The broad and developing scope of ergonomics, the application of scientific knowledge to improve people's interaction with products, systems and environments, has been illustrated over the past sixteen years by the books that make up the Contemporary Ergonomics series. Presenting the proceedings of the Ergonomics Society's Annual Conference, the series embraces the wide range of topics covered by ergonomics. Chapters provide an insight into the current practice, present new research findings and form an invaluable reference source. Among the most interesting topics covered in this volume are rail safety, the development and applications of virtual reality and hospital ergonomics. Contemporary Ergonomics 2002 will appeal to all those who have an interest in people's interactions with their working and leisure environment, including designers, manufacturing and production engineers, health and safety specialists, occupational, applied and industrial psychologists, and applied physiologists.

Cheats, Choices & Dumbing Down: A book about exams for pushy parents, streetwise students and tireless teachers

Ess Gcse Buis Studies Rev Gude

New editions of the bestselling Revise GCSE Study Guides with a fresh new look and updated content in line with curriculum changes.

Revise GCSE contains everything students need to achieve the GCSE grade they want. Each title has been written by a GCSE examiner to help boost students' learning and focus their revision. Each title provides complete curriculum coverage with clearly marked exam board labels so students can easily adapt the content to fit the course they are studying. Revise GCSE is an ideal course companion throughout a student's GCSE study and acts as the ultimate Study Guide throughout their revision.

Written specifically for the ICAA/CCEA (formerly NDTEF) specifications covering communication systems in business and written by authors who are examiners in this subject, this text provides clear explanations of the role of ICT in business, in all the key contexts: business and its environment; human resources; workplace organization and production; accounting and finance; and marketing. The book features: case study examples from business which help explain each key point; visual diagrammatic summaries which reinforce understanding and streamline revision; thinking points and activities which involve the student in active learning; advice on exam preparation and coursework; and frequent opportunities to practise typical examination questions.

Written by the man whose signature is on millions of exam certificates, Cheats, Choices & Dumbing Down lifts the lid on the UK's complex exams and qualifications system. Whether you're studying for exams, or are a parent, teacher, governor or administrator, this eye-opening book will be a valuable guide. It deals with the main qualifications in the UK, including GCSE, A Level, BTEC, the Diploma, International Baccalaureate, the English Baccalaureate and other vocational and professional qualifications. Read it to find out: How to achieve the best results Whether some subjects are easier than others The truth about 'dumbing down' and educational standards What examiners are looking for - and how they decide what grade to award Why millions of exam questions are marked by non-teachers How to claim an advantage and challenge grades How people cheat - and the consequences of getting caught What the future holds for exams and qualifications

This book is for newly qualified teachers and PGCE students of business education and economics. It covers the training standards for NQTS but goes beyond this with a focus on the subject expertise they bring into teaching.
