American Motorcyclist

American Motorcyclist magazine, the official journal of the American Motorcyclist Association, tells the stories of the people who make motorcycling the sport that it is. It's available monthly to AMA members. Become a part of the largest, most diverse and most enthusiastic group of riders in the country by visiting our website or calling 800-AMA-JOIN.

It is a largely forgotten fact that Britain was the first industrialized country in the world, but Guy Martin, the cult motorcycle racer and mechanic, is about to remind us how the Industrial Revolution helped make Britain great.

Guy shows how the discoveries made in the late 18th to the 19th centuries are to thank for the ease of our every day lives: in order to cook a bacon and egg sandwich in Industrial-era conditions, Guy has to restore a steam locomotive and railway to have the components delivered to the local shop; he has to bring a saw mill back into working order to be able to make a bicycle; he has to revamp a Victorian fishing trawler so he can cook himself some fish and chips; and when he decides to mow the lawn, he restores a Victorian botanical garden. After all that, he's in need of a holiday--so he sets to work restoring a Victorian holiday resort. Illustrated throughout with specially commissioned photography as well as historical images, Guy will take us through each project, his passion, enthusiasm and sheer inventiveness bringing a completely new perspective to the Industrial Revolution. He invites us to live it with him, to enjoy the nostalgia, marvel in the mechanics, and learn from its legacy.

Katharine Susannah Prichard was born in 1883 to Australian parents then living in Fiji, but she grew up in Tasmania, lived for a while in both Melbourne and London before finally settling in Western Australia. She was one of the co-founders of the Communist Party of Australia in 1921, and her status as a communist and a female writer led to her being frequently under surveillance and harassment by the Australian police and other government authorities. She wrote *The Black Opal* in 1921, and the novel focuses on the very close-knit opal-mining community living and working on Fallen Star Ridge, a fictitious location set in New South Wales, Australia. Life is hard for the miners as their fortunes rise and fall with the amounts and quality of black opal they can uncover. Black opal is a beautiful mineral with fiery gleams of color, much valued for jewelry. Finding productive seams of such opal is a matter of both hard work and good luck. The novel is a well-drawn study of the relationships of the people living on the Ridge, and the two main characters are portrayed with clarity: Michael Brady, an older man much respected by the other miners for his knowledge and ethical approach, and Sophie Rouminof, a beautiful teenage girl who is the darling of the camp but who abruptly runs away to America after being disappointed in love. Despite the difficulties the individual miners face, there is a community spirit and an agreement on basic values and principles of behavior at the Ridge. But this community of shared endeavor is eventually jeopardized by the influence of outsiders, in particular an American who wishes to buy up the individual mines, operate them under a company structure, and simply pay the miners a salary. This conflict between capitalism and honest manual labour becomes one of the most important themes of the work. Dieses Buch beschreibt meinen Weg zur Rennstrecke und vermittelt einen Einblick, warum es sinnvoll ist, mit dem Motorrad auf einer Rennstrecke zu fahren. Zudem gibt es Tipps und Tricks zum Fahren auf der Rennstrecke. In dem Kapitel Fit für die Rennstrecke habe ich Euch ein Fitnessprogramm zusammengestellt und im Kapitel 8 gibt es ein paar persönliche Rennstreckenempfehlungen. Viel Spaß beim Lesen und es wäre schön, wenn noch mehr Biker und Bikerinnen ihr Hobby auf der Rennstrecke ausleben würden, denn nur dort kann man meiner Meinung nach die Fahrdynamik und das Leistungspotenzial der heutigen Supersportler wirklich erleben... The first GSX-R was created in 1985 as a groundbreaking departure from the ponderous sportbikes of the day. That revolutionary motorcycle took a time-honored racing credo to heart: light is right. (And another one: It can never be too fast.) Never before had the performance and design of a race bike been so faithfully carried over to the street. In the seven generations since, Suzuki has remained true to the concept of the original GSX-R: to build the most serious, track-worthy sportbike. What's more, the company's engineers have been relentless in their pursuit to refine and improve the bike.

At least 1 in 6 men have experienced some form of sexual violence. The Bible and Sexual Violence Against Men argue that the shame and stigma around male sexual abuse are interwoven with contemporary social and cultural concepts of masculinity, and are also found in the ancient world and biblical texts themselves. This book is interdisciplinary and has three main areas of exploration: #MenToo? Exploring the myths around sexual violence against men Sexual violence against men in the Hebrew Bible Reading Jesus' enforced nudity at the crucifixion as sexual violence. Given the enduring importance of the Bible in contemporary society, this book explores the biblical texts that depict sexual violence against men. It examines critical approaches from theology, biblical, and religious studies perspectives, while also exploring insights from the fields of sociology, psychology, and criminology as well as referring to legal cases and legislation, charity work, and media-focussed articles. In seeking to serve a number of interested readers, including those who are not familiar with the Bible, short summaries of the biblical texts under discussion are given in each case. Suzuki GSX-R

Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.
