

# Frcs General Surgery Viva Topics And Revision Notes

This book has been written specifically for candidates sitting the oral part of the FRCS (Tr & Orth) examination. It presents a selection of questions arising from common clinical scenarios along with detailed model answers. The emphasis is on current concepts, evidence-based medicine and major exam topics. Edited by the team behind the successful Candidate's Guide to the FRCS (Tr & Orth) Examination, the book is structured according to the four major sections of the examination; adult elective orthopaedics, trauma, children's/hands and upper limb and applied basic science. An introductory section gives general exam guidance and end section covers common diagrams that you may be asked to draw out. Each chapter is written by a recent (successful) examination candidate and the style of each reflects the author's experience and their opinions on the best tactics for first-time success. If you are facing the FRCS (Tr & Orth) you

## Acces PDF Frcs General Surgery Viva Topics And Revision Notes

need this book.

With over 1000 questions, MCQs and EMQs in Surgery is the ideal self-assessment companion guide to Bailey & Love's Short Practice in Surgery. The book assists readers in their preparation for examinations and to test their knowledge of the principles and practice of surgery as outlined within Bailey & Love. Sub-divided into 13 subject-specific sections, both MCQs and EMQs provide a comprehensive coverage of the surgical curriculum as well as the core learning points as set out in Bailey & Love: Each section emphasises the importance of self-assessment within effective clinical examination and soundly based surgical principles, while while taking into account the latest developments in surgical practice. MCQs and EMQs in Surgery is an excellent companion to Bailey & Love and provides a valuable revision tool for those studying for MRCS.

What are the indications for necrosectomy? How you perform an EUA for acute peri-anal sepsis? What do you understand by the term Early Goal-

Directed Therapy (EGDT)? Remember: this is a consultant's exam, and giving a range of options is not good enough. You must tell the examiner what you as a consultant are going to do. The FRCS is a uniquely challenging prospect; highly detailed, wide-ranging and encompassing both theory and practice. Preparation for this exam can be very difficult, and resources tailored to it are scarce. As the consolidated notes of a recent successful candidate, this book is an essential resource when preparing for the viva. The wide variety of questions require you to define, diagnose or choose between treatment options, while MCQs and SBAs help you to objectively evaluate your progress - a unique supplement to your study plan. Answers provided are comprised of an invaluable combination of detailed written answers and lists that will remind you of key points and help you structure your preparation. This book is an in-depth and practical guide to the problems alcohol can cause and the professional interventions that can help. It covers the impact of alcohol on various types of individuals

and in various circumstances. It explores a variety of perspectives as well as physical spiritual social and legal issues. The book outlines the range of problems shows how they can be identified and examines appropriate approaches from different professional groups. A group of renowned international contributors has written Alcohol Use in a clear style to ensure the book is accessible and easy to use. It makes full use of case studies charts and self-assessment tools and a to learn more section points the reader to advanced forms of study. It is an essential resource for professionals working in this area and those considering entering it. 'The need to disseminate findings and the challenge to provide clear and relevant resources has been successfully met by this book. It allows the impact of alcohol use at various points along the life span as well as a variety of treatment and therapeutic options. In addition multiple learning devices such as interactive exercises self-assessment tools and case studies enhance the engagement of the reader. The author's

**An indispensable study guide to help surgical trainees prepare and perform for their fellowship exam. Examination Surgery offers invaluable insight into the format and content of the Fellowship Examination in General Surgery. This study guide addresses the most frequently encountered topics from the last 10 years of examinations. It helps surgical trainees organise their studies and optimise their performance in what is reputedly one of the most rigorous postgraduate exams. The general surgery fellowship tests clinical wisdom, judgement, insight and safe practice, and Examination Surgery's preparation material accurately reflects what you will encounter in the exam. Arranged to mirror the exam's individual components, Examination Surgery is divided into the following sections: The written papers Clinical viva voces Surgical anatomy viva voce Operative surgery viva voce Pathophysiology and critical care and clinical reasoning viva voce This Elsevier study guide is aimed at candidates preparing for the Fellowship Examination in General Surgery of the Royal Australasian College of Surgeons. It is, however, also relevant for candidates in the UK, Ireland, Canada, South Africa and Hong Kong, plus all general surgeons, surgical residents and medical students. How to approach each exam Most frequently encountered topics Common questions and scenarios with 'model answers' Fellowship examination format and recommended technique Proven study strategies Gives candidates a means of practising some common questions that they will be asked in their viva examinations. Brings together what every trainee orthopaedic surgeon needs to know about approaching paediatric cases for examinations and clinical practice. Operative Orthopaedics: The Stanmore Guide 100 Clinical Cases a guide to passing the fellowship examination in general surgery A Revision Guide**

## **Frcs General Surgery Viva Topics 2nd Ed Viva Guide for the FRCS (Tr & Orth) Examination**

Operative Orthopaedics is a definitive and comprehensive guide to elective orthopaedic surgery for trainees preparing for FRCS and surgeons at MRCS level. With the emphasis on techniques employed and the reasoning behind them, this book is both a practical instruction manual and a revision tool. Based on the authoritative 'Stanmore course' run by the Royal National Orthopaedic Hospital Operative Orthopaedics covers all aspects of elective orthopaedic surgery as assessed by the FRCS Higher Specialty exams. Surgery of the upper limb, lower limb and spine is explained from preoperative planning through technique and potential complications. Specialist areas such as tumour surgery, paediatric surgery and limb reconstruction are also included. Each chapter concludes with key references and sample viva voce questions and answers to extend and reinforce learning.

There is a need for a concise revision guide for the FRCS General Surgery Intercollegiate exam, and this is such a book, serving as a companion for the trainee throughout the course of their six-year training rotation. It reflects the exact framework of the exam syllabus issued by the Joint Committee on Higher Surgical Training (JCHST), and contains the most recently amended guidelines. The question and answer style used is a popular and effective method which lends itself perfectly to studying either alone or as a group, wherein one acts as examiner and the other as candidate. Further, the exam is very clinically orientated, with vivas based on a

## Acces PDF Frcs General Surgery Viva Topics And Revision Notes

clinical scenario, using patients and images as method of initiating clinical discussion. This book will act as supplementary reading for any course relating to the FRCS exit examination in general surgery. Both the authors and main contributors have passed the FRCS exam in general surgery and have many years experience in postgraduate medical education.

Describes the anatomical knowledge required for the 45 most common general surgical procedures. Throughout, the emphasis is on helping the surgeon prepare for, and successfully and safely complete the operation. The choice of operations covered and the level of detail make the book ideal for higher surgical trainees in General Surgery. More experienced surgeons will also use it as a source of reference.

This book includes a foreword by Nicola Maffulli, Professor of Trauma and Orthopaedic Surgery, Keele University School of Medicine, and Consultant Trauma and Orthopaedic Surgeon, North Staffordshire Royal Infirmary and City General Hospital, Staffordshire. The new structure of the Fellowship of the Royal College of Surgeons (FRCS) examination requires candidates to complete two papers in extended matching question (EMQ) and multiple choice question (MCQ) format. This invaluable revision aid contains a 'bank' of over 350 questions in self-test format. Comprehensive answers are detailed at the end of each section. With a focus on high-yield topics, students can choose use the resource in the early stages as an overview of the subjects, then later as an ideal exam revision aid. There's nothing else like it! This book has been designed for undergraduates preparing for the final year MBBS examination in surgery. The book begins with a detailed classification of instruments according to their use, followed by the points for identification. It, then provides an elaborate description of different operative procedures used as well as sterilization methods of instruments. Finally, a separate chapter X-rays Commonly Asked during Examination , has also been added to help students face viva-voce. The question-answer format of the book including the frequently asked questions would greatly help students in preparing for their exams. About the Author : - MM Kapur, Professor (formerly) of Surgery, AIIMS, New Delhi, obtained his MBBS and FRCS degrees from Calcutta

## Acces PDF Frcs General Surgery Viva Topics And Revision Notes

University and Royal College of Surgeons, London in 1955 and 1961, respectively. From 1964 to 1986, he imparted teaching and training to undergraduate and postgraduate students at the All India Institute of Medical Sciences, New Delhi. Due to his distinguished service to the speciality of surgery he was conferred Commonwealth Fellowship in 1968-69 and was awarded WHO Visiting Scientist Award in 1978. For a brief period (1989-92), he was Regional Advisor, Medical Research, WHO South East Asia Regional Office, New Delhi.

Currently, clinical training for undergraduates is becoming more difficult. To be a good doctor with adequate training, one must be exposed to many different patients with a variety of pathologies and diseases. At present, we are unable to achieve this, mainly due to the increase in the medical student cohort each year and fewer in-patients. In short, the student-to-patient ratio is worsening, thus lessening students' contact with patients and learning experience.

Fortunately, with the objective structured clinical examination (OSCE) format, undergraduate and postgraduate teaching and examination have become more efficient. This book will be very useful for students preparing

## Acces PDF Frcs General Surgery Viva Topics And Revision Notes

for surgical OSCEs by covering the different clinical scenarios that a certain condition might present, and allowing self-testing of the questions as well as learning from the provided answers.

A concise and highly visual guide to postgraduate physical examination for the MRCS exam, from an expert panel of surgeons.

This new edition of the Care of the Critically Ill Surgical Patient (CCrISP) course manual has been fully updated and revised by a multidisciplinary team of surgeons and anaesthetists. It remains true to the original aims of the course: to encourage trainees to take responsibility for critically ill patients, to predict and prevent problems that patients might encounter while in hospital, to function well within the surgical team and communicate effectively with colleagues from other disciplines. CCrISP is a valuable adjunct to traditional ward training and continues to provide young surgeons with the structure and confidence they require to safely and effectively care for their patients on the ward and in theatre. Designed to develop skills that are necessary in the management of critically ill patients, CCrISP integrates knowledge, practical skills, communication and

trauma safety and competence rather than trauma expertise. Examiners may use props such as models, clinical pictures, clinical studies, and x-rays to introduce topics and initiate discussion. This book uses a similar model to allow the candidate to practise key topics for discussion with common presentations and histories, and high quality x-rays. The book lends itself to individual and small group learning as trainees prepare for their examinations.

*Vivas for the Oral and Maxillofacial Surgery FRCS* provides candidates with 100 high-quality viva topics and expert guidance to prepare for this difficult exit oral exam. Written and edited by consultant oral and maxillofacial surgeons who have succeeded in the exam, this book provides comprehensive coverage of theory and practice. Split into 15 chapters of key sub-specialties, all 100 questions are mapped to the surgical curriculum preparing you for the FRCS oral examination. Each topic contains a visual aid, such as an x-ray or photograph, to replicate exam conditions. All answers have a full explanation and further reading to ensure high-quality self-assessment and quick recognition of areas that require further study. Providing a

## Acces PDF Frcs General Surgery Viva Topics And Revision Notes

thorough assessment of the reader's oral and maxillofacial surgery knowledge, this is an essential revision book for any candidate facing the Oral and Maxillofacial Surgery FRCS oral examination.

The FRCS Oral and Maxillofacial Surgery (OMFS) exam is split into three parts: written, viva and mock clinical consultations with an examiner and an actor in the role of a patient. These consultations fall into two formats: 'short case', where the examiner poses questions specific to the patient's case, and 'long case' where the candidate must diagnose the patient's presenting problem and suggest an appropriate course of treatment. FRCS (Oral & Maxillofacial Surgery) Part 2: 100 Clinical Cases focuses on the clinical component of the exam and is structured according the FRCS OMFS syllabus. Each chapter starts with cases devoted to examination of the patient, history taking and investigations. Subsequent cases feature 'short case' clinical scenarios commonly encountered in the exam. Where relevant to exam practice, a 'long case' is included at the end of each chapter. The 'short cases' feature mock questions, while the 'long cases' also include an examiner's

# Acces PDF Frcs General Surgery Viva Topics And Revision Notes

mark sheet listing the answers and actions candidates must perform to achieve full marks. First book to cater specifically for the clinical component of the FRCS OMFS exam Ideal for practising scenarios with colleagues and taking turns to play role of either candidate or examiner This revision book is an aid to those preparing for the FRCS General Surgery Section 1. The topics and chapters are taken directly from the Intercollegiate Surgical Curriculum. The philosophy of this book is to focus on the level of knowledge and the approach that would be expected of the better candidates as they approach the end of their training and make the transition into consultants. In addition to the acquisition of knowledge through the process of tackling questions, the book will hopefully identify to the reader areas gaps in their knowledge base for which further study is required. Various techniques including the use of diagrams and tables are utilised to explain key facts. As per the curriculum, the book is organised into chapters in accordance with the syllabus, allowing less familiar topics such as relevant aspects in urology and gynaecology to be covered. Topics such as Gastrointestinal, HPB, Vascular, Breast and Endocrine

# Acces PDF FrCs General Surgery Viva Topics And Revision Notes

*Surgery are understandably covered in greater depth given their common occurrence in the examination. Questions are presented in a single best answer and extended matching item format, mirroring those that the candidate will encounter during the examination. This book is useful for candidates in both the early and late stages of their revision for the examination. Early familiarity with the range and depth of topics may help guide further self-directed learning. Those in the latter stages of revision can use the questions to build confidence and reinforce their knowledge. Each chapter is written by an authoritative author alongside the book editor to ensure it is relevant and informative for the reader.*

This is a key resource for trainees preparing to face the challenging FRCS section 1 examination. Featuring over 600 Single Best Answers (SBAs) and Extended Matching Items (EMIs) written by successful candidates of the General Surgery FRCS, this resource ensures high-quality self-assessment. Split into chapters on key sub-specialties, all questions are mapped to the surgical curriculum and mirror the level of detail required to succeed in the section 1 examination.

Postgraduates studying dermatology can face a lack of appropriate revision aids: reference books are often too exhaustive or out-of-date, while undergraduate and introductory texts lack the necessary detail and depth. This book is specifically designed for postgraduate examinations, and is the perfect accompaniment for the diploma in dermatology.

This 2003 book features MCQs and EMQs, two key components of many postgraduate surgical examinations, and is designed to be an accessible self-learning tool. The questions provided are typical of those that appear in the MRCS/AFRCSEd and similar examinations and detailed answers, along with explanatory notes to assist the reader, are provided throughout.

The FRCS examination is the last hurdle on the road to independent practice as a consultant surgeon in the United Kingdom and Ireland. The voce viva portion of the exam can be particularly challenging for candidates who must demonstrate not only their knowledge of various surgical topics, but also their reasoning and decision-making abilities. Cracking the Intercollegiate General Surgery FRCS Viva: A Revision Guide provides the framework and knowledge to pass the non-subspecialty sections of the FRCS (General Surgery) viva and clinical examination. This comprehensive revision text covers all essential topics in critical care, emergency and general surgery as well as critical appraisal of research papers, basic statistics and data manipulation for the academic section. Highlights: Layout: A unique approach recreates the structure and content of each

information required to pass the exam using concise, bullet-point text, helpful tables and easy to reproduce diagrams. Written by registrars who have all recently passed the MRCS, plus an MRCS examiner, this comprehensive and user-friendly revision guide also contains considerable input from other senior specialists.

This book of over 140 cases is designed for candidates preparing for all surgical examinations, whether at undergraduate, postgraduate or exit examination level. It will demystify and simplify the clinical assessment of surgical cases and provides invaluable advice on how to achieve success. The text includes top tips, acronyms and up-to-date summaries of current practice based on the authors' personal experience of surgical examinations. Cases are graded in terms of likely appearance in the examinations. Top tips emphasize specific subjects which cause confusion. The text provides advice on the most appropriate time to finish an examination. Examples of the common procedures and props that come up in the skill-based examination format are included. This fully revised Second Edition is now in colour and includes photographs of key manoeuvres performed during specific surgical examination routines Includes a new section on communication skills A new co-author in academic surgery joins the project.
