

Standards for the design of interior spaces should be based on the measurement of human beings and their perception of space, with special consideration for disabled, elderly, and children

The Human Body

An Artist's Guide to Structure, Gesture, and the Figure in Motion

A Source Book of Design Reference Standards

*Acland's Video Atlas of Human Anatomy uses fresh, unembalmed specimens that retain the color, texture, mobility--and beauty--of the living human body. A concise synchronized narration runs throughout the program. As each new structure is shown, its name appears on the screen. There is a self-testing feature at the end of each section.*
