"On October 29, 1929, life in the United States took a turn for the worst. The stock market the system that controls money in America plunged to a record low. But this event was only the beginning of many bad years to come. By the early 1930s, one out of three people was not working. People lost their jobs, their houses, or both and ended up in shantytowns called Hoovervilles named for the president at the time of the crash. By 1933, many banks had gone under. Though the U.S. has seen other times of struggle, the Great Depression remains one of the hardest and most widespread tragedies in American history. Now it is represented clearly and with 80 illustrations in our What Was ? series."--Provided by publisher.

Miri is the non-twin child in a family with two sets of them--older brothers and younger sisters. The family has just moved to an old farmhouse in a new town, where the only good thing seems to be Miri's ten-sided attic bedroom. But when Miri gets sent to her room after accidentally bashing her big brother on the head with a shovel, she finds herself in the same room . . . only not quite. Without meaning to, she has found a way to travel back in time to 1935 where she discovers Molly, a girl her own age very much in need of a loving family. A highly satisfying classic-in-the-making full of spine-tingling moments, this is a delightful time-travel novel for the whole family.

In May 1936 Secretary of Agriculture Henry A. Wallace wrote to Caroline Henderson to praise her contributions to American "understanding of some of our farm problems." His comments reflected the national attention aroused by Henderson's articles, which had been published in *Atlantic Monthly* since 1931. Even today, Henderson's articles are frequently cited for her vivid descriptions of the dust storms that ravaged the Plains. Caroline Henderson was a Mount Holyoke graduate who moved to Oklahoma's panhandle to homestead and teach in 1907. This collection of Henderson's letters and articles published from 1908 to 1966 presents an intimate portrait of a woman's life in the Great Plains. Her writing mirrors her love of the land and the literature that sustained her as she struggled for survival. Alvin O. Turner has collected and edited Henderson's published materials together with her private correspondence. Accompanying biographical sketch, chapter introductions, and annotations provide details on Henderson's life and context for her frequent literary allusions and comments on contemporary issues.

As seen in Time, USA TODAY, The Atlantic, The Wall Street Journal, and on CBS This Morning, BBC, PBS, CNN, and NPR, iGen is crucial reading to understand how the children, teens, and young adults born in the mid-1990s and later are vastly different from their Millennial predecessors, and from any other generation. With generational divides wider than ever, parents, educators, and employers have an urgent need to understand today's rising generation of teens and young adults. Born in the mid-1990s up to the mid-2000s, iGen is the first generation to spend their entire adolescence in the age of the smartphone. friends in person—perhaps contributing to their unprecedented levels of anxiety, depression, and loneliness. But technology is not the only thing that makes iGen distinct from every generation before them; they are also different in how they spend their time, how they behave, and in their attitudes toward religion, sexuality, and politics. They socialize in completely new ways, reject once sacred social taboos, and want different things from their lives and careers. More than previous generations, they are obsessed with safety, focused on tolerance, and have no patience for inequality. With the first members of iGen just graduating from college, we all need to understand them: friends and family need to look out for them; businesses must figure out how to recruit them and sell to them; colleges and universities must know how to educate and guide them. And members of iGen also need to understand themselves as they communicate with their elders and explain their views to their older peers. Because where iGen goes, so goes our nation—and the world.
