policies help  
sustain  
solidarity in  
contexts of  
diversity? To  
answer these  
questions, the  
volume brings  
together leading  
scholars in both  
normative  
political theory  
and empirical  
social science.

And Study Guide  
Answer Key

His point of departure is the founding document of the old consensus: a 1948 paper by Carl G. Hempel and Paul Oppenheim, "Studies in the Logic of Explanation," that set forth, with remarkable clarity, a mode of argument that came to be known as the deductive-

Download Ebook

nomological model.

This approach,

holding that

explanation does not  
move beyond the  
sphere of empirical  
knowledge, remained  
dominant during the  
hegemony of logical  
empiricism from 1950  
to 1975. Salmon  
traces in detail the  
rise and breakup of  
the old consensus,
