Finding the Way

Space-faring ne'er-do-well Rex Nihlo tries to score his biggest payday yet by swindling both the Malarchian Empire and the Revolting Front, but he and his faithful robot sidekick might finally be in over their heads.

In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Using Video Games to Level Up Collaboration for Students provides a research informed, systematic approach for using cooperative multiplayer video games as tools for teaching collaborative social skills and building social connection. Video games have become an ingrained part of our culture, and many teachers, school leaders and allied health professionals are exploring ways to harness digital games-based learning in their schools and settings. At the same time, collaborative skills and social inclusion have never been more important for our children and young adults. Taking a practical approach to supporting a range of learners, this book provides a three-stage system that guides professionals with all levels of gaming experience through skill instruction, supported play and guided reflection. A range of scaffolds and resources support the implementation of this program in primary and secondary

classrooms and private clinics. Complementing this intervention design are a set of principles of game design that assist in the selection of games for use with this program, which assist with the selection of existing games or the design of future games for use with this program. Whether you are a novice or an experienced gamer, Level Up Collaboration provides educators with an innovative approach to ensuring that children and young adults can develop the collaborative social skills essential for thriving in their communities. By using an area of interest and strength for many individuals experiencing challenges with developing friendships and developing collaborative social skills, this intervention program will help your school or setting to level up social outcomes for all participants.

This booklet explains the advantages of N scale model railroading and provides a variety of ideas on getting started with an N scale railroad. Perfect for beginners with limited space.

One of America's most dynamic preachers defends the Christian faith. In this powerful apologetic, Marney appeals to many of the world's great philosophers, theologians,

poets, and novelists. He uses their arguments in defense of the Christian faith--the only organizing force which can bring order to a skeptic's world of chaos.

Cameron Fletcher and Lucas Hensley are advertising executives who have Sixty Five Hours to pull together the campaign of their careers. Sixty Five Hours to get along. Sixty Five Hours to not kill each other. Sixty Five Hours to fall in love. ** First published in 2012. New Cover in 2019 - No additional content has been added.
