*The Easy Approach to Music Theory has been designed based on personal learning experience from the author Adrian Treacher. Adrian shares and explains the techniques he developed when studying music theory during his younger musical years. This book is unique in the sense that the techniques described produce the same accurate and correct results without using traditional standards of learning but learning is based on personal experience and “tricks of the trade”.*

Music Theory Past Papers 2012, ABRSM Grade 1

Grade Eight Music Theory for ABRSM Candidates A complete course for students taking the ABRSM Grade 8 music theory exam. This book takes you through each topic with a step-by-step approach. The topic in each unit is explained in simple terms with several musical examples, and is then followed by a page of consolidation exercises so that you can immediately practice your new-found knowledge. Model answers are provided. The course covers the ABRSM syllabus for Grade Eight, which is an advanced level. The course is broken down into four sections, which mirror the way the exam paper is organised - The Trio Sonata, Keyboard Reconstruction, Composition and Score-based Analysis Questions. Question 1 in the ABRSM grade 8 music theory exam requires you to "fill in the gaps" in a Baroque Trio Sonata. In this section of the course, you will learn exactly what a Trio Sonata is, and how it is constructed, before having a go at building one yourself, step-by-step. You will learn how to cope with common stumbling blocks, such as minor keys, modulation and suspensions, as well as mastering the art of applying sensitive melodic decoration, added 7th and 9th chords and their idiosyncracies. You will also learn how to identify sections where sequences imitation or repetitive motifs are expected. A method for approaching the question in a systematic way is provided. In the keyboard reconstruction question, you are given a handful of bars from a piano piece written in the Romantic era, and will need to supply the missing bars. This section of the course explains exactly how to do that, as well as highlighting some common pitfalls. You'll also learn how to adhere to the Romantic style, and how your knowledge of the "rules of harmony" will help you answer this question in a more effective way. The third section of the course covers composition. You will find out exactly what the examiner is expecting of you, in order to gain top marks for your composition. At this level, the examiner is expecting you to write something which is reasonably sophisticated, which means making use of a variety of recognised techniques. You will learn how to structure your piece into phrases with cadences, how to plan and execute modulations, how to adapt melodic ideas with sequences, imitation and rhythmic motifs and how to write "idiomatically" for the instrument in question. The last section of the course is general knowledge - you will learn how to answer a range of questions based on a score for either an chamber work, or an orchestral piece. You'll learn about how ensemble scores are organised, which instruments transpose and how, as well as a myriad of other skills such as intervals, writing out ornaments, or analysing harmony. Similar to the requirements at grade 7, the grade 8 paper generally expects your knowledge and interpretive skills to be wider, more descriptive, and more accurate at this grade. Perfect for self-study, or to use with your music teacher. Ample musical illustrations and exercises are included, with model answers provided. Each page has been carefully designed to be suitable for photocopying. This book is "bilingual," and contains both UK and USA musical terminology.

Grade Seven Music Theory for ABRSM Candidates A complete course for students taking the ABRSM Grade 7 music theory exam. This book takes you through each topic with a step-by-step approach. The topic in each unit is explained in simple terms with several musical examples, and is then followed by a page of consolidation exercises so that you can immediately practice your new-found knowledge. Model answers are provided. The course covers the ABRSM syllabus for Grade Seven, which is a pre-advanced level. The course is broken down into four sections, which mirror the way the exam paper is organised - figured bass, harmonic reconstruction, composition and score-based analysis questions. In the figured bass section, you will build on the basic figured bass knowledge you gained at grade 6. You will extend your "harmonic vocabulary" to include chords with an added 7th (e.g. V7 or I17), with an added 9th (e.g. V9) and also learn about how dissonant suspensions are handled in figured bass four-part harmony, and how modulation works in figured bass. This section will also teach you specifically how to answer question 1 in the ABRSM grade 7 exam paper, which asks you to supply the figured bass to a given bass and melody line. In the harmonic reconstruction question, you are asked to expand a given "skeleton framework" into a musical-sounding keyboard piece (in 4-part harmony) by adding recognised melodic decoration in an appropriate way. You will learn about the various types of non-chord notes, such as passing notes, appoggiaturas (accented passing notes), auxiliary notes, suspensions, anticipations and retardations. You will also learn how a melody can be decorated with additional chord notes, such as harmonic auxiliary notes. This section teaches you a step-by-step method for tackling question 2 in the grade 7 exam. The third section in the course covers composition. At grade 7, you may be asked to compose a melody line which fits a given piano accompaniment - you'll learn how to fit a melody on top of another one. An alternative question is to compose a melody to a given chord progression, so this section will also teach you how to tackle this second type of question, and how to achieve top marks, whichever question you choose. Last but not least (because it's worth 50% of the whole exam!) we cover the score analysis question. You will learn a wide range of interpretive skills, including transposition into or out of concert pitch, harmonic analysis, notation knowledge, awareness of stylistic eras and much more. Perfect for self-study, or to use with your music teacher. Ample musical illustrations and exercises are included, with model answers provided. Each page has been carefully designed to be suitable for photocopying. This book is "bilingual", and contains both UK and USA musical terminology.

*Grade One Music Theory for ABRSM Candidates A complete course for students taking the ABRSM Grade 1 music theory exam. This book takes you through each topic with a step-by-step approach. The topic in each unit is explained in simple terms with several musical examples, and is then followed by a page of consolidation exercises so that you can immediately practice your new-found knowledge. Answers are provided. The course covers the ABRSM syllabus for Grade One, which is an introductory level. Topics covered include treble and bass clefs, notation, accidentals, key signatures and scales of C, G, D and F major, tonic triads, rhythm, foreign terms and symbols. Perfect for self-study, or to use with your music teacher. A full practice test is included, with model answers provided. Each page has been carefully designed to be suitable for photocopying. This book is "bilingual," and contains both UK and USA musical terminology. About the Author Victoria Williams graduated from the University of Leeds with a BA Hons degree in Music in 1995, where she specialised in Musicology. Victoria has been teaching music theory via her website www.mymusictheory.com since 2007, and has students in over 110 countries worldwide. She now specialises in music theory exam training, focusing mainly on the ABRSM music theory exams from grades 1 to 8, but also coaches students of other syllabuses such as AMEB and AP music theory.*

*RCM Music Theory/ ABRSM Music Theory Warm-up! After completing this book, please start the Music Theory GRADE 1. It can accelerate your comprehension and allow you to shorten your exam-preparation time! The information in this book can be studied and learned by a student alone or with a teacher. If you have a good understanding of major and minor keys, you could read the entire book in less than 2 hours! I highly recommend this book to the following people: - Students preparing to study in the UK, USA, and Canada Students who are able to warm up by themselves before learning ABRSM MUSIC THEORY and RCM MUSIC THEORY GRADE1. - Learners of all ages who need basic music theory Those able to learn the basic concepts of rhythm and melody easily and simply.*
