Singapore has been a world leader in math performance for over 15 years. Bring the world-class Singapore curriculum to your students with Math in Focus. Singapore's curriculum was one of the models used to create the Common Core State Standards. Math in Focus provides complete Common Core support for teachers and students. Math in Focus teaches concepts using a concrete-pictorial-abstract learning progression to anchor learning in real-world, hands-on experiences. Problem solving is at the heart of the Singapore math curriculum and is supported with a proven pedagogy and innovative technology, including the Singapore Math, Bar Models app for iPad. - Publisher.

A collection of songs and rhymes that involve finger play, for children of all ages.

***Engage students in mathematics using growth mindset techniques The most challenging parts of teaching mathematics are engaging students and helping them understand the connections between mathematics concepts. In this***

***volume, you'll find a collection of low floor, high ceiling tasks that will help you do just that, by looking at the big ideas at the first-grade level through visualization, play, and investigation. During their work with tens of thousands of teachers, authors Jo Boaler, Jen Munson, and Cathy Williams heard the same message—that they want to incorporate more brain science into their math instruction, but they need guidance in the techniques that work best to get across the concepts they needed to teach. So the authors designed Mindset Mathematics around the principle of active student engagement, with tasks that reflect the latest brain science on learning. Open, creative, and visual math tasks have been shown to improve student test scores, and more importantly change their relationship with mathematics and start believing in their own potential. The tasks in Mindset Mathematics reflect the lessons from brain science that: There is no such thing as a math person - anyone can learn mathematics to high levels. Mistakes, struggle and challenge are the most important times for brain growth. Speed is unimportant in mathematics. Mathematics is a visual and beautiful subject, and our brains want to think visually about mathematics. With engaging questions, open-ended tasks, and four-color visuals that will help kids get excited about mathematics, Mindset Mathematics is organized around nine big ideas which emphasize the connections within the Common Core State Standards (CCSS) and can be used with any current curriculum.***

Journeys Georgia Grade 4

**Provide explicit, systematic phonics instruction and practice in just 15 to 20 minutes a day! The Daily Phonics series helps students reading below grade level gain the phonemic awareness, decoding, and word-study skills necessary to read proficiently.**

**Teach Them Spanish!** is for the teacher who has a little knowledge of Spanish and a lot of enthusiasm! This book guides you through practical lessons in beginning Spanish so that students with little or no previous Spanish will experience the thrill of success with a second language. Lessons, appropriate for fourth graders, are organized by topics familiar to the student, such as colors, clothing, food, family, and animals. Each lesson includes a simple-to-follow teacher lesson plan, a practice page, and activity pages. Lessons also include games, puzzles, songs, chants, and writing activities. Try this fun and practical program for teaching and learning basic Spanish.
