When it comes to photography, it's all about the light. After spending more than thirty years behind the lens—working for National Geographic, Time, Life, and Sports Illustrated—Joe McNally knows about light. He knows how to talk about it, shape it, color it, control it, and direct it. Most importantly, he knows how to create it...using small hot shoe flashes. In The Hot Shoe Diaries, Joe brings you behind the scenes to candidly share his lighting solutions for a ton of great images. Using Nikon Speedlights, Joe lets you in on his uncensored thought process—often funny, sometimes serious, always fascinating—to demonstrate how he makes his pictures with these small flashes. Whether he's photographing a gymnast on the Great Wall, an alligator in a swamp, or a fire truck careening through Times Square, Joe uses these flashes to create great light that makes his pictures sing.

Where there is light, there must also be shadows. Fairy Tail's enemies are up to no good! Members of Tartaros pose as reporters to infiltrate the Magnolia Police Department?! Widely acclaimed as Naguib Mahfouz's best novel, Midaq Alley brings to life one of the hustling, teeming back alleys of Cairo in the 1940s. From Zaita the cripple-maker to Kirsha the hedonistic cafe owner, from Abbas the barber who mistakes greed for love to Hamida who sells her soul to escape the alley, from waiters and widows to politicians, pimps, and poets, the inhabitants of Midaq Alley vividly evoke Egypt's largest city as it teeters on the brink of change. Never has Nobel Prize-winner Mahfouz's talent for rich and luxurious storytelling been more evident than here, in his portrait of one small street as a microcosm of the world on the threshold of modernity.

somebody other than Farm Girl. There was no assassin behind my back. No, my shackles were just as tight but came in a different form. Like Death's icy fingers running down my spine, the ones that had gripped me for months, my past haunted my present in the guise of nostalgia. My old chains still left marks on my skin, their owner's gaze following behind. But he didn't know I lived. He didn't know I was so close, that I heard his name spoken every day. That I still hated him. Until my hate started tasting suspiciously different. One mistake and everything I'd created unraveled. A liar. Corruptor. He stood in front of me now. The air was heavy with expectation, tense with the possibilities of how this would unfold, of what he would do. But there was always two sides to every story, and maybe in this version, the corruptor wasn't him, but me.

The dawning of desire 1806, Scotland. Wild, reckless Callum MacCreath is in no hurry to become someone's husband. But when his responsible, steady older brother Ian announces his engagement to their childhood friend Rebecca, Callum makes a startling discovery: he wants the lovely young lass for himself. But it's too late, and when Ian banishes him for his duplicity, Callum is only too happy to leave Scotland forever. ...is delicious and dangerous 1816: Marrying Ian was the practical, logical thing for Becca to do. But once Callum sailed away to America, she missed his rakish charm and lust for life. Now Becca is a widow when a much-changed Callum returns to his Scottish homeland. Will he remember their spirited, fiery connection or does he blame her for his brother's unexpected death? This time neither of them can deny their scorching attraction. But will their hearts be burned in the blazing heat of scandal? "It's time to fall in love with Suzanne Enoch."

Hero4. All three of these cameras utilize the same basic operating system and menus, but each has slightly different features, functions and possible shooting resolutions for digital images and video.

*After offering an initial introduction to the cameras themselves, as well as their menus and buttons, this book offers an overview of the different camera housings and mounts available, plus explains how to utilize the GoPro mobile app and computer software. How to best use other “must have” GoPro accessories, including the Wi-Fi Remote and the LCD Touch BacPac display are also covered. Throughout the book are hundreds of shooting tips and strategies that teach readers how to capture the best possible photos and videos in a wide range of situations. Strategies for shooting professional-quality first and third-person photos/videos, as well as traditional photos/video, plus ways to achieve the best possible results indoors, outdoors, underwater, in low-light situations, and in high-action situations are covered. This book appeals to those who purchased a GoPro camera to take on vacation or to capture “family moments,” as well as to more active people who want to capture crystal-clear “action” images or videos of themselves engaged in various activities, using their GoPro camera in conjunction with the best combination of optional camera accessories, housings and mounts, based on their activity and the shooting conditions. How and why all of the accessories, housings, mounts, menu options and camera settings were used to capture the sample content is explained in the text and with plenty of visual examples within the book. How do you sell an innovative product to a market that does not yet exist?

Entrepreneurial businesses often create products and services based on radically new technology that have the power to change the marketplace. Existing market research data will be largely irrelevant in these cases, making sales and marketing of innovative new products especially challenging to entrepreneurs.

Entrepreneurial Marketing focuses on this challenge. Classic core marketing concepts, such as segmentation, positioning and the marketing mix undergo an 'extreme makeover' in the context of innovative products hitting the market. Edwin J. Nijssen stresses principles of affordable loss, experimentation and adjustment for emerging opportunities, as well as cooperation with first customers. Containing many marketing examples of successful and cutting edge innovations (including links to websites and videos on the Internet), useful lists of key issues and instructions on how to make a one-page marketing plan, *Entrepreneurial Marketing: An Effectual Approach* provides a vital guide to successfully developing customer demand and a market for innovative new products. This second edition has been thoroughly expanded with: a one-page

marketing plan which now focuses on the three entrepreneurial challenges that can be easily adapted; coverage of the customer development process; and updated references and new examples. This book provides students and entrepreneurs with the fundamental tools to succeed in marketing.

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from

politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea. This book focuses on small flying drones and their applications in conducting geographic surveys. Scholars and professionals will discover the potential of this tool, and hopefully develop a conceptual and methodological framework for doing the following things: a) Translate their data acquisition needs into specifications. (b) Use the developed specifications to choose the best accessible configuration for their drones, and (c) Design and organize effective and low-cost field deployment and flight operations by integrating technical aspects with regulatory and research requirements. Readers can apply this knowledge to work in cartography, environmental monitoring and analysis, land-use studies and landscape archaeology. Particular attention is also given to the reasons why a drone can dramatically boost a geographer's

capability to understand geographic phenomena both from hard-science and humanities-oriented approach.

final mission--to revive the dying town of Rescue. Gabe is done with being a hero. Wounded in body and soul, the retired SEAL simply wants to remain holed up in his isolated cabin. He sure doesn't want to be chief of police in some defunct town. But he has his orders. Audrey needs a place to hide. After the Chicago librarian discovers a horrendous crime, she wakes to an assassin in her bedroom. Injured and terrified, she flees, covering her trail every inch of the way. New name, new ID. New home. As Audrey learns to survive in Rescue, she begins to fall for the town...and the intimidating chief of police who protects it. Can the shy introvert and the deadly police chief find a life together? Despite the discord in town, Gabe is finding his own peace...with the quiet young woman who seems to have no past. She's adorable and caring and so very lost. But how can he trust someone who lies to him with every breath she takes? Cherise Sinclair is my go to author when I want a satisfying read. Most of the 70 billion animals that are farmed in the world are transported at least once in their lives. For improved animal welfare, sustainability, and profitability it is important that everyone involved in the transportation process takes responsibility for doing a good job. This may require legislation and assurance schemes backed up by inspections and driven by consumer awareness and demand. All aspects of the transportation process, including preparation for transport, handling during loading and unloading, handler and driver training, stocking density on the transport container, journey length, and weather have an effect on animal welfare, meat quality, health after transport, and even mortality during transit. These topics are covered in the papers and reviews in this book together with related aspects such as consumer perceptions of animal transport, cleaning of transport coops, and consideration of on-farm slaughter to obviate the need for transport to an abattoir. The book adds to the knowledge of farm animal transport and highlights areas for future research and improved practice.

The NFL is the most popular professional sports league in the United States. Its athletes receive multimillion-dollar contracts and almost endless media attention. The league's most important game, the Super Bowl, is practically a national holiday. Making it to the NFL, however, is not about the promised land of fame and fortune. Robert W. Turner II draws on his personal experience as a former professional football player as well as interviews with more than 140 current and former NFL players to reveal what it means to be

an athlete in the NFL and explain why so many players struggle with life after football. Without guaranteed contracts, the majority of players are forced out of the league after a few seasons. Over three-quarters of retirees experience bankruptcy or financial ruin, two-thirds live with chronic pain, and too many find themselves on the wrong side of the law. Robert W. Turner II argues that the fall from grace of so many players is no accident. The NFL, he contends, powerfully determines their experiences in and out of the league. The labor agreement provides little job security and few health and retirement benefits, and the owners refuse to share power with the players, making change difficult. And the process of becoming an elite football player--from high school to college and through the pros--leaves athletes with few marketable skills and little preparation for their first Sunday off the field. With compassion and objectivity, Not for Long reveals the life and mind of high school, college, and NFL athletes, shedding light on what might best help players transition successfully out of the sport.

The GoPro Karma Drone is the first foldable drone. The announcement was made in December of 2015, but the long-awaited GoPro is not yet up for purchase until October of this year. It is lightweight and easy to use when compared to other drones currently on the market. It is a professional-grade drone that can be used by anyone and comes with its own backpack. In addition, the GoPro Karma drone requires no assembly, simply remove from the backpack, unfold the propeller and you are ready to use. The parts can be easily replaced if damaged and the GoPro Karma is able to stand up to everyday wear- and- tear.

Increasing numbers of ecologists and conservation biologists have begun to explore the use of drone technology to obtain accurate and up-to-date data on the distribution and density of species, as well as the threats to their habitats, in their ongoing attempts to conserve and monitor biodiversity. Conservation drones are low-cost, autonomous, and operator-friendly unmanned aerial vehicles that can be used for surveying, mapping, and monitoring both habitat and biodiversity. They are fast becoming a valuable complement to ground-based surveys and satellite imagery for a wide range of ecological and conservation applications. The authors

pioneered the use of conservation drones for the purpose of monitoring orangutan populations in Southeast Asia. They subsequently founded ConservationDrones.org to share their knowledge of building and using drones with colleagues in the wider environmental community. This website has proved highly popular and this book aims to further build capacity to use drones and inspire others to adapt emerging technologies for practical conservation.
