Harrison Ford is known for such iconic roles as Han Solo, Indiana Jones and Rick Deckard - but his career of 50 years (and counting) encompasses a plethora of other thought-provoking roles. His off-screen persona has been no less intriguing.

Covering a wide timespan, this book assesses Harrison Ford as 'star' from the difficult Hollywood studio years where he began, his blockbusters of the 1980s, through to the impact of ageist culture on his artistry of recent years. The author argues that Ford has generally been seen as a potent, irresistible combination of tradition and modernity. He is an actor who both reflects and utilises changing ideas about American masculinity in the context of Hollywood film production: particular male types are revealed as much in his trademark trustworthy hero act as in his more fallible, less conservative and therefore commercially riskier characters. Luzon Aguado explores these particular star identities and every fluctuation in between. She gives due attention to his much-neglected acting abilities while examining the crucial interplay between star persona and the constraints and conventions of genre. Going beyond standard accounts of Ford's production and pinpointing overlooked aspects of his work, and the creation of the star through cultural artefacts like magazine interviews and advertising campaigns, this book reveals the depth and dimensions of the enduring American screen legend that is Harrison Ford.

Traces the films of Harrison Ford, from his debut in 'Dead Heat on a Merry-Go-Round' through his success as Han Solo and Indiana Jones to his roles in 'The Fugitive' & 'Air Force One'. This title has a 5 star Amazon review.

Bibliography of Works and Criticism

Ford Madox Ford - novelist, poet, critic, champion of young authors, travel writer, chronicler of his own times - was a man "mad about writing." As Ezra Pound observed, Ford "actually lived the heroic artistic life that Yeats talked about." An incorrigible bohemian who passed as "a nice old gentleman at a tea party," Ford devoted himself to literature and the arts, founding two important literary magazines, *The English Review* and the *transatlantic review*, and writing over eighty books, including *The Good Soldier* and *Parade's End*. In 1917, when he was serving in the British army, Ford met the Australian painter Stella Bowen, then studying with Walter Sickert at the Westminster School of Art. They lived together from 1919 to 1928, at first in an old laborer's cottage in Sussex, where they rebuilt their lives in the aftermath of the Great War. For Stella, orphaned at an early age, their home together was "a place in the sun and against the rain too." For Ford, who at first felt that he could no longer write, this was the beginning of a new life, one in which the strength and sanity of his companion did much to encourage the completion of one of the most important novels of the twentieth century. In fact, much of the raw material for *Parade's End* is found in these letters. We see the honesty, stoicism, and sanity of Stella Bowen in Ford's heroine Valentine Wannop. Stella's own story is of particular interest to readers today. After their break-up, she was a single parent, struggling to support herself and her daughter Julie by painting portraits in England and by acting as Ford's literary agent in London. Ford's poverty during the thirties, in spite of his continuous production of books and articles, made him and Bowen equals in the struggle for survival. The letters provide a portrait of Ford not found in his memoirs and biographies: "I write to you as I never took the trouble to write to any other soul," he tells Stella, "how I really feel under a placid exterior." His attitudes toward religion, education, morality, marriage, and art - the true subjects of his fiction - are here expressed clearly and unequivocally.

The Protean personality and career of Ford Madox Ford as poet, novelist, editor, critic, and ' ' miscellaneous writer" have made: him one of the most elusive of modern authors. In this bibliography, which includes extensive excerpts of writings by and about Ford as well as complete descriptions of the various editions of his book and periodical publications, David Dow Harrvey has at last made it possible to form a true estimate of Ford ' s involvements with other writers and his contributions to modern literature. Originally published in 1961. Henry Ford for Kids provides an in-depth portrait of the man who "put America on wheels." You'll learn about Ford's childhood on a Michigan farm, where the budding engineer loved to take apart and reassemble everything from toys to watches to machinery; about his revolutionary labor ideas, including paying higher wages and hiring women and the disabled at a time when many companies would not; about his fervent opposition to war and the lasting impact of his widespread philanthropy. But you'll also learn that this automotive giant was a flawed individual whose controversial views and heavy-handed management style alienated many, yet whose engineering genius and impact on the world are undeniable. Packed with historic photos and illuminating sidebars, the book brings the turn of the 20th century to life. Twenty-one hands-on activities encourage young innovators to apply engineering and production ideas and learn more about the era. Kids will build a lemon-powered battery; form an assembly line; learn to "read" simple industrial drawings; design an automobile dashboard; learn to dance the waltz; and much more. Masculinity and Stardom in Hollywood

John Ford's early Westerns reflect an optimistic view of society and individual capacity; as his thematic vision evolved, he became more resigned to the limitations of humanity. His thematic evolution was evident in other films, but was best shown in his Westerns, with their stark depictions of the human condition. Ford's sound Westerns and his major silent films are compared in this work, revealing how his creative genius changed over time. A complete filmography of Ford's Westerns is also provided.
