The game under the tree looked like a hundred others Peters and Judy had at home. But they were bored and restless and, looking for something interesting to do, thought they’d give Jumanji a try. Little did they know when they unfolded its ordinary-looking playing board that they were about to be plunged into the most exciting and bizare adventure of their lives. In his second book for children, Chris Van Allsburg again explores the ever-shifting line between fantasy and reality with this story about a game that comes startlingly to life. His marvelous drawings beautifully convey a mix of the everyday and the extraordinary, as a quiet house is taken over by an exotic jungle.

Genius is not just about intelligence and aptitude, it’s also a word that embodies our inner soul, nature, or character. In this illuminating book, a former principal and father shares heartwarming stories and wise advice that offers a rare insight into children and the process of education. The Genius in Every Child celebrates the moments in the lives of children, their parents, and their teachers. The stories of unique characters in action illustrate some of the principles of education and the disciplines we need to be good stewards of our children’s character and intellect. The vignettes provide both delight and enjoyment in the miracle of it all, and perspective and solace in the difficulty of it all, encouraging parents and teachers to work hand-in-hand. This book urges parents to focus on the long run, entrusting the trials, struggles, and sufferings of the short run to the kids. It proposes a shift in focus from test scores to enthusiasm, from perfect behavior to learning from mistakes, from measuring up to making something of yourself, from independence to interdependence, from goodness to integrity, from fear to love. The value of this experience to hundreds of children, parents, and teachers derives from the depth of Rick Ackery’s perception and the subtlety of his understanding. He offers perspective and guidance on a wide range of challenges faced by parents of today’s school-aged children, including: self-confidence, discipline, boundary-setting, building character, integrity, taking responsibility, facing challenges, handling disappointment, peer pressure, reading, testing, homework, academic achievement, failure, and success. [Excerpt] Mr. Rick’s Words of Wisdom Children need teachers at school and parents at home. Failure is at least as powerful an educator as success. Kids need consequences and they need forgiveness We put our kids at risk by trying to engineer their success. Our children need us to have confidence in them. The core of building character is taking responsibility.

While he should be studying for a geography test, Ben dreams about a voyage around the world.

n this wordless graphic picture book, a young boy feels alone with his worries. He isn’t fitting in well at school. His grades are slipping. He’s even lashing out at those who love him. Talented Australian artist Mel Tregonning created Small Things in the final year of her life. In her emotionally rich illustrations, the boy’s worries manifest as tiny beings that crowd around him constantly, overwhelming him and even gnawing away at his very self. The striking imagery is all the more powerful when, overcoming his isolation at last, the boy discovers that the tiny demons of worry surround everyone, even those who seem to have it all together. This short but hard-hitting wordless graphic picture book gets to the heart of childhood anxiety and opens the way for dialogue about acceptance, vulnerability, and the universal experience of worry.
