"I never knew there were valuable coins hiding right under my nose!" - Michael in Florida "Mark's enthusiasm for treasure hunting is addicting. Another great book!" - James in Texas "I found two pieces of silver thanks to this book!" - Bryan in Colorado What a great way to find valuable coins when you can't get out there metal detecting." - Phil in California "I have purchased all of Mark's treasure hunting books and they are all well worth the price! This one included" - Bob in Tennessee There are millions of coins out there that hold a secret value. Knowing how and where to find these valuable coins is all part of the addictive fun. Best selling author and avid treasure hunter Mark Smith shows you how to do it. "The truth is a good percentage of the general public does not know a thing about valuable coins. They are far too busy in their day to day lives to stop and look at the value associated with a simple coin. To them it is just an old coin. This is a fact and a fact the would be coin collector like myself can easily capitalize on and so can you." Mark Smith When was the last time you used some actual physical money to buy something? It might have been a while, right? Modern technology has all but eliminated physical currency. People are getting paid electronically and they are spending their money electronically too. Where did all the actual physical money go? Think about that for a minute. In the United States alone there have been billions of coins created. If everyone is using electronic methods to pay for everything, where did all of these coins go? Grab your copy of Coin Hunting Made Easy and find out just how easy it is to find rare, valuable coins made from silver or even gold!
