

## Grammar In Use Intermediate Jansbooksz

***A fully updated version of the classic grammar title. This book is for sale in Korea only.***

***This is a bilingual (English/Korean) edition of Basic Grammar in Use (With Answers) Second Edition (0521626005) targeted at learners in Korea whose mother tongue is Korean and whose command of English is relatively weak. The classic In Use format remains, with explanation and examples on the left page followed by exercises on the right. As in the original, there are seven Appendices, Additional Exercises, a Study Guide and Answer Key. In the Korean Edition, grammatical explanation and terminology as well as selected example sentences (or parts of sentences) are translated on the left page. On the right page, exercise instructions are translated. There is a modest amount of content adaptation, typically consisting of additional explanation or examples for grammar areas which are identified as a weak spot for Korean learners. The page dimensions and extent of the Korean Edition remain the same as the monolingual edition. The Korean Edition does not contain a CD. The second edition of Grammar in Use: Intermediate contains nine units of new material, more exercises, and a free Audio CD with recordings of example sentences. Two new sections have also been added: Additional Exercises, which give students the opportunity to consolidate what they have learned; and the Study Guide, which helps students determine which units they need to study. Grammar in Use: Intermediate is suitable for students who are preparing for the TOEFL and other standard examinations. The workbook provides students with further practice opportunities.***

CD-ROM provides over 200 extra exercises to help you practice the grammar presented. This book is the culmination of educational know-how and systematic grammar organization acquired by the three authors from their experience actually teaching Korean to foreigners in the classroom. In focusing strictly on Korean grammar, this series represents a departure from most current integrated teaching materials, allowing foreign learners to more easily concentrate on grammar in their study of Korean. The authors have included real dialogues and illustrations to make the study of Korean more interesting, especially for those students who have heretofore felt Korean grammar to be difficult. Further, this series equally serves as a general Korean grammar reference that can be used by Korean language instructors both in Korea and abroad who regularly experience the difficulty of teaching Korean grammar first-
