Enraged by an article entitled 'What Girls Are Good For', Elizabeth Cochrane pens an angry letter to the Pittsburgh Dispatch, never imagining a Victorian newspaper would hire a woman reporter. Chased out of Mexico for revealing government corruption, her romantic advances rejected by a married colleague, Bly earns the chance to break into the New York's Newspaper Row if she can nab a major scoop -

This volume presents research on major issues in syntactic theory within Role and Reference Grammar. This theory was first presented in detail in *Functional*

**Syntax and Universal Grammar [FSUG], and these papers represent both expansions and applications of the theory to a wide range of phenomena. The first section contains an introduction to the theory which is the most thorough statement of it since FSUG, summarizing the features of Role and Reference Grammar established there and developing new theoretical components and analyses of syntactic phenomena not discussed in the earlier work. Throughout the discussion features of RRG are compared and contrasted with comparable features of other syntactic theories.**

The remainder of the volume is devoted to detailed analyses of specific problems, e.g. control, case marking, in a wide variety of languages, e.g. Mandarin Chinese, Nootka, Mparntwe Arrernte and Turkish. Thus the works presented here illustrate well the strong cross-linguistic approach to syntactic theory and description in Role and Reference Grammar.

Renaissance Italy investigates aspects of women's lives, culture, ideas and the history of the book in early modern Italy. Inside a badly damaged copy of Straparola's 16th-century work, *Piacevoli Notti*, acquired in a Florentine antique shop in 2010, an inscription is found, attributing ownership to a certain Angelica Baldachini. The discovery sets in motion a series of inquiries, deploying knowledge about calligraphy, orthography, linguistics, dialectology and the socio-psychology of writing, to reveal the person behind the name. Focusing as much on the possible owner as upon the thing owned, *Angelica's Book* examines the genesis of the *Piacevoli Notti* and

its many editions, including the one in question. The intertwined stories of the book and its owner are set against the backdrop of a Renaissance world, still imperfectly understood, in which literature and reading were subject to regimes of control; and the new information throws aspects of this world into further relief, especially in regard to women's involvement with reading, books and knowledge. The inquiry yields unexpected insights concerning the logic of accidental discovery, the nature of evidence, and the mission of the humanities in a time of global crisis. *Angelica's Book and the World of Reading in Late Renaissance Italy* is a thought-provoking read for any scholar of

Told from the perspective of an older woman as she looks back on her youth with both pleasure and regret (but

In 1940, nineteen-year-old Vivian Morris has just been kicked out of Vassar College, owing to her lackluster freshman-year performance. Her affluent parents send her to Manhattan to live with her Aunt Peg, who owns a flamboyant, crumbling midtown theater called the Lily Playhouse. There Vivian is introduced to an entire cosmos of unconventional and charismatic characters, from the fun-chasing showgirls to a sexy male actor, a grand-dame actress, a lady-killer writer, and no-nonsense stage manager. But when Vivian makes a personal mistake that results in professional scandal, it turns her new world upside down in ways that

it will take her years to fully understand. Ultimately, though, it leads her to a new understanding of the kind of life she craves - and the kind of freedom it takes to pursue it. It will also lead to the love of her life, a love that stands out from all the rest. Now eighty-nine years old and telling her story at last, Vivian recalls how the events of those years altered the course of her life - and the gusto and autonomy with which she approached it. "At some point in a woman's life, she just gets tired of being ashamed all the time," she muses. "After that, she is free to become whoever she truly is." Written with a powerful wisdom about human desire and connection, *City of Girls* is a love story like no other.

This study has a twofold goal. First, it investigates the internal structure of words and clauses in Standard Arabic (SA), in the light of recent developments of Government and Binding Theory (GB). Second, it argues for a specific theory of typology, and proposes a particular view of how parametrization can be

construed and executed. SA is a language used throughout the Arab world, in contrast to specific local dialects which are limited to a particular area. The language has a number of features which make it particularly suitable for cross-linguistic comparative morpho-syntax, as well as research in different modules of the theory of grammar. SA morphology is essentially non-concatenative, though a rich analytic affixation system makes word formation hierarchical. Word order in

SA is basically VSO, but the language has alternative SVO structures as well.

Sentences can be 'nominal' (i.e. with no verb or copula realized at surface structure), or verbal.

Arguments can be left syntactically unexpressed (i.e. SA is a null argument language). SA is an agreement language, with a rich and complex agreement system interacting with word order, pronominal incorporation, and expletive structures. It also has a productive morphological case system. Tense, Aspect,

Modal, and Negation properties interact in intriguing ways. Finally, SA's DP system exhibits interesting complementary distributions between overt determiners, genitive complements, and possessive markers. It also uses different licensing strategies for Genitive Case marking.

A fascinating feminist reading of an often scorned medium: the storytelling, cross-platform success, and female fandom of the photoromance. Born in Italy and successfully exported to the rest of the world, photoromances had a readership of millions in the postwar years. By the early 1960s, more than ten million Italians read a photoromance each week. Despite its popularity, the photoromance—a form of graphic storytelling that uses photographs instead of drawings—was widely scorned as a

medium, and its largely female audience derided as naive, pathetic, and uneducated. In this provocative book, Paola Bonifazio offers another perspective, making a case for the relevance of the photoromance for both feminism and media culture. She argues that the photoromance pioneered storytelling across platforms, elevated characters and artists into brands, and nurtured a devoted fan base. Moreover, Bonifazio shows that female readers—condescended to by intellectuals, journalists, and politicians of both the left and the right—powered the Italian photoromance industry's success. Bonifazio examines the

“convergence culture” of Italian media as photoromance magazines dispersed their content across multiple formats, narrative conventions, editorial and business strategies, and platforms. The plots of photoromances often resembled the storylines of romantic films, and film stars themselves often appeared in photoromances. Bonifazio discusses the media habits of photoromance readers; the use of photoromances to promote political, religious, and social agendas, including a campaign for “birth control in comics”; and long-term fandom. While publishers built lifelong relationships with their readers, the readers built a common

*recent developments in generative syntax, namely the cartographic and minimalist approaches, by focusing on the “imperfect” parallels between clauses and nominal expressions. The third chapter shows that feature sharing is not the result of a unique syntactic process, but, rather, the consequence of Merge, which creates syntactic structure instantiating two types of relation: Selection and Modification. It argues for three different ways of transferring features: Agreement allows for an argument (an independent phase, selected by a head) to*

*re-enter the computation as part of the predicate of the new phase. It targets Person features and is not involved in the feature sharing triggered by modification. Concord copies the features of N (notably gender, number and case, where this is present). It is the result of Modification and can coexist with Agreement. Finally, Projection is triggered by multiple internal mergers of the head, bundled with all its interpretable and uninterpretable features, which may be realized in different segments. The fourth chapter focuses on the nature*

The rest of the volume is devoted to the analysis of syntactic phenomena, such as double definiteness, expletive articles, and weak and strong adjectival inflection, by means of the proposal that (scattered) nominal or adjectival heads concord with their modifiers.*

*This approach reinterprets head movement in a fashion that makes it compatible with minimalist requirements, provides an explanation for the apparent optionality of head movement, eliminates the typology of head movements by adjunction or substitution, and gives an original answer to the doubts raised about the legitimacy of the very notion of “functional category”.*

*role of subject. In this study Andrea Moro identifies a new category of copular sentences, namely inverse copular sentences, where the predicative noun phrase occupies the position which is canonically reserved for subjects. In the process, he sheds new light on such classical issues as the distribution and nature of expletives, locality theory and cliticization phenomena.*
