The new emphasis in the Singapore mathematics education is on Big Ideas (Charles, 2005). This book contains more than 15 chapters from various experts on mathematics education that describe various aspects of Big Ideas from theory to practice. It contains chapters that discuss the historical development of mathematical concepts, specific mathematical concepts in relation to Big Ideas in mathematics, the spirit of Big Ideas in mathematics and its enactment in the mathematics classroom. This book presents a wide spectrum of issues related to Big Ideas in mathematics education. On the one end, we have topics that are mathematics content related, those that discuss the underlying principles of Big Ideas, and others that deepen the readers' knowledge in this area, and on the other hand there are practice oriented papers in preparing practitioners to have a clearer picture of classroom enactment related to an emphasis on Big Ideas.

Big Ideas in Mathematics: Yearbook 2019, Association Of Mathematics Educators

Weekly Practice: Language Arts for grade 5 provides daily practice for key concepts such as spelling, root words, affixes, figurative language, parts of speech, main idea, and more. Complete with flash cards and activities, this series supports classroom success by offering extra practice at home. Improve students' comprehension skills in the classroom while also providing a way to continue the learning process at home. Weekly Practice: Language Arts for grade 5 allows you to reinforce language arts topics at school and at home by offering 40 weeks of standards-based activities and skill review. The unique layout and engaging exercises keep students interested as they build concept knowledge and essential skills. Reproducible at-home activities and flash cards are also included to encourage the home-to-school connection that's essential for student success. Weekly Practice is the perfect time-saving resource for creating standards-aligned homework packets and keeping students' skills sharp all year long. The Weekly Practice series for kindergarten to grade 5 provides 40 weeks of comprehensive skill review. Each 192-page supplemental workbook focuses on critical skills and concepts that meet the standards for language arts or math. Designed to help students achieve subject mastery, each book includes four days of practice activities, weekly off-the-page activities, Common Core State Standards alignment matrix, flash cards, and an answer key. Weekly Practice offers an effortless way to integrate language arts or math practice into daily classroom instruction.

Letterland ABC

Letterland ABC

Teach writing skills using the Four Square method, which has been proven to work in classrooms just like yours. This revised and updated edition of the book also includes PowerPoint files filled with additional Four Square examples, activities, and writing exercises. The Four Square method can be used with all forms of writing and will fit any reading or language arts program. This step-by-step approach is built around a simple graphic organizer that first shows students how to collect ideas and then helps them use those ideas to create clear and polished prose. Open-ended reproducibles make the technique accessible to writers of all ability ranges. It is also great for content area writing.

Critical Thinking Skills Reading

"Letterland - where letters come to life! ... This edition of the Letterland ABC, the UK's best-selling alphabet book, includes vibrant illustrations featuring all the familiar a-z Letterland characters."--Cover.
