## **12th) for NEET(UG) Medium- English**

**Mind Map is an important modern tool for building concepts. It is a graphical way to represent concepts. It helps in structuring information, enables a better logical analysis which is eventually used in recalling the facts during the examination. The key for all competitive examinations is conceptual clarity. "Mind Maps - Foundation Physics - Class - X" is written exclusively for students aspiring to crack NTSE and Olympiad. The book emphasizes concept building in Physics through the pictographic depiction of the content. About**

**Author Dr. Pankaj Kumar is a known faculty and author who is very popular for his books on Mind Maps. He authored 24 books on the different aspects of Biology for NEET aspirants. He successfully mentored several students for NEET and quite a few of them got Top Ranks. The very requirement of students was the basic guiding force for writing Mind Maps books which are unique in their domain.**

**Devenndra Chaandrakar is a well-known faculty of Physics for IITJEE / NEET. He mentored several students for IITJEE and also successfully guided students for Olympiad. His teaching**

Written by a former All India Topper, this book has been touted by several iconic IITians as the most effective book on JEE planning ever written! Anagh argues that most IITians are neither born-geniuses nor unusually intense work-machines; they are smart planners instead. He takes you behind-the-scenes to reveal how smart planning works for JEE and lays out a clear framework for goal-oriented thinking. The step by step approach outlined across 11 chapters covers everything from daily routine to efficient practice to long term motivation, all explained through real life examples and presented with time-tested proofs. It talks about achieving one's goals while not missing out on a balanced life and questions people's deepest beliefs about achieving a large and meaningful goal like IIT-JEE. After finishing the book, readers

will take away not just a concrete plan to prepare for JEE, but in the words of an early reviewer, a "life-altering" change in perspective towards success. " Edifying and thought-provoking! Reading this book will help you succeed not only in JEE but also in life." - Chitraang Murdia, AIR-1 in JEE Adv, 2014 " Covers a lot of important topics and explains goal setting well " - Aman Bansal, AIR-1 in JEE Adv, 2016 " Develops a holistic strategy to ace the JEE " - Ananye Agarwal, AIR-3 in JEE Adv, 2017

" Informative and Inspirational! It unravels the inner workings of a topper ' s mind " - Amey Gupta, AIR-8 in JEE Adv, 2014 " It will enable students to follow tested winning strategies rather than reinvent the wheel " - Kartikeya Gupta, AIR-4 in JEE Adv, 2013

" It iterates on the timeless wisdom of BhagvadGita to excel not only in JEE but any goal in life " - Vishwajeet Agarwal, AIR-5 in JEE Main, 2017. More about the

***This new 11th edition of  
MEGA Study Guide for NTSE  
Class 10 is empowered with  
the inclusion of 2018 Stage I  
questions of the different  
states. The book is based on  
the syllabus of Class 8, 9 & 10  
as prescribed by NCERT. The  
book also comprises of Past  
questions of NTSE Stage 1 & 2***

**from the years 2012-2018. • There are now 28 chapters in the Mental Ability Section (MAT). • The Scholastic Aptitude section (SAT) has been divided into 9 parts - Physics, Chemistry, Biology, Mathematics, English, History, Geography, Civics and Economics. • The book provides past questions of last 10 years of NTSE Stage 1 & 2, JSTSE papers divided chapter-wise. • The book provides sufficient pointwise theory, solved examples followed by Fully Solved exercises in 2 levels - State/ UT level & National level. • Maps, Diagrams and Tables to stimulate the thinking ability of the student. • The book**

**covers new variety of questions - Passage Based, Assertion-Reason, Matching, Definition based, Statement based, Feature Based, Diagram Based and Integer Answer Questions.**

**Pearson IIT Foundation Series, one of the most reliable and comprehensive source of content for competitive readiness, is now thoroughly updated and redesigned to make learning more effective and interesting for students. The core objective of this series is to help aspiring students understand the fundamental concepts with clarity, in turn, helping them to master the art of problem-solving. Hence,**

**great care has been taken to present the concepts in a lucid manner with the help of neatly sketched illustrations and well thought-out real-life examples. As a result, this series is indispensable for any student who intends to crack high-stakes examinations such as Joint Entrance Examination (JEE), National Talent Search Examination (NTSE), Olympiads- Junior/Senior /International, Kishore Vaigyanik Protsahan Yojana (KVPY), etc. The series consists of 12 books spread across Physics, Chemistry, and Mathematics for classes VII to X.**

**Competitive examination preparation takes enormous**

**efforts & time on the part of a student to learn, practice and master each unit of the syllabus. To check proficiency level in each unit, student must take self-assessment to identify his/her weak areas to work upon, that eventually builds confidence to win. Also performance of a student in exam improves significantly if student is familiar with the exact nature, type and difficulty level of the questions being asked in the Exam. With this objective in mind, we are presenting before you this book containing unit tests. Some features of the books are- The complete syllabus is divided into logical units and there is**

**a self- assessment tests for each unit. Tests are prepared by subject experts who have decade of experience to prepare students for competitive exams. Tests are as per the latest pattern of the examination. Detailed explanatory solution of each test paper is also given. Student is advised to attempt these Tests once they complete the preparation/revision of unit. They should attempt these Test in exam like environment in a specified time. Student is advised to properly analyze the solutions and think of alternative methods and linkage to the solutions of identical problems also. We**

***firmly believe that the book in this form will definitely help a genuine, hardworking student. We have put our best efforts to make this book error free, still there may be some errors. We would appreciate if the same is brought to our notice. We wish to utilize the opportunity to place on record our special thanks to all faculty members and editorial team for their efforts to make this book.***

The IIT Foundation Series  
prepares students to gear up  
for the Joint Entrance  
Examinations (JEE), and

various talent search examinations like NTSE, Olympiads, KVPY, etc. Comprising of twelve titles on Physics, Chemistry and Mathematics, this series caters to students of classes VII to X. The core objective of the series is to help aspiring students understand the basic concepts with more clarity, in turn, developing a problem-solving approach. It also encourages students to attempt various competitive examinations from an early age.

This book contains some of the problems and solutions in the past domestic theoretical and experimental

competitions in Japan for the International Physics Olympiad. Through the exercises, we aim at introducing the appeal and interest of modern physics to high-school students. In particular, the problems for the second-round of competition are like long journey of physics, beginning with fundamental physics of junior-high-school level, and ending with the forefronts of updated physics and technology.
