"Fascinating...sheds light on the history of the twentieth century for everyone."—New York Times Book Review Now, with an updated preface, the latest edition of the definitive biography of Pope John Paul II that explores how influential he was on the world stage and in some of the most historic events of the twentieth century that can still be felt today. Witness to Hope is the authoritative biography of one of the singular figures—some might argue the singular figure—of our time. With unprecedented cooperation from John Paul II and the people who knew and worked with him throughout his life, George Weigel offers a groundbreaking portrait of the Pope as a man, a thinker, and a leader whose religious convictions defined a new approach to world politics—and changed the course of history. As even his critics concede, John Paul II occupied a unique place on the world stage and put down intellectual markers

that no one could ignore or avoid as humanity entered a new millennium fraught with possibility and danger. The Pope was a man of prodigious energy who played a crucial, yet insufficiently explored, role in some of the most momentous events of our time, including the collapse of European communism, the quest for peace in the Middle East, and the democratic transformation of Latin America. With an updated preface, this edition of *Witness to Hope* explains how this “man from a far country” did all of that, and much more—and what both his accomplishments and the unfinished business of his pontificate mean for the future of the Church and the world.

The only book in English for readers of all ages by Nobel Prize-winning novelist Olga Tokarczuk is a beautifully illustrated meditation on the fullness of life. "Olga Tokarczuk's *The Lost Soul*, an experimental fable illustrated by Joanna Concejo and translated by Antonia Lloyd-Jones, resonates with our current moment. . . . What a

striking, and lovely, material object it is." —New York Times "The Lost Soul, by Olga Tokarczuk and illustrator Joanna Concejo, is a quiet meditation on happiness, following a busy man who loses his soul. . . It pours a childlike sense of wonder into a once-upon-a-time tale that is already resonating with adults around the world."

—Guardian The Lost Soul is a deeply moving reflection on our capacity to live in peace with ourselves, to remain patient, attentive to the world. It is a story that beautifully weaves together the voice of the Nobel Prize-winning Polish novelist Olga Tokarczuk and the finely detailed pen-and-ink drawings of illustrator Joanna Concejo, who together create a parallel narrative universe full of secrets, evocative of another time. Here a man has forgotten what makes his heart feel full. He moves to a house away from all that is familiar to him to wait for his soul to return. "Once upon a time there was a man who worked very hard and very quickly, and who had left his soul far behind him long ago. In fact his life was all right without his soul—he slept, ate, worked, drove a car and even played tennis. But sometimes he felt as if the world around him were flat, as if he were moving across a smooth page in a math book that was covered in evenly spaced squares... " —from The Lost Soul The Lost Soul is a sublime album, a rare delicacy that will delight readers young and old. "You must find a place of your own, sit there quietly and wait for your soul." What has happened in Poland? Poland has erupted four times in the last twenty five years, but only the events of 1980 have had comprehensive media coverage. As a result, many questions have been raised in the minds of Western observers. How were such changes possible? What forces lay behind them? In what way did the workers' strike relate to the demands for political democracy? Although a colourful and vivid eye-witness account of the 1980 upheavals, it is to these questions that Neal Ascherson's brilliant and thoughtful analysis mainly addresses itself. Viewing the situation in perspective, he argues that the Polish working class has brought about a controlled revolution, but is not intent on taking power for itself: the real heirs to the gains of 1980 and 1981 are likely to be the intelligentsia, in or out of the Communist Party. It is this social and political ferment that poses fundamental questions about the future of the whole Soviet system in Eastern Europe.

poisonous anti-Semitism that haunts all who live there."

THE cause of Poland owed no effective aid to British statesmanship, from the time of Pitt's passivity in 1792 to that of Lord Russell's non possumus in 1863; and there was very cold comfort in the words which, as we learn from Mr. Buckle's new volume, Disraeli used in the house of commons: "If the partition of Poland was a great crime, it was a crime shared by the Polish people, as their national existence could not have been destroyed without some faults on their side.' Students of history who have contented themselves with this kind of self-complacent judgement and the grain of truth which it contains, will do well to read Dr. Lord's monograph, and more especially the introductory part of it, which deals with 'the unfortunate historic evolution of the Polish constitution', together with the very remarkable chapters treating of the beginnings of national revival, and of the attempted realization of them in the constitution of the third of May. Dr. Lord justly holds that the history of the second partition of Poland, which is his proper theme (although he carries it forward in some respects to the much debated ground of the negotiations which ended in the third partition), cannot be understood when viewed as a mere episode in the history of the revolutionary war, or as a result of the transactions (the reverse of complete) between the eastern powers down to the time of the Russo-Prussian Convention of January 1793. To these transactions Dr. Lord has given full attention; and those who can call to mind the controversies of a past generation, in which the conclusions of Sybel's great book on the revolutionary epoch were impugned by Hüffer and others and defended by the

eminent author with no measured scorn, will readily acknowledge the use made in the present volume of the new sources, and of the new historical works, Polish and Russian in particular, which have been open to the use of its writer. Witness to Hope

The second installment in the darkly intelligent series that The Independent called "As noir as they get." 1927, Breslau, Poland: Two elaborate and sadistic murders are discovered within days of each other. The body of an unknown musician, bound and gagged, is found behind a false wall in a shoemaker's workshop. The victim had been sealed in alive. Elsewhere in the city, the horrifically mutilated body of a locksmith is found. Next to each victim is a torn-out calendar page, with the day of the death marked in blood. Nothing else seems to connect the cases. It falls to Criminal Councillor Eberhard Mock to solve the

case, the mystery taking him still further into the Breslau underworld he knows only too well. Meanwhile, his hard-drinking nocturnal habits soon threaten his volatile marriage, and prompt some strange behavior from his wife ... and before long, Mock and his team will be investigating not only two of the grisliest murders in the city's history, but the councillor's own wife.

Hunters become the hunted in a pulse-pounding art heist thriller from an international bestselling author. It begins with a tantalizing clue: a recent photograph taken of Raphael's Portrait of a Young Man--one of the most priceless masterworks ever plundered by the Nazis, which disappeared and was believed destroyed. Now, with proof of its existence, the Polish government wants it back. One wrong move and it could vanish forever. Because bound together with the missing artwork are secrets that have remained buried for a reason. That's why they've enlisted a woman with the right motives: Dr. Zofia Lorentz, a tenacious historian driven by academic pride and personal desire. Zofia isn't going at it alone. Her crack team of experts includes an ex-paramilitary tactical genius, a slick art dealer with black-market connections, and a beautiful aristocrat who is also a family outcast and one of the most ingenious art thieves in the world. From an isolated mansion in New York to Poland's Tatra Mountains to the frozen Scandinavian wilderness, they're following the trail of an

increasingly elusive puzzle--right into a trap that is a cunning work of art in itself. Concentrating on the formative years of the Cold War from 1943 to 1957, Patryk Babiracki reveals little-known Soviet efforts to build a postwar East European empire through culture. Babiracki argues that the Soviets involved in foreign cultural outreach tried to use "soft power" in order to galvanize broad support for the postwar order in the emerging Soviet bloc. Populated with compelling characters ranging from artists, writers, journalists, and scientists to party and government functionaries, this work illuminates the behind-the-scenes schemes of the Stalinist international propaganda machine. Based on exhaustive research in Russian and Polish archives, Babiracki's study is the first in any language to examine the two-way interactions between Soviet and Polish propagandists and to evaluate their attempts at cultural cooperation. Babiracki shows that the Stalinist system ultimately undermined Soviet efforts to secure popular legitimacy abroad through persuasive propaganda. He also highlights the limitations and contradictions of Soviet international cultural outreach, which help explain why the Soviet empire in Eastern Europe crumbled so easily after less than a half-century of existence.

Twelve stories by science fiction master Stanisław Lem, nine of them never before published in English. Of these twelve short stories by science fiction

master Stanisław Lem, only three have previously appeared in English, making this the first "new" book of fiction by Lem since the late 1980s. The stories display the full range of Lem's intense curiosity about scientific ideas as well as his sardonic approach to human nature, presenting as multifarious a collection of mad scientists as any reader could wish for. Many of these stories feature artificial intelligences or artificial life forms, long a Lem preoccupation; some feature quite insane theories of cosmology or evolution. All are thought provoking and scathingly funny. Written from 1956 to 1993, the stories are arranged in chronological order. In the title story, "The Truth," a scientist in an insane asylum theorizes that the sun is alive; "The Journal" appears to be an account by an omnipotent being describing the creation of infinite universes--until, in a classic Lem twist, it turns out to be no such thing; in "An Enigma," beings debate whether offspring can be created without advanced degrees and design templates. Other stories feature a computer that can predict the future by 137 seconds, matter-destroying spores, a hunt in which the prey is a robot, and an electronic brain eager to go on the lam. These stories are peak Lem, exploring ideas and themes that resonate throughout his writing.

NOW A MINISERIES ON BBC AMERICA STARRING DAVID TENNANT An autumn evening in 1937. A German engineer arrives at the Warsaw railway station. Tonight, he will be with his Polish mistress; tomorrow, at a workers ' bar in the city ' s factory district, he will meet with the military attaché from the French embassy. Information will be exchanged for money. So begins *The Spies of Warsaw*, the brilliant new novel by Alan Furst, lauded by *The New York Times* as “ America ' s preeminent spy novelist. ” War is coming to Europe. French and German intelligence operatives are locked in a life-and-death struggle on the espionage battlefield. At the French embassy, the new military attaché, Colonel Jean-Francois Mercier, a decorated hero of the 1914 war, is drawn into a world of abduction, betrayal, and intrigue in the diplomatic salons and back alleys of Warsaw. At the same time, the handsome aristocrat finds himself in a passionate love affair with a Parisian woman of Polish heritage, a lawyer for the League of Nations. Colonel Mercier must work in the shadows, amid an extraordinary cast of venal and dangerous characters—Colonel Anton Vyborg of Polish military intelligence; the mysterious and sophisticated Dr. Lapp, senior German Abwehr officer in Warsaw; Malka and Viktor Rozen, at work for the Russian secret service; and Mercier ' s brutal

and vindictive opponent, Major August Voss of SS counterintelligence. And there are many more, some known to Mercier as spies, some never to be revealed. The Houston Chronicle has described Furst as “ the greatest living writer of espionage fiction. ” The Spies of Warsaw is his finest novel to date—the history precise, the writing evocative and powerful, more a novel about spies than a spy novel, exciting, atmospheric, erotic, and impossible to put down. “ As close to heaven as popular fiction can get. ” –Los Angeles Times, about The Foreign Correspondent “ What gleams on the surface in Furst ’ s books is his vivid, precise evocation of mood, time, place, a letter-perfect re-creation of the quotidian details of World War II Europe that wraps around us like the rich fug of a wartime railway station. ” –Time “ A rich, deeply moving novel of suspense that is equal parts espionage thriller, European history and love story. ” –Herbert Mitgang, The New York Times, about Dark Star “ Some books you read. Others you live. They seep into your dreams and haunt your waking hours until eventually they seem the stuff of memory and experience. Such are the novels of Alan Furst, who uses the shadowy world of espionage to illuminate history and politics with immediacy. ” –Nancy Pate, Orlando Sentinel

In this all-new addition to the People of Wisconsin series, author Susan Mikos traces the history of Polish immigrants as they settled in America ’ s northern heartland. Point, in the Cutover, and beyond. In each locale, they brought with them a hunger to own land, a willingness to work hard, and a passion for building churches. Included is a first person memoir from Polish immigrant Maciej Wojda, translated for the first time into English, and historical photographs of Polish settlements around our state.

Even seventy-five years after the end of World War II, the commemorative cultures surrounding the War and the Holocaust in Central, Eastern and South Eastern Europe are anything but fixed. The fierce debates on how to deal with the past among the newly constituted nation states in these regions have already received much attention by scholars in cultural and memory studies. The present volume posits that literature as a medium can help us understand the shifting attitudes towards World War II and the Holocaust in post-Communist Europe in recent years. These shifts point to new commemorative cultures shaping up 'after memory'. Contemporary literary representations of World War II and the Holocaust in Eastern Europe do not merely extend or replace older practices of remembrance and testimony, but reflect on these now defunct or superseded narratives. New narratives of remembrance are conditioned by a fundamentally new social and political context, one that emerged from the devaluation of socialist commemorative rituals and as a response to the loss of private and family memory narratives. The volume offers insights into the diverse literatures of Eastern Europe and their ways of depicting the area's contested heritage.

Das vorliegende Buch unternimmt den Versuch, die polnische Platon-Rezeption einem breiten Publikum zugänglich zu machen. Die Jahre 1800-1950 umfassen die Schwerpunkte der Geschichte der polnischen Philosophie: Die Rezeption westlicher philosophischer Strömungen, die Entwicklung der Lemberg-Warschauer Schule, des Neo-Messianismus und der Neo-Scholastik. Das Buch erörtert, wie diese Phänomene in der modernen polnischen Philosophie zur Interpretation von Platon beigetragen

This book offers a unique perspective on contemporary Polish cinema's engagement with histories of Polish violence against their Jewish neighbours during the Holocaust. Moving beyond conventional studies of historical representation on screen, the book considers how cinema reframes the unwanted knowledge of violence in its aftermaths. The book draws on Derridean hauntology, Didi-Huberman's confrontations with art images, Levinasian ethics and anamorphosis to examine cinematic reconfigurations of histories and memories that are vulnerable to evasion and formlessness. Innovative analyses of Birthplace (Łoziński, 1992), It Looks Pretty From a Distance (Sasnal, 2011), Aftermath (Pasikowski, 2012), and Ida (Pawlikowski, 2013) explore how their rural filmic landscapes are predicated on the radical exclusion of Jewish neighbours, prompting archaeological processes of exhumation. Arguing that the distressing materiality of decomposition disturbs cinematic composition, the book examines how Poland's aftermath cinema attempts to recompose itself through form and narrative as it faces Polish complicity in Jewish death. A novel of savage satirical humour. A failed Polish author expects and looks forward to death and courts his demise ultimately in self-immolation.

Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of Into the Wild. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of

McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

Bestselling Polish crime by award-winning author Zygmunt Miloszewski. All eyes are on famous prosecutor Teodor Szacki when he investigates a skeleton discovered at a construction site in the idyllic Polish city of Olsztyn. Old bones come as no shock to anyone in this part of Poland, but it turns out these remains are fresh, the flesh chemically removed. Szacki questions the dead man's wife, only to be left with a suspicion she's hiding something. Then another victim surfaces a violent husband, alive but maimed giving rise to a theory: someone's targeting domestic abusers. And as new clues bring the murderer closer to those Szacki holds dear, he begins to understand the terrible rage that drives people to murder. From acclaimed Polish crime writer Zygmunt Miloszewski comes a gritty, atmospheric page-turner that poses the question, what drives a sane man to kill?"

This title brings together Jack Webster's two volumes of autobiography. The first part brings to life his homeland of Buchan in the north-east of Scotland. He describes in detail his childhood years in Aberdeenshire with stories of honest hard-working folk, people with often dour exteriors and a sharp, wry sense of humour twinkling beneath. From his childhood, the story moves on to the early years of his career on the "Turiff Advertiser" and his time at the "Scottish Daily Express", with tales of his travels and meeting with the famous all over the world. The second part continues his story, opening with the "roup" in Maud, the auctioning of his family farm, and going on to tell stories and anecdotes of the famous and not-so-famous inhabitants of his

native Buchan - people like his great grandfather, Gavin Greig, a scholar of international repute, and the celebrated writer, Lesi Grassic Gibbon, who tragically died at the age of 33. Whether writing of his meetings with the rich and famous, of great events, bloody murder or simply his memories of his childhood, Jack Webster displays the qualities of writing that has made him one of Scotland's best-loved journalists. He is the author of "Famous Ships of the Clyde".

This book concerns building an idealized image of the society in which the Holocaust occurred. It inspects the category of the bystander (in Polish culture closely related to the witness), since the war recognized as the axis of self-presentation and majority politics of memory. The category is of performative character since it defines the roles of event participants, assumes passivity of the non-Jewish environment, and alienates the exterminated, thus making it impossible to speak about the bystanders' violence at the border between the ghetto and the 'Aryan' side. Bystanders were neither passive nor distanced; rather, they participated and played important roles in Nazi plans. Starting with the war, the authors analyze the functions of this category in the Polish discourse of memory through following its changing forms and showing links with social practices organizing the collective memory. Despite being often critiqued, this point of dispute about Polish memory rarely belongs to mainstream culture. It also blocks the memory of Polish violence against Jews. The book is intended for students and researchers interested in memory

studies, the history of the Holocaust, the memory of genocide, and the war and postwar cultures of Poland and Eastern Europe.

Essays on the restoration and revival of Jewish sites in post-Holocaust, post-Communist Poland: “ Highly recommended. ” —Choice In a time of national introspection regarding the country ’ s involvement in the persecution of Jews, Poland has begun to reimagine spaces of and for Jewishness in the Polish landscape, not as a form of nostalgia but as a way to encourage the pluralization of contemporary society. The essays in this book explore issues of the restoration, restitution, memorializing, and tourism that have brought present inhabitants into contact with initiatives to revive Jewish sites. They reveal that an emergent Jewish presence in both urban and rural landscapes exists in conflict and collaboration with other remembered minorities, engaging in complex negotiations with local, regional, national, and international groups and interests. With its emphasis on spaces and built environments, this volume illuminates the role of the material world in the complex encounter with the Jewish past in contemporary Poland. “ Evokes a revolution—the word is not too strong—in the possibilities, new goals, and shifting facts on the ground associated with Jewish history and lives in Poland today. ”

naivety. One reviewer said: 'This book is a sheer delight. It is beautifully written, full of vitality and endlessly inventive: its format, with half a dozen episodes and intervening rest periods for both the hero and the reader, allows for a huge range of characters, scenarios and action. It's thought-provoking without being in the least dogmatic, witty without descending to farce and packed with sword fights without being derivative. The dialogue sparkles; characters morph almost imperceptibly from semi-cliche to completely original; nothing is as it first seems. Sapkowski succeeds in seamlessly welding familiar ideas, unique settings and delicious twists of originality: his Beauty wants to rip the throat out of a sensitive Beast; his Snow White seeks vengeance on all and sundry, his elves are embittered and vindictive. It's easily one of the best things I've read in ages.'

one eye. Public prosecutor Teodor Szacki, world-weary, suffering from bureaucratic exhaustion and marital ennui, feels that life has passed him by. But this case changes everything. Because of it he meets Monika Grzelka, a young journalist whose charms prove difficult to resist, and he discovers the frightening power of certain esoteric therapeutic methods. The shocking videos of the sessions lead him to an array of possible scenarios. Could one of the patients have become so absorbed by his therapy role-playing that he murdered Telak? Szacki's investigation leads him to an earlier murder, before the fall of Communism. And why is the Secret Police suddenly taking an interest in all this? As Szacki uncovers each piece of the puzzle, facts emerge that he'd be better off not knowing, for his own safety. Zygmunt Miloszewski, born in Warsaw in 1975, is an editor currently working for Newsweek. In 1975, Angola was tumbling into pandemonium; everyone who could was packing crates, desperate to abandon the beleaguered colony. With his trademark bravura, Ryszard Kapuscinski went the other way, begging his way from Lisbon and comfort to Luanda—once famed as Africa's Rio de Janeiro—and chaos. Angola, a slave colony later given over to mining and plantations, was a promised land for generations of poor Portuguese. It had belonged to Portugal since before there were English-speakers in North America. After the collapse of the fascist dictatorship in Portugal in 1974, Angola was brusquely cut loose, spurring the catastrophe of a still-ongoing civil war.

Kapuscinski plunged right into the middle of the drama, driving past thousands of haphazardly placed check-points, where using the wrong shibboleth was a matter of life and death; recording his impressions of the young soldiers—from Cuba, Angola, South Africa, Portugal—fighting a nebulous war with global repercussions; and examining the peculiar brutality of a country surprised and divided by its newfound freedom. Geralt's encounter with a beast reveals the truth behind fairy tales in this graphic novel adaptation of Andrzej Sapkowski's original short story. Geralt takes a short cut down a beaten path, where he makes a grim discovery of two corpses. Backtracking their trail, he's led to a derelict mansion secured with elevated walls and a gate—mysterious and ramshackle, yet adorned with a rare elegance Geralt could not ignore. He is met with the mansion's owner—not quite human, but a beast with the faculties of a man. With Geralt unfazed by his monstrous appearance and displays of aggression, the beast invites him inside. A kind but wary host, he shares stories of his family, his life . . . and his curse. If the weight of his misdeeds could condemn him to the body of a beast—a retribution spoken of only in fairy tales, could there be another grain of truth in these tales of fantasy—one that could help him elude his fate and lead him to salvation? This graphic novel is the first in a series of adaptations from Sapkowski's acclaimed short story collection *The Last Wish!* Script adaptation by Jacek Rembiński (Frostpunk) with art by Jonas Scharf (Bone Parish, War for the Planet of the Apes).
