In *Soundworks* Anthony Reed argues that studying sound requires conceiving it as process and as work. Since the long Black Arts era (ca. 1958–1974), intellectuals, poets, and musicians have defined black sound as radical aesthetic practice. Through their recorded collaborations as well as the accompanying interviews, essays, liner notes, and other media, they continually reinvent black sound conceptually and materially. Soundwork is Reed's term for that material and conceptual labor of experimental sound practice framed by the institutions of the culture industry and shifting historical contexts. Through analyses of Langston Hughes's collaboration with Charles Mingus, Amiri Baraka's work with the New York Art Quartet, Jayne Cortez's albums with the Firespitters, and the multimedia projects of Archie Shepp, Matana Roberts, Cecil Taylor, and Jeanne Lee, Reed shows that to grasp black sound as a radical philosophical and aesthetic insurgence requires attending to it as the product of material, technical, sensual, and ideological processes.

A new book from Benj Pasek and Justin Paul, the award-winning songwriters of the hit Broadway show *Dear Evan Hansen*. When Benj Pasek and Justin Paul set out to write a pivotal song for *Dear Evan Hansen*, a musical they had been working on for years, they knew it had to be big and emotional and genuine. So they tapped into their main

character's loneliness and allowed him to sing his way out of it. The result was "You Will Be Found," a song that sets in motion a moment that goes viral in the world of the show and in turn helps Evan find connection. And then something happened in the world outside the show: Fans loved the song. It connected. It went viral. People who had never even seen Dear Evan Hansen found the song, and found comfort in its message of hope. This beautifully illustrated edition of the "You Will Be Found" lyrics is for them, and for anyone on the edge of a new chapter in life. It serves as a reminder to anyone who feels lost or uncertain that, as the song says, you are not alone.

In the motets of Philippe de Vitry, Guillaume de Machaut, and their contemporaries, tenors have often been characterized as the primary shaping forces, prior in conception as well as in construction to the upper voices. Tenors are shaped by the interaction of *talea* and *color*, medieval terms now used to refer to the independent repetition of rhythms and pitches, respectively. The presence in the upper voices of the periodically repeating rhythmic patterns, often referred to as "isorhythm," has been characterized as an amplification of tenor structure. But a fresh look at the medieval treatises suggests a revised analytical vocabulary: for many fourteenth- and fifteenth-century writers, both *color* and *talea* involved rhythmic repetition, the latter in the upper voices specifically. And attention to upper-voice *taleae* independently of tenor structures brings renewed emphasis to the significant portion of the repertory in which upper voices evince formal schemes that differ from those in the tenors. These structures in turn suggest a revision of the presumed compositional process for motets, implying that in some cases upper-voice text and forms may have preceded the selection and organization of tenors. Such revisions have implications for hermeneutic endeavors, since not only the forms of motet voices but the meanings of their texts change, depending on whether analysis proceeds from the tenor up, or from the top down. Where the presumed compositional and structural primacy afforded to tenors has encouraged a strand of interpretation that reads the upper-voice poetry as conforming to, and amplifying, the tenor text snippets and their liturgical contexts, a "bottom-down" view casts tenors in a supporting role and reveals the poetic impulse of the upper voices as the organizing principle of motets.

A Washington Post Bestseller Not all collaboration is smart. Make sure you do it right.

Professional service firms face a serious challenge. Their clients increasingly need them to solve complex problems—everything from regulatory compliance to cybersecurity, the kinds of problems that only teams of multidisciplinary experts can tackle. Yet most firms have

carved up their highly specialized, professional experts into narrowly defined practice areas, and collaborating across these silos is often messy, risky, and expensive. Unless you know why you 're collaborating and how to do it effectively, it may not be smart at all. That 's especially true for partners who have built their reputations and client rosters independently, not by working with peers. In *Smart Collaboration*, Heidi K. Gardner shows that firms earn higher margins, inspire greater client loyalty, attract and retain the best talent, and gain a competitive edge when specialists collaborate across functional boundaries. Gardner, a former McKinsey consultant and Harvard Business School professor now lecturing at Harvard Law School, has spent over a decade conducting in-depth studies of numerous global professional service firms. Her research with clients and the empirical results of her studies demonstrate clearly and convincingly that collaboration pays, for both professionals and their firms. But Gardner also offers powerful prescriptions for how leaders can foster collaboration, move to higher-margin work, increase client satisfaction, improve lateral hiring, decrease enterprise risk, engage workers to contribute their utmost, break down silos, and boost their bottom line. With case studies and real-world insights, *Smart Collaboration* delivers an authoritative case for the value of collaboration to today 's professionals, their firms, and their clients and shows you exactly how to achieve it.

Two American ex-pats obsessed with the Amanda Knox trial find themselves at the nexus of murder and celebrity in glittering late-aughts Berlin in this “hugely entertaining” (The New York Times) debut with a wicked sense of humor. “Darkly funny, psychologically rich and utterly addictive... [a] harrowing tale of twisty female friendships, slippery identity and furtive secrets.” —Megan Abbott, best-selling author of *The Turnout* Hoping to escape the pain of the recent murder of her best friend, art student Zoe Beech finds herself studying abroad in the bohemian capital of Europe—Berlin. Rudderless, Zoe relies on the arrangements of fellow exchange student Hailey Mader, who idolizes Warhol and Britney Spears and wants nothing more than to be an art star. When Hailey stumbles on a posting for a high-ceilinged, prewar sublet by well-known thriller writer Beatrice Becks, the girls snap it up. They soon spend their nights twisting through Berlin’s club scene and their days hungover. But are they being watched? Convinced that Beatrice intends to use their lives as inspiration for her next novel, Hailey vows to craft main-character-worthy personas. They begin hosting a decadent weekly nightclub in the apartment, finally gaining the notoriety they’ve been craving. Everyone wants an invitation to “Beatrice’s.” As the year unravels and events spiral out of control, they begin to wonder whose story they are living—and how it will end. *Other People’s Clothes* brilliantly illuminates the sometimes dangerous intensity of female friendships, as well as offering an unforgettable window into millennial life and the lengths people will go to in order to eradicate emotional pain.

Words have power, and those that Black women often use to describe their hair are derogatory: nappy, steel wool, out of control. They often personally inherit these terms and pass them along without even realizing the crushing effects these words have on their feelings about the person they see in the mirror. While many books on the market address the practical ways of styling Afro-textured hair naturally, *Hairlooms* asks: Why is it so difficult for Black women to embrace their hair? and How can Black women overcome the multi-layered challenge of embracing their natural hair and beauty? Author Michele Tapp Roseman helps readers answer these questions for themselves, to write a new story that they can pass along. A recent Huffington Post article "Natural Hair Becoming Even More Popular Among Black Women" revealed a marked increase in the number of Black women who do not chemically treat their hair, yet also struggle to accept their natural hair and beauty. Through personal, revealing stories *Hairlooms* examines the issues behind these struggles. Guided exercises throughout help readers "comb through" their self-perceptions and form a plan for self-acceptance and personal empowerment. *Hairlooms* includes 32 compelling personal stories about those who have embraced their God-given hair and beauty, including: Major General Marcia Anderson—Senior advisor to the Chief on policies and programs for the U.S. Army Reserve, and the first woman to earn the distinction of a two-star general in the U.S. Army Reserve. The late Dr. Maya Angelou—World-renowned poet and author. The recipient of 30 honorary degrees and former Reynolds Professor of American Studies at Wake Forest University. Lisa Price—Founder of Carol's Daughter hair and beauty brand, a favorite of celebrities, and now sold in stores from coast-to-coast. Now owned by L'Oréal, Price is still at the helm of this growing business. Jane Carter—A professional hair stylist/colorist and salon owner, she founded the Jane Carter Solution after an allergic reaction caused by prolonged exposure to chemicals in traditional hair care products. Today, Jane Carter Solution sells millions of dollars' worth of products in Whole Foods Market, Sally Beauty Supply, Walmart, Target, CVS, and Walgreens stores. A'Lelia Bundles—Great-great granddaughter of the first Black female millionaire and hair-care creator, Madam C. J. Walker. She has teamed with Sephora and Sundial Brands to launch the Madam C.J. Walker Beauty Culture product line. A'Lelia is also a seasoned journalist, public speaker, and author of the New York Times bestseller, *On Her Own Ground: The Life and Times of Madam C. J. Walker*. Kim Coles—Hollywood actress, comedian, and featured guest on Dr. Drew's *Lifechangers* "Good Hair Debate" episode. Tomiko Fraser—The first African-American woman signed exclusively to Maybelline, and the longest-serving spokesperson for any cosmetics company.

In *Percussion Pedagogy*, author Michael Udow offers a practical guide for students interested in teaching percussion as well as improving their technique. Udow first introduces the bouncing ball system, a technical analogy that teaches students to resist the effects of inertia. Throughout the book, the bouncing ball analogy develops into a core performance principle based on integrated motions resulting in refined tone quality and meaningful musicianship. The book applies this principle to several instruments including snare drum, timpani, marimba, vibraphone, multiple-percussion, tambourine and triangle, bass drum, cymbals, tam-tams, and a variety of Western concert and world percussion repertoire. In particular, Udow addresses the importance of coupling stroke types with stickings to set the foundation for precise rhythmic playing and expressive musicality. Chapters also focus on integrated rhythms, breath, and pulsed rhythms, anatomy and physiological health, psychological health, purposeful listening, and the importance of singing when practicing. Offering solutions to common performance problems, the book's many examples serve as a paradigm for future problem solving. A comprehensive companion website complements Udow's teachings with a wealth of video tutorials and listening examples.

The eureka moment is a myth. It is an altogether naïve and fanciful account of human progress. Innovations emerge from a much less mysterious combination of historical, circumstantial, and accidental influences. This book explores the origin and evolution of several important behavioral innovations including the high five, the Heimlich maneuver, the butterfly stroke, the moonwalk, and the

Iowa caucus. Such creations' striking suitability to the situation and the moment appear ingeniously designed with foresight. However, more often than not, they actually arise 'as if by design.' Based on investigations into the histories of a wide range of innovations, Edward A. Wasserman reveals the nature of behavioral creativity. What surfaces is a fascinating web of causation involving three main factors: context, consequence, and coincidence. Focusing on the process rather than the product of innovation elevates behavior to the very center of the creative human endeavor.

Dalcroze Techniques in the Choral Rehearsal 6. Creating Artistry Through a Kodaly Curriculum 7. The Boy's Expanding Voice: Take the High Road 8. Leadership Style 9. Organization 1 . Epilogue As an added bonus, the book includes a CD-ROM with dozens of helpful forms and documents from the Indianapolis Children's Choir covering organizing a children's choir, auditions, governing documents, managing volunteers, fundraising, grant writing and much more! Although there have been many settings of this inspired text, either under this title or American poet Sara Teasdale's original title, Barter, Carey's setting is the most intently aware of the sad irony of the poem as viewed in the context of Teasdale's eventual death by suicide. This is revealed in the use of minor and modal harmonies and the pang of melancholy intertwined with moments of soaring beauty. This sensitive setting will offer conductors the opportunity to teach flowing lines as well as the elements of choral blend and tuning. Life is a fragile yet persistent miracle.
