A monster assembled by a scientist from parts of dead bodies develops a mind of his own as he learns to loathe himself and hate his creator. Presented in comic book format.

In addition to her works on feminist thought and the education of women, Wollstonecraft also wrote historical texts such as this work dedicated to the French Revolution and its effects throughout Europe.

A New York Times–bestselling historical novel about the Japanese invasion of Nanking from the author of The Good Earth. Farmer Liang Tan knows only a quiet, traditional life in his remote Chinese farming community. When news filters in that Japanese forces are invading the country, he and his fellow villagers believe that if they behave decently to the Japanese soldiers, the civilians might remain undisturbed. They’re in for a shock, as the attackers lay waste to the country and install a puppet government designed to systematically carry out Japanese interests. In response, the Chinese farmers and their families form a resistance—which not only carries grave risk, but also breaks their vow of nonviolence, leading them to wonder if they’re any different than their enemy. Later adapted into a film featuring Katharine Hepburn, Dragon Seed is a brilliant and unflinching look at the horrors of war. This ebook features an illustrated biography of Pearl S. Buck including rare images from the author’s estate.

The financial crisis of 2007/2008 prompted governments across Europe to adopt austerity measures aimed at the reduction of their escalating budget deficits. Higher Education in Austerity Europe explores how the resulting cuts in public expenditure - together with the increasing reliance on the privatisation of services - have impacted on higher education directly through the reduction of public sector provision and indirectly as a result of the social and political consequences of that reduction. Moreover, it explores how the effects of these economic policies have differed markedly across the national regions of Europe, with the result that inequality has increased significantly both within and between national regions, and this, in turn, has led to social and political dislocation within and across communities. It is only by viewing higher education within this broader context that we can begin to understand the full implications of the austerity measures introduced over the last ten years. Jon Nixon draws together leading scholars to delve into the complexity of impact and response generated by these measures. Part 1 focuses on cross-European perspectives; Part 2 on the impact of austerity measures within national systems; and Part 3 on new perspectives and possibilities. The volume also includes considered responses from 'outsiders' by academics located in Asia, Australia, and the USA, providing an additional dimension to the analysis. As well as analysing the full impact of austerity measures across some of the worst hit national regions of Europe, the contributors also identifying openings and possibilities for renewal.

This is the Revised 1831 Edition of FRANKENSTEIN; OR, THE MODERN PROMETHEUS, a novel written by the English author Mary Wollstonecraft Shelley about the young science student Victor Frankenstein, who creates a grotesque but sentient creature in an unorthodox scientific experiment. Shelley started writing the story when she was eighteen, and the novel was published when she was twenty. The first edition was published anonymously in London in 1818. Shelley’s name appears on the second edition, published in France in 1823. Shelley had travelled through Europe in 1814, journeying along the river Rhine in Germany with a stop in Gernsheim which is just 17 km away from Frankenstein Castle, where, two centuries before, an alchemist was engaged in experiments. Later, she travelled in the region of Geneva (Switzerland)-where much of the story takes place-and the topic of galvanism and other similar occult ideas were themes of conversation among her companions, particularly her lover and future husband, Percy Shelley. Mary, Percy, Lord Byron, and John Polidori decided to have a competition to see who could write the best horror story. After thinking for days, Shelley dreamt about a scientist who created life and was horrified by what he had made; her dream later evolved into the novel’s story. Shelley completed her writing in May 1817, and Frankenstein; or, The Modern Prometheus was first published on 11 March 1818 by the small London publishing house of Lackington, Hughes, Harding, Mavor, & Jones. The second edition of Frankenstein was published on 11 August 1822 in two volumes (by G. and W. B. Whittaker) following the success of the stage play Presumption; or, the Fate of Frankenstein by Richard Brinsley Peake; this edition credited Mary Shelley as the author. On 31 October 1831, the first "popular" edition in one volume appeared, published by Henry Colburn & Richard Bentley. This edition was heavily revised by Mary Shelley, partially because of pressure to make the story more conservative, and included a new, longer preface by her, presenting a somewhat embellished version of the genesis of the story. This edition tends to be the one most widely read now, although editions containing the original 1818 text are still published. Many scholars prefer the 1818 text, arguing that it preserves the spirit of Shelley’s original publication.

Books in Motion addresses the hybrid, interstitial field of film adaptation. The introductory essay integrates a retrospective survey of the development of adaptation studies with a forceful argument about their centrality to any history of culture-any discussion, that is, of the transformation and transmission of texts and meanings in and across cultures. The thirteen especially composed essays that follow, organised into four sections headed 'Paradoxes of Fidelity', 'Authors, Auteurs, Adaptation', 'Contexts, Intertexts, and 'Beyond Adaptation', variously illustrate that claim by problematising the notion of fidelity, highlighting the role played by adaptation in relation to changing concepts of authorship and auteurism, exploring the extent to which the intelligibility of film adaptations is dependent on contextual and intertextual factors, and foregrounding the need to transcend any narrowly-defined concept of adaptation. Discussion ranges from adaptations of established classics like A Tale of Two Cities, Frankenstein, Henry V, Le temps retrouve, Mansfield Park, Pride and Prejudice, 'The Dead' or Wuthering Heights, to contemporary (popular) texts/films like Bridget Jones's Diary, Fools, The Governess, High Fidelity, The Hours, The Orchid Thief/Adaptation, the work of Doris Dorrie, the first Harry Potter novel/film, or the adaptations made by Alfred Hitchcock, Stanley Kubrick and Walt Disney. This book will appeal to both a specialised readership and to those accessing the dynamic field of adaptation studies for the first time. Mireia Aragay is Senior Lecturer in English literature and film at the University of Barcelona, Spain.

This is Oscar Wilde’s tale of the American family moved into a British mansion, Canterville Chase, much to the annoyance of its tired ghost. The family -- which refuses to believe in him -- is in Wilde’s way a commentary on the British nobility of the day -- and on the Americans, too. The tale, like many of Wilde’s, is rich with allusion, but ends as sentimental romance...
