This established textbook explores how regions, and food industry, travel and hospitality companies present themselves to tourists experiencing the culture, history and ambience of a location through the food and wine it produces. It provides practical suggestions and guidelines for establishing a food-related tourism destination and business, discussing the environment, understanding the food tourist, supply issues, tours and tasting sessions, themed itineraries, planning and developing the tourist product, marketing and best practice strategies. It also includes numerous case studies from around the world and plentiful pedagogical features to aid student learning. If food and wine tourism is well planned, managed and controlled, it can become a real economic resource. Suitable for students in tourism and leisure subjects, the practical application provided in this book also makes it an ideal resource for those operating in the food and wine sector.

This book outlines the historical framework and the main concepts of the literature on industrial districts. It illustrates a new approach to the study of industrial development, based on well-known industrial districts analysis. Academics, politicians and students interested in local development and also industrial development will find much to learn in Industrial Districts, as will industrial geographers and historians of industry and of economic thought.

Got a hankering for a Kentucky Hot Brown? A serious need for a Navajo Taco? Craving an authentic Florida Cuban? Then this is the cookbook for you! You can thank John Montagu, the Fourth Earl of Sandwich, for its invention, though he probably wasn't the first guy to put stuff between two pieces of bread. No matter who created it, the sandwich is still the king of food in America. We eat more than 45 billion sandwiches per year, with the average person consuming 193 sandwiches annually! That's a lot of mustard! From Po'Boys to Lobster Rolls, Buffalo Burgers to Muffalettas, Becky Mercuri has a recipe for every sandwich imaginable, and a location in each region where you can find the real thing. Or, fix up a mess of your favorite regional sammies without ever leaving the comfort of your own kitchen! Learn about the history of the sandwich, the birth of Wonder Bread, the influence of immigrant flavors and foods, and the origins of each unique regional specialty sandwich in this affordable little American culinary road trip.

The authors argue that the new American economy must be driven by exports and powered by cleaner energy and indicate that metropolitan areas should lead the way in this new economic landscape.

This book highlights the use of an outcome-oriented view of performance to frame and assess the desirability of the effects produced by adopted policies, so to allow governments not only to consider effects in the short, but also the long run. Furthermore, it does not only focus on policy from the perspective of a single unit or institution, but also under an inter-institutional viewpoint. This book features theoretical and empirical research on how public organizations have evolved their performance management systems toward outcome measures that may allow one to better deal with wicked problems. Today, 'wicked problems' characterize most of governmental planning involving social issues. These are complex policy problems, underlying high risk and uncertainty, and a high interdependency among variables affecting them. Such problems cannot be clustered within the boundaries of a single organization, or referred to specific administrative levels or ministries. They are characterized by dynamic complexity, involving multi-level, multi-actor and multi-sectoral challenges. In the last decade, a number of countries have started to develop new approaches that may enable to improve cohesion, to effectively deal with wicked problems. The chapters in this book showcase these approaches, which encourage the adoption of more flexible and pervasive governmental systems to overcome such

complex problems. **Outcome-Based Performance Management in the Public Sector** is divided into five parts. Part 1 aims at shedding light on problems and issues implied in the design and implementation of “outcome-based” performance management systems in the public sector. Then Part 2 illustrates the experiences, problems, and evolving trends in three different countries (Scotland, USA, and Italy) towards the adoption of outcome-based performance management systems in the public sector. Such analyses are conducted at both the national and local government levels. The third part of the book frames how outcome-based performance management can enhance public governance and inter-institutional coordination. Part 4 deals with the illustration of challenges and results from different public sector domains. Finally the book concludes in Part 5 as it examines innovative methods and tools that may support decision makers in dealing with the challenges of outcome-based performance management in the public sector. Though the book is specifically focused on a research target, it will also be useful to practitioners and master students in public administration .

Managing Networks of Creativity

The aim of the Managing Networks of Creativity is to improve our understanding of creativity and the management of creativity, as discussed in the fields of management (including strategic management, organization science, organizational behaviour, and entrepreneurship), economics, sociology, regional studies, and political science. While research on creativity has made several

important contributions to the theoretical literature, little attention has been paid to the development and testing of formal theoretical models, especially in those cases where creativity is the result not so much of individual behaviour than the outcome of collective efforts, connecting individuals in organizations, social networks, projects, geographic clusters, and so forth. The proposed volume includes studies, both conceptual and empirical, which, as a whole, "deconstruct" the concept of creativity and the management of creativity by identifying specific situations, contexts, firms, clusters, and districts in which creative processes evolve. The reader is provided with in-depth discussions of theoretical issues and a range of descriptive cases and survey data that the authors use to explore or test concepts and models. Overall, the volume aims to integrate current debates concerning the role of creativity (and innovation) in economic and social development.

The world is no longer run by humans. Taken over by vampires a thousand years ago, the planet has been able to rejuvenate, and is now governed as a civilized society by The Collective. Prince Alexander Gronovski and his family are the owners of the world's only all female cattle farm. Their responsibility - to provide vampire kind with feeders, and carriers for their offspring. The only way vampires can produce pure blood children is to undergo the impregnation ceremony. Alex and his lover Jade must oversee the ceremony and deliver the vampire babies whilst fending off his killer father, a promised bride and hormonal humans.

Charlene Wilson, First Lady of First Jamaica Ministries, has lived a good life with her beloved Bishop T.K. Wilson and their two beautiful children. But now that the Lord has seen fit to call her home, someone needs to take care of her man. . . That's why Charlene has planned to hang around in spirit--to make sure T.K. ends up with the right woman. First in line is Marlene, the mother of T.K.'s illegitimate daughter. Then there's Monique Johnson, the unapologetic First Lady of Plastic Surgery and Implants. Next is Savannah Dickens, the church's attractive new choir soloist. And last but not least is Charlene's good friend Sister Lisa Mae Johnson, widow of Pastor Lee Jones. With the help of her friend Alison, Charlene prepares a series of letters addressed to the lucky ladies. No one else knows about the letters, but rest assured, they will shake up a whole lot of people. Charlene may soon be gone, but her presence will be felt. . . "Weber's novels are always sizzlers.

The last decades witnessed a vigorous debate over the role of corporations in society. Interest in corporate social responsibility (CSR) has become intense as corporate stakeholders have called for higher performance and ethical standards from businesses and many corporations have developed CSR programs to harvest the benefits resulting from such initiatives. CSR practices have become a crucial component of business strategy contributing to organizational success and sustainable competitiveness. Cases on Corporate Social Responsibility and Contemporary Issues in Organizations is an essential reference source that provides specific case studies that elaborate on the strategies and policies enacted by contemporary organizations to address environmental and social issues, as well as economic and financial ones. Featuring research on topics such as sustainable development goals, CSR pillars, employee retention, gender equality, and social accountability, this book is ideally designed for business managers, researchers, practitioners, and students seeking coverage on innovative business practices enacted by multiple organizations/industries.

When a car crash takes a life, to whom does the tragedy really happen—the wife who dies? The husband who was driving? Or the six-year-old son sitting in the backseat? Author George Harrar explores this provocative question in his debut novel, set in the arts colony of New Hope, Pennsylvania, on the Delaware River. The book begins 10 years after the accident when Jake Paine, now 16, comes home after almost a year as a runaway.

His return sparks painful memories in his father, a man verging on a nervous breakdown. Jake's appearance also ignites old fears among townspeople about a boy who dances on the edge of craziness.

Queens Consort, Cultural Transfer and European Politics examines the roles that queens consort played in dynastic politics and cultural transfer between their natal and marital courts during the sixteenth, seventeenth, and eighteenth centuries. This collection of essays analyses the part that these queens played in European politics, showing how hard and soft power, high politics and cultural influences, cannot be strictly separated. It shows that the root of these consorts' power lay in their dynastic networks and the extent to which they cultivated them. The consorts studied in this book come from territories such as Austria, Braunschweig, Hanover, Poland, Portugal, Prussia and Saxony and travel to, among other places, Britain, Naples, Russia, Spain and Sweden. The various chapters address different types of cultural manifestation, among them collecting, portraiture, panegyric poetry, libraries, theatre and festivals, learning, genealogical literature and architecture. The volume significantly shifts the direction of scholarship by moving beyond a focus on individual historical women to consider 'queens consort' as a category, making it valuable reading for students and scholars of early modern gender and political history.
