DYKE'S AUTOMOBILE AND GASOLINE ENGINE ENCYCLOPEDIA

The novel is the major literary phenomenon of the twentieth century, and its development in Britain since 1900 has reflected the tumultuous changes that have characterized modern society. Randall Stevenson now presents an accessible and authoritative guide to the work of th ecentury's leading novelists as well as many of its lesser known writers. In this stimulating and wide-ranging account, Stevenson locates the work of individual writers, from Conrad to Jeanette Winterson, within an evolving literary history and the wider context of social, political, and cultural change. Included are British writers working in exile and writers with origins elsewhere, such as James and Rushdie, who have

chosen to work in Britain. Women novelists are accorded their rightful prominence. This clear and lively survey deals with a broad range of movements, including modernism and postmodernism, as well as the influence of other world literatures and the impact of two world wars. An ideal text, this is a 'guide' in the best sense—concise and lucid, well-informed and perceptive. Readers new to the field will appreciate Stevenson's clear direction, while the experienced will be delighted by newly revealed connections and fresh perspectives.
