However, given the unlikely timely recovery of the United States or Europe there is an urgent need to develop domestic and regional markets. While greater integration has long been a regional goal, its importance has never been more pressing. To facilitate trade and promote growth and regional integration, and to counteract declining markets in other regions, Asian countries have announced large expenditures for developing infrastructure. Thus, a look at how investment

While the focus is on informing policy-making in Asia, the findings also have relevance for other regions.
