In this illuminating book Roger Rosenblatt offers both sensitive analyses of individual works and a provocative and compelling thesis. He argues that black fiction has a unity deriving not from any chronological sequence, or simply from its black authorship, but from a history on which practically every significant black American novel and short story is based. Marked for oppression by an external physical characteristic, black characters struggle constantly against and within a hostile world. Rosenblatt's analysis of the way patterns provides an integrated and sustained interpretation of motives and methods in black fiction. The black hero, after starting on a circular track, may try to change direction by means of his youth, love, education, or humor; or he may try to escape in flight. Rosenblatt demonstrates, these attempts all fail. And the black hero discovers in the failure of his attempts that the society which caused all this failure is not only unattainable but undesirable. Neither a sociological study nor a routine survey, this is distinguished by its concentration on black fiction as literature.

First published in 1911, The Quest of the Silver Fleece is set in Washington, D.C., and Alabama. The silver fleece refers to the cotton industry, owned by powerful white men, who continued to make their fortune through the labor of African-Americans. In the story, Blessed Alwyn tries to come to terms with how a black man can integrate into society. He gets an education and moves to Washington, where he meets well-to-do blacks who seem to be living the kind of lives slaves had struggled for. Only, Blessed comes to find out, they have to make many compromises in order to be accepted by their white neighbors. Anyone with an interest in race relations and life at the turn of the 20th century will find this book about economics, race, love, and the hero's quest an astute sociological study. American writer, civil rights activist, and scholar WILLIAM EEDWARD BURGHARDT DUBOIS (1868-1963) was the first black man to receive a PhD from Harvard University. A cofounder of the NAACP, he wrote a number of important books, including The Philadelphia Negro (1899), Black Folk, Then and Now (1899), and The Negro (1915).

Sixteen original essays on women writers from Mexico, Guatemala, Honduras, Costa Rica, Colombia, Ecuador, Uruguay, Argentina, and Brazil are gathered in this book. Each establishes the relationship between the biography of the subject and her literary production. Some of these writers, like Nobel Prize-winner Gabriela Mistral, Elena Poniatowska, and Victoria Ocampo, are well known; others are still largely undiscovered. All of them defy the limits imposed upon them by society, and all have been able to find freedom through creative imagination. All the writers included here are vitally concerned with the problems women face in Latin America. Children and mothers are the central focus of their lives and of many of their writings. These writers have participated in essential ways in the history of their respective countries and in the intellectual history of Latin America, and at the same time, their greatest contribution has been in the sharing of the private details of personal stories, their own and others. In the strong connections that many of them have had with each other, Marjorie Agosin sees a culture of sisterhood.

A brilliant look at colonialism and its effects in Antigua--by the author of Annie John "If you go to Antigua as a tourist, this is what you will see. If you come by aeroplane, you will land at the V. C. Bird International Airport. Vere Cornwall (V. C.) Bird is the Prime Minister of Antigua. You may be the sort of tourist who would wonder why a Prime Minister would want an airport named after him--why not a school, why not a hospital, why not some great public monument. You are a tourist and you have not yet seen . . ." So begins Jamaica Kincaid's expansive essay, which shows us what we have not yet seen of the ten-by-twelve-mile island in the British West Indies where she grew up. Lyrical, sardonic, and forthright by turns, in a Swiftian mode, A Small Place cannot help but amplify our vision of one small place and all that it signifies.

It is a study of the influence of culture and religion - particularly of traditional African cultures and Christianity - on African women's lives. Mercy Amba Oduyoye illustrates how myths, proverbs, and folk tales (called "folktalk") operate in the socialization of young women, working to preserve the norms of the community. Daughters of Anowa reveals how global patriarchy manifests itself in these social structures, in both patrilineal and matrilineal communities. Organized as a narrative in three cycles, Daughters of Anowa demonstrates how folktalk alienates women from power, discourages individuality and encourages conformity. It also considers the possibilities for the future. Oduyoye posits that change will come about only when the daughters of Anowa (the mythic representative of Africa itself) confront the realities of culture and religion in perpetuating patriarchal oppression and work to realize the goal of a new woman in a new Africa.**

Fiercely competitive, Matisse and Picasso engaged in one of the most formidable artistic dialogues of this century. The intense beginning of the relationship between the two artists - from the time they met in 1906 until 1917, when Matisse left for Nice - has already been amply studied, but their continuous exchange during the second part of their careers has never been examined in detail. In Matisse and Picasso, Yve-Alain Bois stages the intertwined evolution of the two giants of modern art as if it were an ongoing game of chess between two masters. As Joachim Pissarro points out in the foreword of this volume, Matisse and Picasso's dense plot and rich narrative make this work read more like a suspense novel than a traditional art history treatise. Bois' thoroughly researched historical demonstration is supported by striking visual juxtapositions of works by the two artists brought together here for the first time, making this long-awaited study a major contribution to the history of twentieth-century art.
