On Film Analysis

A child wanders too far into the Knysna Forest ... he never returns. Nine years later government officials working on a census find a white child living with a Coloured family in the mountains beyond the forest. They take him away from the stricken Fielia, who has brought him up as her son, and give him back to his 'original' family. Stunned and helpless, Benjamin waits for Fielia to reclaim him. But, powerless against authority, Fielia never comes. Benjamin has to grow up before he can go in search of the truth ...

The Book of Squares by Fibonacci is a gem in the mathematical literature and one of the most important mathematical treatises written in the Middle Ages. It is a collection of theorems on indeterminate analysis and equations of second degree which yield, among other results, a solution to a problem proposed by Master John of Palermo to Leonardo at the Court of Frederick II. The book was dedicated and presented to the Emperor at Pisa in 1225. Dating back to the 13th century the book exhibits the early and continued fascination of men with our number system and the relationship among numbers with special properties such as prime numbers, squares, and odd numbers. The faithful translation into modern English and the commentary by the translator make this book accessible to professional mathematicians and amateurs who have always been intrigued by the lure of our number system.

Describes the political and social changes throughout the world from 1900 to the present day.

A story taking place during the latter half of the seventeenth century follows the lives of seven men from a Dutch colony at the Cape of Good Hope, each of whom finds their lives defined by Pieterella, a beautiful daughter of the

new colony's first mixed marriage, whose life reflects the impact of colonization on the Hottentot aborigines. A first novel.

All hell breaks loose when Detective Storm van der Merwe's mom is pushed under a train at Paddington Station. Storm must rush to London, even though she's in the middle of a murder investigation: leading South African fashion designer Beebee Bukelwa Babu was found dead in a luxury Hermanus hotel. Drumming up a team to investigate Beebee's death is proving difficult in a town crippled by protest action and in the grip of a menacing charismatic prophet firing up crowds to hysteria. Storm soon realises that her mom was a deliberate target. And she is one too. Meanwhile Storm's former colleague, the bumbling Andreas Moerdyk, now a PI, is doing his best to locate a missing and very valuable red diamond. From the murky streets of London to the diamond bourse in Antwerp, from secluded Port Nolloth to Storm's beloved Hermanus, Irna van Zyl's third crime novel unfolds at a heart-stopping pace.

Ladybird has published fairy tales for over forty-five years, bringing the magic of traditional stories to each new generation of children. These classic stories are based on the original Ladybird retellings by Vera Southgate, with beautiful new illustrations of the kind children like best - full of richness and detail. An essential part of any child's bookshelf, Ladybird Tales are perfect for sharing together and creating memories to treasure forever. This beautiful treasury brings together five of everyone's favourite fairy tales: Hansel and Gretel, Cinderella, Aladdin, Snow White and the Seven Dwarfs, and Puss in Boots.

"More than a century after the last shots were fired, Britain's scorched earth policy during the Anglo-Boer War still haunts South Africa. Thousands of women, children and the elderly - white and black - died in concentration camps, and the lives of many more were shattered. ... Fransjohan Pretorius and his team of leading historians provide a gripping, nuanced picture of life in the camps, investigating the fate of all those affected by this contentious policy."--Jacket.

Origins of the Cold War 1941-1949 covers the formative years of the momentous struggle which developed between two superpowers, the Soviet Union and the United States. It not only involved these titans but also the rest of the globe; many proxy wars were fought much to the detriment of the developing world. In a clear, concise manner, this book explains how the Cold War originated and developed between 1941 and 1949. The fourth edition is revised, updated and expanded to include new material on topics such as the culture wars and Stalin's view of Marxism. The introduction looks at the various approaches which have been adopted to analyse the Cold War and the challenges to arrive at a theory which can explain it. The book explores questions such as: - Who was responsible for the Cold War? - Was it inevitable or could it have been avoided? - Was Stalin genuinely interested in a post-war agreement? Illustrated with maps and figures and containing a chronology and who's who of key individuals, Origins of the Cold War 1941-1949 incorporates the most recent scholarship, theories and information to provide students with an invaluable introduction to a fascinating period that shaped today's world.

In September of 1893, Norwegian zoologist Fridtjof Nansen and a crew manned the schooner Fram, intending to drift, frozen in the Arctic pack-ice, to the North Pole. When it became clear that they would miss the pole, Nansen and his companion Hjalmar Johansen struck off by themselves. Racing the shrinking pack-ice, they attempted, by dog-sled, to go "farthest north." They survived a winter in a moss hut eating walruses and polar bears, and the public assumed they were dead. In the spring of 1896, after three years of trekking, and having made it to within four degrees of the pole, they returned to safety. Nansen's narrative stands with the best writing on polar exploration.

This book presents a comprehensive, systematic approach to the development of learning strategies.

Baie interessant is onder meer koerantberigte oor Van der Merwe se openbare optredes in 1940 terwyl die Tweede Wêreldoorlog gewoed het. Hy was toe nog nie 30 jaar oud nie en het pas teruggekeer van Nederland waar hy sy doktorsale studies afgehandel het. In di, bundel is verskeie resensies opgeneem wat Van der Merwe oor leidende historici se werk geskryf het. Dit sluit ook in evaluasies van ander historici van sy werk en van die dosente in die Geskiedenis-departement aan die U.S., waarvan hy van 1955 tot 1977 die effektiewe hoof was. 'n Opstel deur F.A. van Jaarsveld, waarin hy Van der Merwe en sy werk ontleed, is een van die mees uitstaande bydraes van hierdie historikus. The book that inspired the major new motion picture Mandela: Long Walk to Freedom. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's anti-apartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. LONG WALK TO FREEDOM is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life--an epic of struggle, setback, renewed hope, and ultimate triumph.
