A book on the ancient rock art of the San -- the story behind the research. Ways of discovering rock art. The aesthetic approach. The narrative approach. Rediscovering the San. The interpretative approach: San beliefs. The interpretative approach: pictures in the brain. Ducks and rabbits. Battling it out. Many meanings. The broken string. Fragile heritage.

Chronologically traces the course of human history and civilization from prehistoric times to the present day, covering key events, people, inventions and discoveries, and ideas and beliefs.

The Book of Squares by Fibonacci is a gem in the mathematical literature and one of the most important mathematical treatises written in the Middle Ages. It is a collection of theorems on indeterminate analysis and equations of second degree which yield, among other results, a solution to a problem proposed by Master John of Palermo to Leonardo at the Court of Frederick II. The book was dedicated and presented to the Emperor at Pisa in 1225. Dating back to the 13th century the book exhibits the early and continued fascination of men with our number system and the relationship among numbers with special properties such as prime numbers, squares, and odd numbers. The faithful translation into modern English and the commentary by the translator make this book accessible to professional mathematicians and amateurs who have always been intrigued by the lure of our number system.

The Book of Squares

Africa's Leading University in Decline

Children are often entertained by things that are disgusting and absurd. They will regularly seek this kind of material, so it is nice to have books that expose them to this stuff in a harmless fashion. The humorous value is endless, and kids inadvertently learn some science while reading. Ultimately, these publications use shocking images to elicit laughter and education.

Study & Master Social Sciences has been specially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). The comprehensive Learner's Book: * provides activities that develop learners' skills and understanding of each of the modules specified by the CAPS curriculum * includes good-quality illustrations, photographs and diagrams in full colour * offers current and relevant content clearly set out according to the curriculum document. The innovative Teacher's Guide includes: * step-by-step guidance on the teaching of each lesson and activity as well as each form of assessment * Remedial and Extension activities for each module * bright ideas to extend the curriculum into the world

outside the classroom * a complete section on Formal Assessment, with sample examinations and their memoranda as well as photocopiable record sheets and templates.

In third-world countries an increasing number of people have been drawn into the process of industrialization as wage workers. The analyses here presented cover the limits set by workers to exploitation in workshop production, ethnicity as a workers' strategy, the role of workers' absenteeism and turnover, and labour strategies in a situation of recession and de-industrialisation. Using a historical approach labour migration, union strategy for democratisation, and the world-scale pattern of labour unrest are studied as outcomes of social conflict.

Study & Master Physical Sciences Grade 12 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Physical Sciences.

This edited book brings together an international cast of contributors to examine how academic literacy is learned and mastered in different tertiary education settings around the world. Bringing to the fore the value of qualitative enquiry through ethnographic methods, the authors illustrate in-depth descriptions of genre knowledge and academic literacy development in first and second language writing. All of the data presented in the chapters are original, as well as innovative in the field in terms of content and scope, and thought-provoking regarding theoretical, methodological and educational approaches. The contributions are also representative of both novice and advanced academic writing experiences, providing further insights into different stages of academic literacy development throughout the career-span of a researcher. Set against the backdrop of internationalisation trends in Higher Education and the pressure on multilingual academics to publish their research outcomes in English, this volume will be of use to academics and practitioners interested in the fields of Languages for Academic Purposes, Applied Linguistics, Literacy Skills, Genre Analysis and Acquisition and Language Education.

Geography, Grade 12

In September of 1893, Norwegian zoologist Fridtjof Nansen and a crew manned the schooner Fram, intending to drift, frozen in the Arctic pack-ice, to the North Pole. When it became clear that they would miss the pole, Nansen and his companion Hjalmar Johansen struck off by themselves. Racing the shrinking pack-ice, they attempted, by dog-sled, to go "farthest north." They survived a winter in a moss hut eating walruses and polar bears, and the public assumed they were dead. In the spring of 1896, after three years of trekking, and having made it to within four degrees of the pole, they returned to safety. Nansen's narrative stands with the best writing on polar exploration.

Study & master economic and management sciences grade 8 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in economic and management sciences.

This book presents a comprehensive, systematic approach to the development of learning strategies.

Ladybird Tales: Classic Stories to Share

South African Journal of Library and Information Science

Jaarboek

Ladybird has published fairy tales for over forty-five years, bringing the magic of traditional stories to each new generation of children. These classic stories are based on the original Ladybird retellings by Vera Southgate, with beautiful new illustrations of the kind children like best - full of richness and detail. An essential part of any child's bookshelf, Ladybird Tales are perfect for sharing together and creating memories to treasure forever. This beautiful treasury brings together five of everyone's favourite fairy tales: Hansel and Gretel, Cinderella, Aladdin, Snow White and the Seven Dwarfs, and Puss in Boots.

First published in 1976, People of the Eland was the first major step away from the outsiders view upon San rock art that had dominated studies of rock art for nearly a century. The book provides an account of the rock art of the Drakensberg Range and historical information on the mountain San themselves. The book aims to gain an insiders view of the rock art using San understandings of the world. While following this approach, it quickly became clear to Patricia Vinnicombe that the art was very far from simple depictions of daily life as had once seemed likely, but instead reflected the most deeply held San beliefs and symbols. This approach and this understanding has now become the standard for all those working with San rock art. Whilst this early knowledge of San art has been built upon considerably since 1976, People of the Eland remains a cornerstone of our current understanding. Reprinted here in full color, with the original artwork and photographs, People of the Eland remains a seminal work, the impact of which cannot be underestimated.

*Study & Master Life Skills has been specially developed to support the Curriculum and Assessment Policy Statement (CAPS). The innovative Teacher's Guide with CD-ROM includes: * a detailed work schedule for the whole year * step-by-step guidance on the teaching of each lesson and form of assessment, as well as*

*Remedial and Extension activities for each Unit * photocopiable record sheets and templates * recordings to support the Performing Arts topic.*

Discovering Southern African Rock Art

The Fall of the University of Cape Town

Poppie Nongena

Destructive forces have been eroding the University of Cape Town, Africa's leading university. This book tells the sad, true tale of what has been transpiring. It is a saga of lunacy, criminality, pandering, and identity politics. The mad and the bad - the deranged, deluded, the depraved - have been granted endless latitude in bullying and abusing others. The decline began in 2015 with the Rhodes Must Fall protest that resulted in the offending statue's removal within a month, and which spawned similar protests abroad. Emboldened by their local success, the protestors issued new and ever-increasing demands later that year and then again in 2016 and 2017. Their methods also became criminal - including intimidation, assault, and arson. The university leadership capitulated to this behaviour, and this fostered a broader and now pervasive toxic environment within the institution. These developments offer important lessons for universities around the world that are yielding to the forces of a faux "progressivism".

Set in South Africa, MindF**k is a powerful, disturbing, and at times frightening story. Chris Burns, and his friends - Kerbs and Sky Eyes - take to the road, heading for the MindF**k rock festival. Along the way they pick up the gorgeous Partygirl. Burns and Partygirl connect immediately. But on the first night, while the rockmusic blasts from the stage, something unexpected happens - Burns's world gets turned on its head as one of the boys emerges from the tent with blood on his hands. MindF**k is a real page-turner. The gripping, character-focused, first-person narrative delves right to the heart of a life on-the-edge and virtually out of control. Gritty, hard-hitting, and often shocking, it is packed with drama, emotion, suspense and intrigue from one page to the next. And there is a serious sting in the tail.MindF**k is part of the Cutting Edge

series: fast-paced, quick reads for teens and young adults looking for fiction which chimes with their perspective on life. Mindf**k is a title in the highly contemporary Cutting Edge fiction series for young adults. The series features fast-paced quick reads. Each book focuses on difficult topics and situations that many teenagers will have experienced first-hand or through friends. Cutting Edge is ideal for readers aged 14+ with a reading age of 12+.

A child wanders too far into the Knysna Forest ... he never returns. Nine years later government officials working on a census find a white child living with a Coloured family in the mountains beyond the forest. They take him away from the stricken Fiela, who has brought him up as her son, and give him back to his 'original' family. Stunned and helpless, Benjamin waits for Fiela to reclaim him. But, powerless against authority, Fiela never comes. Benjamin has to grow up before he can go in search of the truth ...

Study and Master Geography Grade 10 CAPS Study Guide

Eerste Addisionele Taal. Onderwysersgids

"More than a century after the last shots were fired, Britain's scorched earth policy during the Anglo-Boer War still haunts South Africa. Thousands of women, children and the elderly - white and black - died in concentration camps, and the lives of many more were shattered. ... Fransjohan Pretorius and his team of leading historians provide a gripping, nuanced picture of life in the camps, investigating the fate of all those affected by this contentious policy."--Jacket.

Lamb to the Slaughter is a short, sharp, chilling story from Roald Dahl, the master of the shocking tale. In Lamb to the Slaughter, Roald Dahl, one of the world's favourite authors, tells a twisted story about the darker side of human nature. Here, a wife serves up a dish that utterly baffles the police . . . Lamb to the Slaughter is taken from the short story collection Someone Like You, which includes seventeen other devious and shocking stories, featuring the two men who make an unusual and chilling wager over the provenance of a bottle of wine; a curious machine that reveals the horrifying truth about plants; the man waiting to be bitten by the venomous snake asleep on his stomach; and others. 'The absolute master of the twist in the tale.' (Observer) This story is also available as a Penguin digital audio download read by Juliet Stevenson. Roald Dahl, the brilliant and worldwide acclaimed author of Charlie and the Chocolate Factory, James and the Giant Peach, Matilda, and many more classics for children, also wrote scores of short stories for adults. These delightfully disturbing tales have often been filmed and were most recently the inspiration for the West End play, Roald Dahl's Twisted Tales by Jeremy Dyson. Roald Dahl's stories continue to make readers shiver today.

Provides children with information about testing for the virus called HIV, how AIDS is affecting Africa, and how to cope with an AIDS case in one's family.
