Frank D ' Angelo is an intrepid entrepreneur, singer, restaurateur, and the James Bond of the Canadian beverage world. At least one of his products can be found in almost every convenience store in Canada under the brands D ' Angelo or Arizona, and he has raised thousands of dollars for charities through his music. Born to Sicilian parents in Toronto, Frank nurtured his keen business sense as a boy by buying and consolidating paper routes, and then contracting them out. He flipped his first house at age 20. Six years later, he mortgaged his house to buy $150,000 worth of apple juice, which he used to start a multi-million dollar business empire from his truck. Frank appears in lots of his TV commercials, in various incarnations, and his inimitable " Eye-talian " style is arguably as famous as his drinks. You need only mention the catchphrase, " I Cheetah all the time, " and the infamous Ben Johnson Cheetah energy drink commercial springs to mind. Frank D ' Angelo doesn ' t just push the envelope—he pushes the entire post office; and in so doing, revolutionizes the very idea of merchandising. With a raw wit and seasoned debonair, Frank now hosts his own Friday night variety talk show, the Being Frank Show, with A-list guests and an assortment of comedy skits and live music. Despite his huge successes and achievements, Frank D ' Angelo is probably best known for just...Being Frank!

The Spaghetti Startup introduces the Lasagna Framework, a new tool for 'strategic growth hacking'. Lasagna helps startups achieve 'sustainable growth' by properly designing their 'growth engines' based on systems and design thinking. It is also a diagnostic tool that helps resolve core problems, avoid common pitfalls and increase the viability of an innovation-driven enterprise. Written with a fun, fable-ish twist, the book starts out with a futuristic story of the famed startup ecosystem, the Silicon Valley. It turns out, in the August of 2025, things change for the worse. There is an epidemic of spaghetti poisoning that plagues all entrepreneurs. The spag worm they contract impairs their judgment, which in turn puts their startups in jeopardy. Doctors have no remedy for the condition and the death toll is increasing. But, hey! There is a hero in this story, too! Apparently, our professing cat, Dr. Caddy has a solution to share with his fellows. All they need to do is to adopt Lasagna thinking, the cure for their spaghetti-driven minds. Visit Lasagnac.com to join the community, share your experiences, and help each other with fellow entrepreneurs from around the world.

The stories in the book include those of political activists, scientists, artists, musicians, inventors, businesspeople, Nobel prize winners, and more. Black History Books for kidsEvery single one of these individuals overcame adversities and changed the world, building a way for others to live better lives. As parents and educators, there are three important things that we can give to our children: good memories, a good education, and a sense of self-worth. Our team has created this book to help you to achieve these goals. There are no better memories than the times when we share books with our children. We hope that the positive messages and affirmations throughout this book will improve your child's self-esteem. Lastly, we should here acknowledge that every story in this book would merit a book by itself; hopefully, these snippets will inspire you and your child to learn more about each person. Tiffany's book is full of strategies and insight, but most important she showcases the value of dyslexia and how it is a competitive advantage." Skip Howard, Managing Director of Dallas Partners, Entrepreneur, and Inventor DYSLEXIA'S COMPETITIVE EDGE discusses how dyslexics can use their strengths to launch businesses, grow their companies, or accelerate their careers. The book includes personal stories, insights, and strategies from fellow dyslexics and non-dyslexics on how to use the dyslexic brain as a competitive edge. Tiffany offers advice on how to successfully manage difficulties that dyslexia can present such as having a response plan for when a dyslexic's word retrieval system misfires. As a dyslexic business owner, Tiffany writes from experience. She wrote a book she wished was available earlier in her career on how to use the dyslexic brain as an asset. Tiffany provides readers with an extensive resource section at the back of the book. As technology rapidly advances many of the talents dyslexics possess, such as creative, visionary, and outside-the-box thinking, will increase in demand exponentially.

Storytelling has come of age in the business world. Today, many of the most successful companies use storytelling as a leadership tool. Why do entrepreneurs constantly search for success, when it is happiness they are after? It is this question that many never stop to think about on their entrepreneurial journey. This blind push has created a crisis that is driving many entrepreneurs down the wrong path, and leading to lives of complete unhappiness, frustration, and a loss of who they are. Regardless of their success.Despite how they feel, they push even harder hoping that they will be able to move forward and feel better once they reach the next level. But no matter what they do, or what level they are at, these deep feelings, thoughts, and emotions, never go away.The constant barrage of emotions, influence, and beliefs has only strengthened this crisis. It has become a large epidemic that very few people are talking about or even realize exists. It is destroying who entrepreneurs are, and ultimately keeping them from what they really want."The Entrepreneurial Identity Crisis" aims to answer why this is happening to so many entrepreneurs, and why so many of them don't even realize they have been drawn into this crisis.Along with explaining why this is happening, this book aims to show entrepreneurs what they can do to not only reach the level of success that they want, but to feel happy, content, and fulfilled as well.
