CIMA offers a business qualification with a finance focus, aiming to produce members with accounting prowess who are skilled in strategic decision-making. 98% of its members work in business, the highest proportion of any worldwide accountancy body. Paper P2 - Performance Management is the second paper in the Performance pillar. It builds on Paper P1

knowledge as well as introducing such new topics as transfer pricing. The paper focuses on the ability to discuss and evaluate results as well as use techniques to calculate the numbers. The syllabus is concerned with \* Analysis and discussion of pricing and product decisions \* Evaluation of techniques used to in cost planning and analysis for competitive advantage \* Evaluation of performance using budgets and discussion of issues in using budgets for this purpose \* Discussion of how to measure performance of responsibility centres and evaluation of the usefulness of these techniques P1 requires a good understanding of the underlying concepts and techniques in all five areas. P1 also needs you to be able to apply these concepts to practical situations, evaluate them critically and interpret the results. The P2 study text provides comprehensive coverage of the complete P2 syllabus. It features step-by-step guides to such topics as limiting factor analysis, multi-product breakeven analysis and budgeting. Each chapter includes numerous simple and comprehensive examples of how to apply various techniques. Areas that students traditionally find difficult - such as linear programming and transfer pricing - are dealt with in dedicated chapters that break these topics down into manageable sections and give students plenty of opportunities to practise techniques.

CIMA offers a business qualification with a finance focus, aiming to produce members with accounting prowess who are skilled in strategic decision-making. 98% of its members work in business, the highest proportion of any worldwide accountancy body. Paper P1 looks at how information is obtained, evaluated and used to control and predict business performance. The syllabus is split into the following five areas: \* Cost accounting systems \* Forecasting and budgeting techniques \* Project appraisal \* Dealing with uncertainty in analysis \* Managing short-term finance P1 requires a good

understanding of the underlying concepts and techniques in all five areas. P1 also needs you to be able to apply these concepts to practical situations, evaluate them critically and interpret the results. The P1 Study Text contains all you need to know for P1, featuring step-by-step guides to techniques such as investment decision making and budget preparation. There are also reminder sections of knowledge brought forward from earlier studies such as costing terminology. Key terms are identified throughout the Text to help you to get to grips with the new material.

This book draws theoretically and methodologically from the sociology of curriculum, educational policy, and comparative education to meta-analyze the

findings of nine separate studies exploring constructions of "Europe" in the secondary school curricula of Social Studies from a number of countries: Germany, Greece, France, Poland, Cyprus, Sweden, Ireland, and Northern Ireland, as well as the Autonomous Community of the Basque Country (Spain). The objectives of the book are threefold: first, to explore constructions of "Europe" and "European identity-citizenship" in these countries' curricula; second, to explore whether, and, if so, how these findings indicate a "Europeanization" of national curricula; and third, to discuss the similarities, differences, continuities, discontinuities, and tensions identified when comparing these curricula. (Series: Europa lernen. Perspektiven für eine Didaktik europäischer Kulturstudien - Vol. 2)

This NEBOSH-endorsed textbook is matched to the latest syllabus of the National Certificate in Construction Safety and Health. Within the construction industry the need for specialist health and safety training is high due to the high risks involved. This is reflected in recent legislation such as CDM 2007 and explains the consistent demand for courses and learning materials. The text is easy to read, highly illustrated in full color, and supported with checklists, report forms and record sheets used currently in the industry. Students are supported with end-of-chapter questions, a study skills chapter and specimen assignments

including specimen answers. As NEBOSH actively grow their qualifications internationally, demand for this book and it's sister titles continues to increase overseas. High growth markets are the Middle East, Malaysia, India and China.

CIMA offers a business qualification with a

finance focus, aiming to produce members with

accounting prowess who are skilled in

strategic decision-making. 98% of its members

work in business, the highest proportion of

any worldwide accountancy body. The CIMA E1

exam covers a variety of topics that are unrelated but are all essential to the running of a successful business. There is a strong theoretical basis to this subject and it is important that students understand how to apply these theories in the 'real world'. The key E1 subject areas are: \* The global business environment \* Information systems \* Marketing \* Managing human capital. The E1 Study Text comprehensively covers all the E1 syllabus areas. It breaks down each topic into manageable chunks and clearly describes all relevant theories. The questions in the question bank demonstrate how these theories should be applied in an exam situation.

CIMA offers a business qualification with a finance focus, aiming to produce members with accounting prowess who are skilled in strategic decision-making. 98% of its members work in business, the highest proportion of any worldwide accountancy body. The P3 Performance Strategy exam covers how organisations respond to risks through systems and controls. The syllabus emphasises the wide-ranging risks organisations face, and particularly financial and information risks, because of the severe consequences these can have. It includes the methods organisations use to reduce risks, including: \* Management and accounting systems \* Corporate governance \* Control environment and procedures \* Internal audit. Key skills are: \* Recognising risks \* Recommending

appropriate actions to counter those risks. The syllabus also requires appreciation of how risks and control systems link with the strategies the organisation pursues. The Study Text provides all you need to know for P3. It gives many examples of the strategic and operational risks organisations face when they try to fulfil their objectives. It explains the frameworks organisations use for controlling risks. It demonstrates the importance of key elements of control systems including corporate governance, ethics support, control procedures and internal audit.

F1 builds on knowledge from paper C2 and introduces tax at a very basic level; it is not based on any tax regime. Financial reporting is a major part of the syllabus, both single company and group accounts are examined in the two '25-mark' questions in section C. New financial reporting topics introduced at this level are: group accounts; construction contracts; financial instruments; and leases. It has four main sections: The principles of business taxation The principles of regulation of financial reporting Preparation of financial statements which conform with IFRS Consolidated financial statements The study text concentrates on the key areas of the syllabus, taking into account the way in
