When Cheryl is abducted, raped and brutally beaten instead, she is faced with solving a much bigger problem: how does she survive? Using her journey of rising from the ashes as fuel, Hunter delivers a step-by-step method that can be applied by anyone who has ever dealt with less-than-favorable circumstances. reins, design a life you love, and become the unstoppable force of nature you were born to be. The „true" Drama of the Gifted Child is a biography of the famous childhood researcher Alice Miller. As her son and as an experienced psychotherapist I discovered the secret who Alice Miller really was. My mother always cared that nothing of her private life got public. She created a fictional character in her books and in mine she gets a real person, a man of flesh and blood. It's also my history because I describe, how it is when you are faced, as a child and in second generation, with the not coped post-

My book shows what happens when you do not overcome your traumas and you pass them on the next generation. The book is also a concrete application of Alice Miller's theory. It shows how you can overcome the terrible legacy of your parents in a therapeutical way. I can release myself of the filial involvement with my parents by having elaborated my own biography.

are many of the most successful people plagued by feelings of emptiness and alienation? This wise and profound book has provided millions of readers with an answer--and has helped them to apply it to their own lives. Far too many of us had to learn as children to hide our own feelings, needs, and memories skillfully in order to meet our parents' expectations and win their "love." Alice Miller writes, "When I used the word 'gifted' in the title, I had in mind neither children who receive high grades in school nor children talented in a special way. I simply meant all of us who have survived an abusive

strong, and poetic language, Miller investigates the personal stories and case histories of various self-destructive and/or violent individuals to expand on her theories about the long-term affects of abusive child-rearing. Her conclusions—on what sort of parenting can create a drug addict, or a murderer, or a Hitler—offer much insight, and make a good deal of sense, while also straying far from psychoanalytic dogma about human nature, which Miller vehemently rejects.
