*A New York Times Notable Book! Stella Hardesty, avenger of wronged women, is getting cozy with Sheriff "Goat" Jones when a tornado blows none other than Goat's scheming ex-wife, Brandy, through the front door. Adding to the chaos, the tornado destroys the snack shack at the demolition derby track, pulling up the concrete foundation and unearthing a woman's body. The main suspect in the woman's murder is Neb Donovan---he laid the foundation, and there's some pretty hard evidence pointing to his guilt. Years ago, Neb's wife asked Stella for help getting him sober. Stella doesn't believe the gentle man could kill anyone, and she promises his frantic wife she'll look into it. Former client Chrissy Shaw is now employed at Stella's sewing shop and she helps with the snooping as Stella negotiates the unpredictable Brandy and the dangerously magnetic sheriff. This is the thrilling sequel to Sophie Littlefield's critically-acclaimed debut, A Bad Day for Sorry, which won an Anthony Award and an RT Book Award, was an Edgar Award Finalist, and was shortlisted for Barry, Crimespree, and Macavity Awards. Stella Hardesty is a heroine to watch---join her on this next adventure for as fiercely funny and riveting a story as there is to be found in crime fiction.*

CCH's U.S. Master Depreciation Guide offers tax and accounting professionals who work with businesses a one-stop resource for guidance in understanding and applying the complex depreciation rules to their fixed assets. This area is especially challenging, because bits and pieces of applicable information must be gathered from a maze of Revenue Procedures, IRS Tables and IRS Regulations. These sources are frequently old and include some materials which may be non-applicable. CCH's U.S. Master Depreciation Guide pulls the pieces together, so practitioners can make sense of all the corresponding information and put the information into practice. Packed with reader-friendly illustrations, ESSENTIALS OF BUSINESS LAW AND THE LEGAL ENVIRONMENT, 12e uses a nontechnical presentation to help your students understand the dynamics of today's legal environment for business. Covering a broad variety of key subjects and emphasizing ethical decision making, the text presents all business law topics required for success on the CPA exam. Cases are carefully summarized and integrated in order to present both recent legal issues and landmark court decisions while minimizing legal jargon. Students learn to effectively apply legal reasoning to cases and legal issues using the Issue, Rule, Application and Conclusion (IRAC) method. In addition to new Going Global features that highlight the international aspects of legal issues, the 12th Edition also includes more than 30 recent cases, updated coverage of limited liability companies and suretyship, amendments to UCC Articles, SEC rules on social media, recent U.S. Supreme Court decisions, and much more. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

They are America's forgotten children, the hundreds of thousands of child prostitutes who walk the Las Vegas Strip, the casinos of Atlantic City, the truck stops on interstates, and the street corners of our cities. Many people wrongly believe sex trafficking involves young women from foreign lands. In reality, the majority of teens caught in the sex trade are American girls--runaways and throwaways who become victims of ruthless pimps. In Somebody's Daughter: The Hidden Story of America's Prostituted Children and the Battle to Save Them, meet the girls who are fighting for their dignity, the cops who are trying to rescue them, and the community activists battling to protect the nation's most forsaken children. Author Julian Sher takes you behind the scenes to expose one of America's most underreported crimes: A girl from New Jersey gets arrested in Las Vegas and, at great risk to her own life, helps the FBI take down a million-dollar pimping empire. An abused teenager in Texas has the courage to take the stand in a grueling trial that sends her pimp away for 75 years. Survivors of the sex trade in New York, Phoenix, and Minneapolis set up shelters and rescue centers that offer young girls a chance to break free from the streets. &"The sex trade is the new drug trade,&" says one FBI special agent, and Somebody's Daughter is a call to action, shining a light on America's dirty little secret.

**Mike Weaver, lead singer of Big Daddy Weave, shares from personal experience how when all we can see is our struggles and failures, God reminds us of who we are. . . . His children. Loved. Set free. Redeemed. I Am Redeemed is an open book of Mike Weaver's life, bringing into the light everything from his battle with self-hatred to the near death of his brother and bandmate, who ultimately had both feet amputated to save his life. Mike shares the lessons learned in the loss of his father and dealing with the spirit of suicide within his band, Big Daddy Weave. At the lowest of lows, with Mike feeling rejected and alone, God broke through to speak truth and life into him. Thankful for God's plan and timing and methods, he is especially grateful for the new identity Jesus had paid for on the cross. In spite of his faults and failures, Mike learned that only God can take the stuff you hate about yourself and use it to reach people. Through the million-selling song "Redeemed" and now the powerful story behind it, as well as inspiration from Scripture, you will be encouraged to embrace God's redeeming grace so you, too, have the opportunity to be beautiful offerings to the Lord.**

**This project contains a look into the manufacturing company of Ford Motor Company. Research was done about how the company runs business, both globally and domestically. In this report, the company's mission, goals, strategies, product and service portfolios, market share and profit performance, technology and employment information are outlined. Key successes and weakness failures are also discussed in detail. Information about Ford's use of computer systems and an information model for the company is also included. The information model displays Ford's Work System, showing which components of the Work Organization, Control System, Industrial Relations and Human Resources Practices Ford implements. The Business Organization, with Ford's Business Strategy and Enterprise Organization is also part of the model. At the end of the report, self-evaluations by team members and references can be found. Ford Motor Company is currently trying to increase its global market share in automobile sales while facing slumping market share numbers in the United States. This report examines the Ford company characteristics and how the company uses information systems in the business climate. To reduce costs and increase knowledge of a region Ford uses small ERP systems that are less expensive and faster to implement than the larger ERP systems. Failure to obtain a larger market share in foreign markets has hurt the company. The proper use of information systems by Ford will increase their ability to maintain a successful business in future years locally and globally.**
