People who love English - the way words are used and put together to create meaning; the arcane rules and infuriating exceptions; the vital, living history of the way the language has changed through the centuries to create a richness and depth that exceeds that of many other languages - are often very passionate about how it is used and how it is changing and about all its little tricky eccentricitiesWeeds in the Garden of Words is the perfect book for people who love English.Professor Kate Burridge's book is approachable, entertaining and fun - designed to browse through and find oneself hooked by fascinating pieces on such topics as why verbs move to nouns and vice versa, why pronunciation may differ from place to place, why regionalisms develop and the creative way of slang and jargon. Weeds in the Garden of Words is filled with the joys of the eccentric, unruly, rich and complex language that is English. Winner of the Man Asian Literary Prize, an "elegant and haunting novel of war, art and memory" (The Independent) from the critically acclaimed author of The Gift of Rain.
Malaya, 1951. Yun Ling Teoh, the scarred lone survivor of a brutal Japanese wartime camp, seeks solace among the jungle-fringed tea plantations of Cameron Highlands. There she discovers Yugiri, the only Japanese garden in Malaya, and its owner and creator, the enigmatic Aritomo, exiled former gardener of the emperor of Japan. Despite her hatred of the Japanese, Yun Ling seeks to engage Aritomo to create a garden in memory of her sister, who died in the camp. Aritomo refuses but agrees to accept Yun Ling as his apprentice "until the monsoon comes." Then she can design a garden for herself. As the months pass, Yun Ling finds herself intimately drawn to the gardener and his art, while all around them a communist guerilla war rages. But the Garden of Evening Mists remains a place of mystery. Who is Aritomo and how did he come to leave Japan? And is the real story of how Yun Ling managed to survive the war perhaps the darkest secret of all?

Dots are thrown into the world: each of em is unique. They live here with their differences. Questions are creations of dots. Which tremble for generations of living. The Canvas is an imaginary plane where things are drawn. A painting is born when Dots meets their questions on a canvas. Lines from the dots join the universe. Colors get the perception higher. Dimensions make them grow.

Did you know that the tulip gets its name from a kind of headwear? What's the linguistic link between the lovely gladioli and a fierce gladiator? A rose by any other name may smell as sweet-but why do we call it a rose? In this charming, witty volume, Martha Barnett leads a tour through the language of the garden, stopping along the way to coax out the many secrets that flowers have to tell about history, culture, psychology, folklore, and science. "Everything in it is delightful to learn. Barnett takes us through languages and across millennia in a charming style that, starting with words describing things we eat, turns out to offer endless food for thought." -The New Yorker "Sheer etymological garden fun Barnett begins with the flower's name and immediately jumps off the neat garden path into the wild underbrush of mythology, history, folk tales and scientific investigation." -Linda Yang, The New York Times Book Review "Martha Barnett's anthology (literally, 'a gathering of flowers') is more than just a garden-variety book of word origins. With loving cultivation, the author shows how flower names yield up the fragrance and light stored from the past and tell us whence we came and who we are." -Richard Lederer "A Garden of Words is one to stroll through, sniffing the blossoms, admiring random artful paths and intriguing byways." -Calvin Ahlgren, San Francisco Chronicle

The verbal section of the GRE is essentially a vocabulary test. With a few exceptions, if you know the word, you will probably be able to answer the question correctly. Thus, it is crucial that you improve your vocabulary. Even if you have a strong vocabulary, you will still encounter unfamiliar words on the GRE. Many students write off questions, which contain words, they don't recognize. This is a mistake. This book introduces numerous techniques that decode unfamiliar words and prod your memory of words you only half-remember. With these techniques, you will often be able to squeeze out enough meaning from an unfamiliar word to answer a question correctly. Nevertheless, don't rely on just these techniques--you must study word lists. Obviously, you cannot attempt to memorize the dictionary, and you don't need to. The GRE tests a surprisingly limited number of words, and this book has 4000 prime candidates. Granted, memorizing a list of words is rather dry, but it is probably the most effective way of improving your performance on the verbal section. All the words you need for success on the GRE! Features:
\* 4000 Words Defined
\* Word Analysis section
\* 200 Prefixes, Roots, and Suffixes
\* Concise, practical definitions

The Daine-Reih haven't been seen in Dionia for generations-their kind and their king, Morgui, banished long ago from haunting paradise. But when creation shows signs of deterioration, the kings of the seven realms converge in the sacred Gvindollon gathering to arrive at one inexplicable conclusion: Morgui has returned. In the hopes of entrusting Dionia's brave history and perilous future to a generation that has never known war, the kings decide to raise up their young sons as an elite group of warriors, known only as the Dibor. Gorn, legendary hero of the First Battle, is commissioned to teach the Dibor the art of war, leading them on a four-year adventure on the Isle of Kirstel. It is Luik, son of Lair, who soon emerges as the warband's spirited front man. But he is not the only one of his peers to grow in power; his dear friend Fane discovers hidden abilities among the Masfar under the mentorship of Li-Saide of Ot, while Princess Anorra finds that her lifelong tutor knows as much about combat as he does about etiquette. There is little time for the Dibor to enjoy the satisfaction of graduation, however, as a sinister plot is discovered to dethrone Dionia's kings and flatten the capital city of Adriel. The Dibor are summoned to war, along with the rest of Dionia's fighting men. It is before the gates of Adriel Palace that Luik and his army face Morgui's prince, Valdenil, as well as the unending ranks of the Daire-Reih.

For the first time, a voyage spanning Quantum Physics, Personal Growth and Spirituality, through the eyes of a curious child, and a Master Teacher who knows the Infinite. Their journey to escape mind control and arrive to... an extraordinary revelation !

This fully illustrated book explores how both art and poetry reflect the writer and the reader. Despite great obstacles, this book was made in the hopes of achieving a dream of reaching others through art in all of its various forms.

The Garden of Words brings to the manga page all the beauty and mystery of the award-winning film from artful animator Makoto Shinkai. Beloved for the simple grace of its artwork as much as the poetic elegance of its text (adapted by Midori Motohashi). The Garden of Words begins with a chance, rainswept encounter between Takao, a young man who dreams of becoming a shoe designer, and Yukari, an enigmatic woman he finds sitting alone, nursing a beer on a park bench. The spare interaction of these two lo young man, and perhaps the woman as well. As this intriguing, understated story unfolds, their lives will become further intertwined amid rain, beer, school, and shoe cobbling. Words are not often necessary, but in this case just a few words can make a difference in one's heart.

5 Centimeters per Second When Takaki meets Akari in elementary school, they are as thick as thieves. She always teaches him the important things, while he does his best to protect her. After they are separated in middle school, though, they have to find their paths in life without each other... Director Makoto Shinkai delicately depicts the internal landscapes of his characters through three chapters in the life of one boy. Children Who Chase Lost Voices Asuna is a shy and diffident girl who lives in the mountain town who claims to be from a mythical land known as Agartha. However, just as a bond is beginning to form between them, Shun vanishes. As Asuna wishes she could see him again, she encountersShin, another boy who looks just like Shun, and Morisaki, a teacher searching for Agartha. The three of them set out for the legendary country, each with their own goal in mind—and their own lessons to learn along the way .

Can a poem save your life? Words are powerful. Insults and rumors can derail a career; a bit of encouragement can give someone the strength to pursue their dreams. When a high school boy skipping class to sketch shoe designs and a taciturn woman drinking a morning beer meet in a Tokyo park, they say little, but the woman bids farewell with an ancient tanka poem. Will the boy figure out the poem's meaning—and its corresponding response—before it's too late?

**NATIONAL BESTSELLER** - *"Elegant and wicked.... [This] might be the first true-crime book that makes the reader want to book a bed and breakfast for an extended weekend at the scene of the crime."* —*The New York Times Book Review*
*Shots rang out in Savannah's grandest mansion in the misty,early morning hours of May 2, 1981. Was it murder or self-defense? For nearly a decade, the shooting and its aftermath reverberated throughout this hauntingly beautiful city of moss-hung oaks and shaded squares. John Berendt's sharply observed, suspenseful, and witty narrative reads like a thoroughly engrossing novel, and yet it is a work of nonfiction. Berendt skillfully interweaves a hugely entertaining first-person account of life in this isolated remnant of the Old South with the unpredictable twists and turns of a landmark murder case. It is a spellbinding story peopled by a gallery of remarkable characters: the well-bred society ladies of the Married Woman's Card Club; the turbulent young redneck gigolo; the hapless recluse who owns a bottle of poison so powerful it could kill every man, woman, and child in Savannah; the aging and profane Southern belle who is the "soul of pampered self-absorption"; the uproariously funny black drag queen; the acerbic and arrogant antiques dealer; the sweet-talking, piano-playing can artist; young blacks dancing the minut at the black debutante ball; and Minerva, the voodoo priestess who works her magic in the graveyard at midnight. These and other Savannahians act as a Greek chorus, with Berendt revealing the alliances, hostilities, and intrigues that thrive in a town where everyone knows everyone else. Midnight in the Garden of Good and Evil is a sublime and seductive reading experience. Brilliantly conceived and masterfully written, this enormously engaging portrait of a most beguiling Southern city has become a modern classic.*

*In the Soviet-occupied Japan of an alternate history, two childhood friends who have grown apart find each other again and begin a search for a missing third friend—and possibly save the world in the process.*

*Charming in the Big Apple Faerie-born Jack Flash and her human-born brother, Larry, run a detective agency in New York City specializing in crimes committed in the hazy boundary between the human and faerie realms. They never expected to receive a letter from an ancient magus of the Old World, but Echos, caretaker of dragons, has a task for them. An all-new The Ancient Magus' Bride spin-off series!*

*"The Book of Eli: Solara: The Verse of Shadow," is the story of Solara and her mission to save her blind mother from Carnegie. This story is a fan-told expansion of the original 2010 movie The Book of Eli starring Denzel Washington (Eli) and Mila Kunis (Solara). Throughout this book, the reader follows Solara as the main character and receives closure to the original story. This book will appeal to those who enjoy fan fiction.*

Vast legions of gods, mages, humans, dragons and all manner of creatures play out the fate of the Malazan Empire in this first book in a major epic fantasy series The Malazan Empire simmers with discontent, bled dry by interminable warfare, bitter infighting and bloody confrontations with the formidable Anomander Rake and his Tiste Andii, ancient and implacable sorcerers. Even the imperial legions, long inured to the bloodshed, yearn for some respite. Yet Empress Laseen's rule remains absolute, enforced by her dread Claw assassins. For Sergeant Whiskeyjack and his squad of Bridgeburners, and for Tattersall, surviving cadre mage of the Second Legion, the aftermath of the siege of Pale should have been a time to mourn the many dead. But Darujhistan, last of the Free Cities of Genabackis, yet holds out. It is to this ancient citadel that Laseen turns her predatory gaze. However, it would appear that the Empire is not alone in this great game. Sinister, shadowbound forces are gathering as the gods themselves prepare to play their hand... Conceived and written on a panoramic scale, Gardens of the Moon is epic fantasy of the highest order—an enthralling adventure by an outstanding new voice. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The title sequence of Making the Beds for the Dead charts the journey of the Foot and Mouth virus in 'the plague year'. Come from outer space, it travels - on a fox's paw, the beak of a kite and a crow and a buzzard - into the very heart of our lives. The poet includes personal, verses and stories from farmers in her family and neighbourhood. The open structure allows Gillian Clarke to include her seven rock poems, written for the National Botanic Garden of Wales; her poems based in archaeology; and her poems about war, and urban violence. There is an instinctive and a deliberate unity of theme and idiom in this book. The poet remains true to her landscapes and her nation. The sequence 'The Physicians of Myddfai', nine sonnets for Aberlhasne, and much else is included in this characteristically generous and engaging volume by Wales' best-loved poet.

On rainy mornings, Takao can never bring him-self to go to school--instead, he spends that time at the beautiful Shinjuku Gyoen gardens and finds a brief reprieve from everything else in his life among the trees and flowers. And on one of those mornings, he discovers a mysterious woman named Yukino in his haven, skipping work, and an unlikely friendship blooms between them. But though these two are the center of this story, they are far from the only ones trying to find their way in life. From director Makoto Shinkai comes a deeper look at his award-winning 2013 film, The Garden of Words, full of additional scenes and perspectives to show a whole new side of the many characters who brought the film to life.

In essence, this story is about how a certain person was searching his bookshelf for something to read and in the end found a book, which turned out to be the source, from which it is possible to obtain absolutely any kind of information about absolutely any person. Meaning, information to the smallest particulars and details about what his or her qualities of personality are, how he or she lives, what he or she really wants to achieve, what he or she hides, and much more. And, it does not matter, if the subject is some person, who lived in the distant past or lives in the present or someone, who will live in the future. Since, as it turned out later on, this literary monument is nothing other than the Catalog of human population. In other words, the encyclopedia of Homo sapiens; in essence, the same as encyclopedias, reference books for specialists, which contain complete information about representatives of a particular subspecies of animals, plants, etc.. Although at some point, the course of this story turned banal: "bad guys" from security services, intelligence services, politics decided to not only use this source of knowledge for their dirty deeds, but also to appropriate it solely for their personal use. And, the way they tried to do this is also banal: by physically destroying the author of discovery of the Catalog of human population and all of his colleagues. However, the ending of this story makes it stand out from the category of ordinary spy stories. At least because the main characters of this story managed to survive not due to favorable concatenation of circumstances or someone's help, but thanks to that knowledge, which they discovered in the ancient text, which turned out to be the Catalog of human population. Of course, such an outcome upset and continues to upset not only the Russian special services, but also all those people in whose way developers of the Catalog of human population got. And, in this civilization, there are countless numbers of such people: from psychologists (who become no longer needed by anyone) to organizers of this civilization themselves. Since from the standpoint of the Catalog of human population--technogenic civilization without a human, which they lovingly built for many centuries, is simply trash, to put it mildly, and beneath all criticism. And, they themselves are also trash. However, regular people, who (thanks to the scientific discovery made by Andrew Davydov) got the source with answers to all of their questions and individual recipes, now no longer need to pay "experts on the human soul" for being shamelessly fooled. Therefore, whoever tries to kill developers of the Catalog of human population in the future must know that it is no longer possible, as they already became part of history of humanity. After all, at the current stage of development, a Homo sapiens has only one possibility to continue to live after death, to live through the ages: in the product that he/she created. And, those, who tried and continue to try to kill them, were nobodies and will remain nobodies, who one day will cease to exist without leaving a trace. As for organizers of this "civilization"--maybe instead of trying to find new recipes to destroy "excess billions" and trying to examine human potential using Neanderthal methods, it would be more reasonable not only to find out the recipe of how to make Homo sapiens a 100% controllable producer and consumer from the source (which, by the way, seems to have been left to humanity by creators of nature and a human on this planet), but also how to build a civilization without quotes? After all, it only seems to them that they are the main deceivers, while in reality they were fooled, and fooled majorly.

Maxwell Parker, P. I.

'A compelling tale... a narrative that makes such a brave effort to see history as it evolves and not as it becomes.' SPECTATOR Suffused with the tense atmosphere of the times, and with brilliant portraits of Hitler, Goebbels, Goering and Himmler amongst others, Erik Larson's new book sheds unique light on events as they unfold, resulting in an unforgettable, addictively readable work of narrative history. Berlin,1933. William E. Dodd, a mild-mannered academic from Chicago, has to his own and everyone else's surprise, become America's first ambassador to Hitler's Germany, in a year that proves to be the turning point in history. Dodd and his family, notably his vivacious daughter, Martha, observe at first-hand the many changes - some subtle, some disturbing, and some horrifically violent - that signal Hitler's consolidation of power. Dodd has little choice but to associate with key figures in the Nazi party, his increasingly concerned cables make little impact on an indifferent U.S. State Department, while Martha is drawn to the Nazis and their vision of a 'New Germany' and has a succession of affairs with senior party players, including first chief of the Gestapo, Rudolf Diels. But as the year darkens, Dodd and his daughter find their lives transformed and any last illusion they might have about Hitler are shattered by the violence of the 'Night of the Long Knives' in the summer of 1934 that established him as supreme dictator. . .
