Advertising and Violence

The Insider's Guide to Law School

100 Cars That Changed the World showcases vehicles from the end of the nineteenth century to today. Along the way, you'll see vehicles like the Ford Model T that put America on wheels; the Volkswagen Beetle that was loved around the world; the Jeep that helped win World War II; the Dodge Ram that popularized off-road adventure; the Pontiac GTO that launched the muscle car era; the Dodge Caravan that changed the way families travel; the Ford Explorer that ignited the SUV movement; and the Tesla Model S that made electric cars exciting.

Advertising and Violence identifies and analyzes the important issues related to violence in advertising and its overall effects on society based on a widely cited special issue of the Journal of Advertising and includes eight new chapters that expand the book's coverage.

In a collection of epic cyclical stories woven together, the author explores the myths and legends of India, chronicling the exotic worlds of Siva, Brahma, Vishnu, the Mahabharata, and the Buddha

Retirement can be a time of growth, or adventure, or complete and utter relaxation. Where you spend your retirement years, no matter how you may define them, has to be a place that fulfills your desires and meets your changing needs.

Semiotics is the theory of signs, and reading signs is a part of everyday life: from road signs that point to a destination, to smoke that warns of fire, to the symbols buried within art and literature. Semiotic theory can, however, appear mysterious and impenetrable. This introductory book decodes that mystery using visual examples instead of abstract theory. This new edition features an expanded introduction that carefully and clearly presents the world of semiotics before leading into the book's 76 sections of key semiotic concepts. Each short section begins with a single image or sign, accompanied by a question inviting us to interpret what we are seeing. Turning the page, we can compare our response with the theory behind the sign, and in this way, actively engage in creative thinking. A fascinating read, this book provides practical examples of how meaning is made in contemporary culture.

The book is designed to provide a basic understanding of the dynamics of globalization and its relevance for all types and sizes of business. Commencing with a brief history that shows that globalization is not just a late 20th and early 21st-century phenomenon but has been a factor in world trade since the 1600s, the text then considers the two opposing views held about globalization. The material goes on to look at the global implications for customer relationships, marketing, human resources, finance and information. These are areas in which a narrow, national view is becoming increasingly of less value to the student. The book includes questions and case studies to aid understanding.

This book serves as a guide for companies to explore the path from traditional media to the new world of interactive broadband media. The key challenge is to base indispensable future investments on reliable business models. This book offers a comprehensive set of concepts and strategies for the interactive broadband realm, grounded in attractive offerings and customer preferences. The authors explain and analyze the interaction of broadband technologies, its processes and the end customers' point of view. At the same time they provide current examples of successful long business models. By applying Accenture's tried and tested Get Audience / Sell Audience concept, companies can assess their position in the interactive broadband value chain and optimize their strategies accordingly.

What the super-rich and others have to say about money in these pages is sometimes enlightening, sometimes profound, often entertaining, and always revealing. Topics include wealth ("If you can actually count your money, then you are really a rich man."—J. Paul Getty); investing ("Only buy something that you'd be perfectly happy to hold if the market shut down for ten years."—Warren Buffett); success ("The secret of success is to do common things uncommonly well."—John D. Rockefeller); and leadership ("The buck stops with the guy who signs the checks."—Rupert Murdoch). In addition are proverbs, quips, and other commentary on all aspects of having a fortune.
