General accounting is very important in everyone walk of life. Keeping financial records helps make life easier. Whether it may be your business or just personal. Book keeping is very important no matter what. Many people go through financial struggles because they do no book keeping of their finances. They do not own an accounting journal , ledger or ledger book, or just general accounting with bookkeeping . They can tell you a an example of a ledger far less to be able to set up bookkeeping records to know their ledger balance. I just want to remind you that whether its general accounting , book keeping , having a ledger or ledger book ; accounting journal, whatever you want to call it, is the best thing you can have in your household. instead of paying lawyers a lot of money to teach you to manage you basic finances, do your own book keeping, find a ledger example , learn general accounting or basic accounting if you want to, and keep an accounting journal.
