book is a chronicle of the entire range of Gibson Les Paul guitars, the stories surrounding their creation and the artists (such as Jeff Beck, Jimmy Page and Eric Clapton) who played them. Made by the Gibson company, the Les Paul was the result of a collaboration with brilliant guitarist Les Paul, one half of the famous Les Paul and Mary Ford Duo. Every model is described and its different specifications unravelled, with colour photographs that reveal the complexity and beauty of these important guitars over the last 50 years.

The modernistic amalgam of bevels and points and angles was a radical departure, and this new book tells the story of all the SG models that followed: the Junior, Special, Standard, Custom, and more. There are interviews with and stories about Gibson personnel through the years, and all the major SG players, including Pete Townshend, Frank Zappa, Eric
