood as a Modern acting teacher and that Modern acting, not Method, might be seen as central to American performing arts if the Actors' Lab in Hollywood (1941-1950) had survived the Cold War.

In the two decades since the publication of the second edition, *Learning Through Theatre* has further established itself as an indispensable resource for scholars, practitioners and educators interested in the complex interrelations between teaching and learning, the performing arts, and society at large. *Theatre in Education (TIE)* has consistently been at the cutting edge of the ever-growing field of Applied Theatre; this comprehensively revised new edition makes an international case for why, and how, it will continue to shape ways in which the participatory arts contribute to the learning of young people (and increasingly, adults) in the 21st century. Drawing on the experiences and insights of theorists and practitioners from across the world, *Learning Through Theatre* shows how theatre can, and does, promote: participatory engagement; the use of innovative theatrical form; work with young people and adults in a range of educational settings; and social and personal change. Now transatlantically edited by Anthony Jackson and Chris Vine, *Learning Through Theatre* offers exhilarating new reflections on the book's original aim: to define, describe and debate the salient features, and wider political context, of one of the most important – and radical – developments in contemporary theatre.

Mandates to implement practices that are antithetical to what we embrace as supportive of young children's literacy learning are pervasive. Teachers of young children are asked to teach-to-the test in ways that take away opportunities for holistic, thoughtful, play-oriented practices that allow children to construct knowledge through contextualized and purposeful experiences. In 2009 the Early Childhood Assembly was formed by a group of early childhood educators to provide a home at the National Council for Teacher of English for all who work with young children. Perspectives and Provocations in Early Childhood Education is a publication of the ECEA. The publication is intended to support teachers of young children and those interested in studying about early literacy by putting on offer texts with a strong emphasis on promoting thoughtful practices that enhance the teaching and learning of young children within and across diverse communities. All royalties from the book go to the ECEA to help the organization advance its goals of providing scholarships for early childhood teachers to participate in conferences and professional development events. This open access book examines the educational conditions that support cultures of exploration in kindergartens. It conceptualises cultures of exploration, whether those cultures are created through children's own engagement or are demanded of them through undertaking specific tasks within different institutional settings. It shows how the conditions for children's exploration form a web of activities in different settings with social relationships, local landscapes and artefacts. The book builds on the understanding of cultural traditions as deeply implicated in the developmental processes, meaning that local considerations must be reflected in education for sustainable futures. Therefore the book examines and conceptualises exploration and cultural formation through locally situated cases and navigates toward global educational concepts. The book provides different windows into how children may explore in everyday practice settings in kindergarten, and contributes to a loci-based, ecological, integral knowledge relevant for early childhood education.

Emphasises two lines of training. First, the recognition, planning, and communication of evocative stage imagery. Second, the development of the pantomimic and vocal instruments for the communication of this image to the audience. Considerable space is given to the building of a dramatic role.

We all experience drama in one form or another. Whether it's relational conflicts, financial stress, addiction, anger, overeating, or any number of problems; drama is not something that happens to us, but something that happens within us. In whatever form we experience it, drama is ultimately the internal dialogue of wrestling against 'what is'. Drop the Drama! From Drama Addiction to Simply Inspired Living asserts that we become drama addicts, emotionally reacting to life, recreating life stories based on a limited understanding of who we really are. In an approach that transcends all spiritual paths, Drop the Drama! takes an alternative view of the ancient story of Adam and Eve challenging our traditional ways of viewing God, self, the nature of reality, and ultimately revealing a new way of Simply Inspired Living for all humanity. Explore the root cause of suffering; The Drama Mind. Expose the symptoms of the Drama Mind and how it cloaks itself from our awareness. Drop the cycles of Shame, Blame, and The Drama Game. Discover 'The Quest', questions found in the story of Adam and Eve leading us out of drama and back to Simply Inspired Living. Drop the Drama! is not about providing more factual knowledge for the mind, or getting motivated to achieve certain results in life. It is about uncovering the stories we create, the discovery of who we really are, and unleashing a life that is simply inspiring. Are you ready to Drop the Drama?

Available in English for the first time, *Modern Armenian Drama* presents seven classic works from the Armenian stage. Spanning over a century (1871–1992), the plays explore such diverse themes science and religion, socioeconomic injustice, women's emancipation, and political reform through the medium of all the major European dramatic genres. Nishan Parlakian and S. Peter Cowe provide a comprehensive introduction to the history of Armenian drama, giving a valuable overview of its importance and development in Armenia, as well as a brief biography for each playwright. A preface to each play helps in placing the work within the context of historical and cultural issues of the time. Like the plays of Ibsen and O'Neill, the plays presented in this anthology are considered modern classics. They have an enduring quality and appeal to audiences who see them today. The editors have collected translations of the best examples of Armenian theater from its renaissance in the mid-nineteenth century to the present.

The Process of Drama provides an original and invaluable model of the elements of drama in context, and defines how these are negotiated to produce dramatic art. John O'Toole takes the reader through a lively, fascinating account of the relationships between the playwright, the elements of dramatic art, and the other artists involved in this most interactive of creative processes. In doing so he demonstrates - with clarity and wit - how dramatic meaning emerges; how the dramatic event is constructed. Areas covered include: roles and relationships the drama space language and movement tension and the audience gesture and movement This is an essential book for every student of drama who wants to understand how the theatrical art form operates

'*Learning Through Drama*' contains drama strategies and lesson plans for use with primary school children across the curriculum. The book provides guidance to teachers who have never taught drama before but are considering using it in a subject area such as science or history and offers new approaches to those familiar with common drama techniques (such as hot-seating and teacher in role). The book includes 36 drama strategies and over 250 cross-curricular activities, including practical ideas for inspiring speaking, listening and writing.

'This book is a beautifully laid-out, easy to use resource, full of imaginative and practical ideas to help learning become much more memorable and inspirational.'
- Hilary Lewis (Drama Consultant). 'Even the well-practiced and creative drama teacher will find something in this book that serves as a refresher, reminder or quite simply a new idea... a must-have publication for those serious about the teaching of drama in primary school settings.' - *Teaching Drama* magazine.

This is a handbook for teachers and facilitators working with people with learning disabilities who are interested in creative expression through drama. Based on their considerable experience working with the Strathcona Theatre Company, Ian McCurrach and Barbara Darnley have created a step-by-step guide to running a drama group.

Step-by-step lesson plans take teachers through every aspect of running fun and engaging story dramas, including warm ups, movement, songs and props. Handy tips throughout suggest ideas for developing the plays further and ways to adapt them according to the needs of the group.
