*It had seemed so simple, even fun, when they explained it: New York needed non-satellite-based relay towers. Commco sent me to find towns along the needed pathway, to offer to restore some of the boons of civilization in return for an agreement to build, power and guard the towers. After all, it had only been fifty years. I would never have believed that the countryside would have turned barbaric so fast. Thus begins Martin Barrister's journey through an unfamiliar landscape, where his training and skills are of little help, and only quick wits and creativity will allow him to survive. When his job turns out to be a ruse, and he becomes bait in a dispute he can barely fathom, Martin discovers what loyalty is worth. And what civilization is – and isn't – comprised of.*

*Since its publication in 1842, Dead Souls has been celebrated as a supremely realistic portrait of provincial Russian life. Chichikov, combs the back country wheeling and dealing for "dead souls" (deceased serfs who still represent money to anyone sharp enough to trade in them), and we are introduced to a Dickensian cast of peasants, landowners, and conniving petty officials, few of whom can resist the seductive illogic of Chichikov's proposition. Although the novel ends in mid-sentence, it is usually regarded as complete in the extant form.*

East Bay Grease, Eric Miles Williamson’s now classic first novel, has received worldwide acclaim as one of the great depictions of working-class America in the latter half of the 20th century. The story of T-Bird Murphy, born in the tumultuous 1960s and raised in the ghettoes of Oakland by his mother, who rides with the Hell’s Angels, his father, who is an ex-convict, and the father figures who range from musicians to construction workers, East Bay Grease is a novel of dignity, honor, and courage that has been compared to the works of John Steinbeck, Jack London, and Upton Sinclair. Praise for EAST BAY GREASE: “Williamson’s writing becomes transcendent. His prose cuts loose in torrid rhythms that evoke the peril and exuberance of jazz.” —The New York Times Book Review “A confident debut, an arresting, often harrowing read.” —The London Times

Aged emperor Thelden III Arrigar's last days are approaching and the Empire's leaders are taking sides in a struggle for power between rival heirs. Blood runs in the streets and the nights are thick with intrigue. Drake Arrigar, bastard prince and half-blooded sorcerer. Darius of Lorradon, foreign-born Initiate of a holy order of warriors sworn to the Empire.

Leasha, senior maiden and chief spy for the Emperor's daughter. These three unlikely friends must navigate the coming storms as plots, violence, and unholy barbarians tear their lives apart. Their trials, failures, and triumphs will have far-reaching consequences, for their people and for their own futures.

Drake Pearson, a narrow-minded 18-year-old barely enduring Missouri’s heat, is tired of feeling empty. Living conditions are about as cozy as a cardboard box, on account of his alcoholic father who can find nothing better to do than argue relentlessly with him. When Drake thinks he can’t take another blow, he is reminded daily of his mom who vanished twelve years ago. And now there’s a dead body. After a terrible accident turns into a protected secret, a twisted string of events brings Drake miles away from home to an elderly man’s front door. Every promising opportunity also brings new doubts and temptations to run away—this time for good. When the secret he has kept locked away threatens to reveal itself, Drake knows he must shield it with his very life, even if the love he has been shown undeservingly is about to be destroyed.

In this volume of autobiography, Michel Tournier, novelist and philosopher, evokes both the personal experiences and the cultural currents that shaped himself, his ideas and his fiction.

Mary Magwood Causey grew up on the isolated shores of Little Bulls Island, South Carolina. The family lived in a home built from timbers harvested from shipwrecks. There was no electricity and no phone—none of the conveniences deemed essential to modern life. The youngest of almost a dozen siblings, Causey was alone more often than not, her brothers and sisters having mostly moved, married, or died. To pass the time, she wrote, she read, she painted, she sewed, she gardened, she wrote. She wrote herself, writing poetry and playing creative but often lonely games, surrounded by the peace and beauty of the small island. At age eight she experienced a near-tragedy that transformed into a miraculous event, changing her life forever. This is the story of Causey, her siblings, and her parents—her hardworking Mamma and her old-fashioned, unchangeable Poppa who lived on and loved Little Bulls Island. Causey is a rebellious teenager, whose desire for a “normal” life leads to her hurting the father she loves dearly. Part inspirational memoir, part poetry collection, and part recipe book, The Sleepy Inlet captures Causey’s memories of a simple life and an island whose beauty and peace she would only fully appreciate after she left.

Robinson Crusoe is a novel by Daniel Defoe, first published on 25 April 1719. The first edition credited the work's protagonist Robinson Crusoe as its author, leading many readers to believe he was a real person and the book a travelogue of true incidents.Epistolary, confessional, and didactic in form, the book is presented as an autobiography of the title character (whose birth name is Robinson Crusoe) who is marooned on a remote tropical desert island near Trinidad, encountering cannibals, captives, and mutineers, before ultimately being rescued. The story has been thought to be based on the life of Alexander Selkirk, a Scottish castaway who lived for four years on a Pacific island called "Más a Tierra", now part of Chile, which was renamed Robinson Crusoe Island in 1966

With the same electrical intensity of language and insight that he brought to Waiting for the Barbarians, J.M. Coetzee reinvents the story of Robinson Crusoe—and in so doing, directs our attention to the seduction and tyranny of storytelling itself. J.M. Coetzee's latest novel, The Schooldays of Jesus, is now available from Viking. Late Essays: 2006-2016 will be available January 2018. In 1720 the eminent man of letters Daniel Foe is approached by Susan Barton, lately a castaway on a desert island. She wants him to tell her story, and that of the enigmatic man who has become her rescuer, companion, master and sometimes lover: Cruso. Cruso is dead, and his manservant, Friday, is incapable of speech. As she tries to relate the truth about him, the ambitious Barton cannot help turning Cruso into her invention. For as narrated by Foe—as by Coetzee himself—the stories we thought we knew acquire depths that are at once treacherous, elegant, and unexpectedly moving.

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

This is a New Adult novel recommended for ages 16+. Photographer Sierra Stratton views the world through a lens all her own. She has an uncanny sense about people, something that often causes her trouble. When she meets the sexy and brooding Evan Dorsey, her intuition tells her he's suffering, and she wants to be the one to help him. Evan isn't open to help from anyone, however. His focus is on his Major League career and making himself as marketable as possible for his upcoming free agency. He plans to ride out the season in Atlanta and then sign with another team, away from the painful memories that haunt him. Someone's eager to send him on his way, too. Between anonymous threats and equipment sabotage, it's clear he's earned himself an enemy along the way. To him, it's more sign that he's right to move on. But Sierra threatens his conviction. Her contagious smile proves hard to resist, as does her kiss. She tempts him in ways he never anticipated, making him question his plans for the first time. If he's not careful, she might just convince him that he's meant for her.

Friday is a secret courier and ardent lover. Employed by a man she only knows of as "Boss", she is given the most awkward and dangerous cases, which take her from New Zealand to Canada, and through the new States of America's disunion, all the way out into the stars and the new colony of Botany Bay. Thrust into one calamity after another, she uses her enhanced wits and very many skills to evade, seduce or even kill her way out of any sticky situation she finds herself in. For she is both superior and inferior to the average human. As an AP--artificial person--she is the best humanity has to offer has been written into Friday's DNA. Yet she is often treated like a second-class citizen--if she were ever able to claim citizenship. Her mother was the test tube and her father the knife, as the saying goes, so she has less rights than the biologically-born human, and no soul, according to the church. But in Friday Heinlein has created one of the most enlightened, warm, engaging, and humane characters in the science fiction field, gifting us a novel of female empowerment that was well ahead of its time. "One of Heinlein's best, which is to say one of the best in all of Science Fiction--terrific story with a superbly realized heroine and world."--Poul Anderson

The heartbreaking story of two Acadian lovers separated during the expulsion of the French settlers from Nova Scotia.

All Isla Macallen wanted was a simple existence on her little Scottish island—but what she got was embroiled in a war of good versus evil. Paranormal investigator Dr. Jeremiah Rousseau doesn't expect his research to lead him to Scotland, and to the woman who will turn his world upside down.

Together they must defeat the demon king before time runs out. As a supernatural war wages around them, Isla and Jeremiah will risk it all for love.

From tourist paradises to immigrant detention camps, from offshore finance centres to strategic military bases, islands offer distinct identities and spaces in an increasingly homogenous and placeless world. The study of islands is important, for its own sake and on its own terms. But so is

the notion that the island is a laboratory, a place for developing and testing ideas, and from which lessons can be learned and applied elsewhere. The *Routledge International Handbook of Island Studies* is a global, research-based and pluri-disciplinary overview of the study of islands. Its

chapters deal with the contribution of islands to literature, social science and natural science, as well as other applied areas of inquiry. The collated expertise of interdisciplinary and international scholars offers unique insights: individual chapters dwell on geomorphology, zoology and

evolutionary biology; the history, sociology, economics and politics of island communities; tourism, wellbeing and migration; as well as island branding, resilience and 'commoning'. The text also offers pioneering forays into the study of islands that are cities, along rivers or artificial

constructions. This insightful Handbook will appeal to geographers, environmentalists, sociologists, political scientists and, one hopes, some of the 600 million or so people who live on islands or are interested in the rich dynamics of islands and island life.

*Unlock the more straightforward side of Friday with this concise and insightful summary and analysis! This engaging summary presents an analysis of Friday by Michel Tournier, a retelling of Daniel Defoe's classic novel Robinson Crusoe. Like Defoe's 1719 novel, Friday recounts the adventures of Robinson Crusoe after he is shipwrecked on a desert island, where he eventually comes into contact with a young native whom he dubs "Friday", after the day they met. Although Robinson initially considers Friday an inferior, like in Defoe's novel, he eventually develops a deep respect and friendship for him, and casts off the trappings of civilisation to live in harmony with nature. Michel Tournier was a French writer who won a number of prestigious literary prizes, including the Prix Goncourt, and was elected to the Académie française in 1972.
