Graphic Artists Guild Handbook Of Pricing And Ethical Lines

For years, the Graphic Artists Guild Handbook: Pricing and Ethical Guidelines has been the industry bible for graphic designers and illustrators. This, the 13th edition, continues the tradition with new information, listings and pricing information based on surveys of working designers. It addresses legal rights and issues such as how copyright laws affect the income and work of graphic artists. It also provides tips on how to negotiate the best deals and how and what to charge for work, and includes sample contracts. For design and illustration professionals, there is no more comprehensive and informative resource.

A leader in the field of green graphic design explains how to incorporate a series of simple, eco-friendly changes in selecting paper, printing methods, binding, packaging, shipping, and budgeting that can provide increased profit, creativity, and meaning in any design project, in a volume that includes extensive listings of Web sites, paper suppliers, and other resources. Original.

An artist's unique voice is their calling card. It's what makes each of their works vital and particular. But developing such singular artistry requires effort and persistence. Bestselling author, artist, and illustrator Lisa Congdon brings her expertise to this guide to the process of artistic self-discovery. Featuring advice from Congdon herself and interviews with a roster of established artists, illustrators, and creatives, this one-of-a-kind book will show readers how to identify and nurture their own visual identity, navigate the influence of artists they admire, push through fear and insecurity, and appreciate the value of their personal journey.

Extra Bold is the inclusive, practical, and informative (design) career guide for everyone! Part textbook and part comic book, zine, manifesto, survival guide, and self-help manual, Extra Bold is filled with stories and ideas that don't show up in other career books or design overviews. • Both pragmatic and inquisitive, the book explores power structures in the workplace and how to navigate them. • Interviews showcase people at different stages of their careers. • Biographical sketches explore individuals marginalized by sexism, racism, and ableism. • Practical guides cover everything from starting out, to wage gaps, coming out at work, cover letters, mentoring, and more. A new take on the design canon. • Opens with critical essays that rethink design principles and practices through theories of feminism, anti-racism, inclusion, and nonbinary thinking. • Features interviews, essays, typefaces, and projects from dozens of contributors with a variety of racial and ethnic backgrounds, abilities, gender identities, and positions of economic and social privilege. • Adds new voices to the dominant design canon. Written collaboratively by a diverse team of authors, with original, handcrafted illustrations by Jennifer Tobias that bring warmth, happiness, humor, and narrative depth to the book. Extra Bold is written by Ellen Lupton (Thinking with Type), Farah Kafei, Jennifer Tobias, Josh A. Halstead, Kaleena Sales, Leslie Xia, and Valentina Vergara.

The Graphic Design Business Book

New Venues, New Styles, New Methods

The Essential Guide to Working Your Creative Magic

Green Graphic Design

Graphic Design Theory is organized in three sections: "Creating the Field" traces the evolution of graphic design over the course of the early 1900s, including influential avant-garde ideas of futurism, constructivism, and the Bauhaus; "Building on Success" covers the mid- to late twentieth century and considers the International Style, modernism, and postmodernism; and "Mapping the Future" opens at the end of the last century and includes current discussions on legibility, social responsibility, and new media. Striking color images illustrate each of the movements discussed and demonstrate the ongoing relationship between theory and practice. A brief commentary prefaces each text, providing a cultural and historical framework through which the work can be evaluated. Authors include such influential designers as Herbert Bayer, L'szlo Moholy-Nagy, Karl Gerstner, Katherine McCoy, Michael Rock, Lev Manovich, Ellen Lupton, and Lorraine Wild. Additional features include a timeline, glossary, and bibliography for further reading. A must-have survey for graduate and undergraduate courses in design history, theory, and contemporary issues, Graphic Design Theory invites designers and interested readers of all levels to plunge into the world of design discourse.

In 1928, the newly organized Denver Artists Guild held its inaugural exhibition in downtown Denver. Little did the participants realize that their initial effort would survive the Great Depression and World War II—and then outlive all of the group's fifty-two charter members. The guild's founders worked in many media and pursued a variety of styles. In addition to the oils and watercolors one would expect were masterful pastels by Elsie Haddon Haynes, photographs by Laura Gilpin, sculpture by Gladys Caldwell Fisher and Arnold Rönnebeck, ceramics by Anne Van Briggle Ritter and Paul St. Gaudens, and collages by Pansy Stockton. Styles included realism, impressionism, regionalism, surrealism, and abstraction. Murals by Allen True, Vance Kirkland, John E. Thompson, Louise Ronnebeck, and others graced public and private buildings—secular and religious—in Colorado and throughout the United States. The guild's artists didn't just contribute to the fine and decorative arts of Colorado; they enhanced the national reputation of the state. Then, in 1948, the Denver Artists Guild became the stage for a great public debate pitting traditional against modern. The twenty-year-old guild split apart as modernists bolted to form their own group, the Fifteen Colorado Artists. It was a seminal moment: some of guild's artists became great modernists, while others remained great traditionalists. Enhanced by period photographs and reproductions of the founding members' works, The Denver Artists Guild chronicles a vibrant yet overlooked chapter of Colorado's cultural history. The book includes a walking tour of guild members' paintings and sculptures viewable in Denver and elsewhere in Colorado, by Leah Naess and author Stan Cuba.

Mortal Engines launched Philip Reeve's brilliantly imagined creation, the world of the Traction Era, where mobile cities fight for survival in a post-apocalyptic future. The first instalment introduces young apprentice Tom Natsworthy and the murderous Hester Shaw, flung from the fast-moving city of London into heart-stopping adventures in the wastelands of the Great Hunting Ground. Repackaged with a stunning double cover and eye-catching new look that features the famous recycled 'Old-Tech' of Reeve's fantastic world.

'Hand Job' collects groundbreaking work from an international array of some of today's most talented typographers who draw by hand, with graphic designer and hand typographer Michael Perry selecting work representing the full spectrum of design methods and styles.

Graphic Artists Guild Handbook: Pricing & Ethical Guidelines, 14th Edition is an indispensable resource for people who create graphic art and those who buy it. As the graphic art marketplace continues to evolve to meet the needs of both digital and print media and as clients struggle with shrinking budgets in the current economy, the need for up-to-date information on business, ethical, and legal issues is greater than ever. Find it all here in the 14th Edition.

· Completely revised and updated to reflect the latest trends · Features the latest information on pricing graphic design work Graphic Artists Guild Handbook: Pricing & Ethical Guidelines, is the industry bible, containing information all graphic artists and their clients need to buy and sell work in a professional manner. The twelfth edition of this classic reference has been revised and updated to provide all the information creative professionals need to keep up with current trends and compete in an ever-changing industry.

Graphic Design School allows students to develop core competencies while understanding how these fundamentals translate into new and evolving media. With examples from magazines, websites, books, and mobile devices, the Fifth Edition provides an overview of the visual communications profession, with a new focus on the intersection of design specialties. A brand-new section on web and interactivity covers topics such as web tools, coding requirements, information architecture, web design and layout, mobile device composition, app design, CMS, designing for social media, and SEO.

A group biography of seven enduring and beloved games, and the story of why—and how—we play them. Checkers, backgammon, chess, and Go. Poker, Scrabble, and bridge. These seven games, ancient and modern, fascinate millions of people worldwide. In Seven Games, Oliver Roeder charts their origins and historical importance, the delightful arcana of their rules, and the ways their design makes them pleasurable. Roeder introduces thrilling competitors, such as evangelical minister Marion Tinsley, who across forty years lost only three games of checkers; Shusai, the Master, the last Go champion of imperial Japan, defending tradition against "modern rationalism"; and an IBM engineer who created a backgammon program so capable at self-learning that NASA used it on the space shuttle. He delves into the history and lore of each game: backgammon boards in ancient Egypt, the Indian origins of chess, how certain shells from a particular beach in Japan make the finest white Go stones. Beyond the cultural and personal stories, Roeder explores why games, seemingly trivial pastimes, speak so deeply to the human soul. He introduces an early philosopher of games, the aptly named Bernard Suits, and visits an Oxford cosmologist who has perfected a computer that can effectively play bridge, a game as complicated as human language itself. Throughout, Roeder tells the compelling story of how humans, pursuing scientific glory and competitive advantage, have invented AI programs better than any human player, and what that means for the games—and for us. Funny, fascinating, and profound, Seven Games is a story of obsession, psychology, history, and how play makes us human.

Graphic Artists Guild Handbook: Pricing & Ethical Guidelines, 15th Edition

The Denver Artists Guild

Extra Bold

Creating a brand identity is a fascinating and complex challenge for the graphic designer. It requires practical design skills and creative drive as well as an understanding of marketing and consumer behaviour. This practical handbook is a comprehensive introduction to this multifaceted process. Exercises and examples highlight the key activities undertaken by designers to create a successful brand identity, including defining the audience, analyzing competitors, creating mood boards, naming brands, designing logos, presenting to clients, rebranding and launching the new identity. Case studies throughout the book are illustrated with brand identities from around the world, including a diverse range of industries – digital media, fashion, advertising, product design, packaging, retail and more.

Amazingly, one-third of the American workforce is freelance—that's 42 million people who have to wrestle with not just doing the work, but finding the work, then getting paid for the work, plus health care, taxes, setting up an office, marketing, and so on. Now help is here, and consultants, independent contractors, the self-employed, "solopreneurs," and everyone else living a freelancer's life will never be alone again but instead can be part of a strong and vibrant community. Written by the authority on freelance working, Sara Horowitz, MacArthur "Genius" Fellow and founder of the national Freelancers Union and, most recently, the Freelancers Insurance Company, The Freelancer's Bible will help those new to freelancing learn the ropes, and will help those who've been freelancing for a while grow and expand. It's the one-stop, all-encompassing guide to every practical detail and challenge of being a nimble, flexible, and successful freelancer: the three essentials of getting clients and the three most important ways to keep them happy. Five fee-setting strategies. Thirteen tactics for making it through a prolonged dry spell. Setting up a home office vs. renting space. The one-hour contract. A dozen negotiating dos and don'ts. Building and maintaining your reputation. Dealing with deadbeats. Health Insurance 101. Record-keeping and taxes. Productivity, including a quiz: "What Is Your Ideal Day?" Building a community. Subcontracting and other strategies for taking your freelancing career to the next level. Retirement plans, plans for saving for education, and how to achieve financial freedom.

Learn how to price creative work with confidence. Win more bids. Make more money. When it comes to pricing their work, far too many freelance designers and agencies merely guess what to charge their clients. As a result, profitable projects have as much to do with luck as they do anything else. In The Psychology of Graphic Design Pricing, you'll learn how to take luck out of the equation by calculating the cost to produce your work, understanding its market value, and extracting your client's budget. These three variables are used in a pricing spectrum, empowering you to price your work with confidence and profitability in every project opportunity. This book will teach you how to calculate your production costs, understand market value, extract your client's budget, bid with the right project price, and increase your profitability.

*"Provides definitive guidelines on all aspects of the graphic design business."—FYI. * Newly revised and expanded version of an industry classic--5,000 sold! * Up-to-the-minute! Includes web, interactive, and green design, new legislation * Each chapter written by an authority on the subject. The child's diary that awakened the conscience of the world When Zlata's Diary was first published at the height of the Bosnian conflict, it became an international bestseller and was compared to The Diary of Anne Frank, both for the freshness of its voice and the grimness of the world it describes. It begins as the day-to-day record of the life of a typical eleven-year-old girl, preoccupied by piano lessons and birthday parties. But as war engu

Filipovic becomes a witness to food shortages and the deaths of friends and learns to wait out bombardments in a neighbor's cellar. Yet throughout she remains courageous and observant. The result is a book that has the power to move and instruct readers a world away.

Assembled by the National Organization for Graphic Artists, this volume contains the latest information on business, pricing and ethical standards for nearly every discipline in the visual communications industry.

Tailored specifically to the business and legal needs of illustrators, this important edition is expanded and thoroughly updated to include electronic rights. Also provided is a CD-ROM with electronic versions of each form.

Seven Games: A Human History

Find Your Artistic Voice

The market for illustration is changing. How can illustrators survive and thrive? Illustration students, educators, and working artists will find illuminating commentary on editorial, graphic novels, comics, animations, Web, games, toys, fashion, textiles, and more, along with an exploration of how old platforms have changed and new ones emerged. Fifty working illustrators, including such top names as Christoph Niemann, Alex Murawski, Jashar Awan, Yuko Shimuzo, and Tomer Hanuka, share insights on what works now. Published in association with the School of Visual Arts, Marketing Illustration explores the impact of technology and the future of the illustration market. No illustrator can afford to miss this thought-provoking resource.

A behind-the-scenes look at the extraordinary and meticulous design of graphic objects for film sets Although graphic props such as invitations, letters, tickets, and packaging are rarely seen close-up by a cinema audience, they are designed in painstaking detail. Dublin-based designer Annie Atkins invites readers into the creative process behind her intricately designed, rigorously researched, and visually stunning graphic props. These objects may be given just a fleeting moment of screen time, but their authenticity is vital and their role is crucial: to nudge both the actors on set and the audience just that much further into the fictional world of the film.

Esquire. Ford Motors. Burton Snowboards. The Obama Administration. While all of these brands are vastly different, they share at least one thing in common: a teeny, little bit of Aaron James Draplin. Draplin is one of the new school of influential graphic designers who combine the power of design, social media, entrepreneurship, and DIY aesthetic to create a successful business and way of life. Pretty Much Everything is a mid-career survey of work, case studies, inspiration, road stories, lists, maps, how-tos, and advice. It includes examples of his work—posters, record covers, logos—and presents the process behind his design with projects like Field Notes and the "Things We Love" State Posters. Draplin also offers valuable advice and hilarious commentary that illustrates how much more goes into design than just what appears on the page. With Draplin's humor and pointed observations on the contemporary design scene, Draplin Design Co. is the complete package for the new generation of designers.

What graphic design is, what designers need to know, and who becomes a designer have all evolved as the computer went from being a tool to also becoming our primary medium for communication. How jobs are advertised and how prospective candidates communicate with prospective employers have changed as well, as has the culture and context for many workplaces, requiring new approaches for how to find your first (and last) position. Through clear prose, a broad survey of contexts where designers find themselves in the present day, and interviews with designers, The AIGA Guide to Careers in Graphic and Communication Design is an invaluable resource for finding your place in this quickly changing and growing field. The book includes interviews with over 40 designers at all levels working in-house and out-of-house in studios, consultancies, or alone, including: Nicholas Blechman, The New Yorker; Rob Giampietro, Google; Njoki Gitahi, IDEO; Hilary Greenbaum, Whitney Museum; Holly Gressley, Vox Media; Cemre Güngör, Facebook; Natasha Jen, Pentagram; Renda Morton, The New York Times; and Alisa Wolfson, Leo Burnett Worldwide.
