Mini-Lessons that Work!

Science, engineering, and technology permeate nearly every facet of modern life and hold the key to solving many of humanity's most pressing current and future challenges. The United States' position in the global economy is declining, in part because U.S. workers lack fundamental knowledge in these fields. To address the critical issues of

U.S. competitiveness and to better prepare the workforce, A Framework for K-12 Science Education proposes a new approach to K-12 science education that will capture students' interest and provide them with the necessary foundational knowledge in the field. A Framework for K-12 Science Education outlines a broad set of expectations for students in science and engineering in grades K-12. These expectations will inform the development of new standards for K-12 science education and, subsequently,

revisions to curriculum, instruction, assessment, and professional development for educators. This book identifies three dimensions that convey the core ideas and practices around which science and engineering education in these grades should be built. These three dimensions are: crosscutting concepts that unify the study of science through their common application across science and engineering; scientific and engineering practices; and disciplinary core ideas in the physical sciences, life sciences, and

today he has hitherto kept a low profile. This book, published to coincide with his retirement, sets out his educational fundamentals. There is a crisis in the British education system. Year on year GCSE and A Level pupils post better exam results, with more students achieving grades. Yet business leaders and employers complain bitterly that our schools are not producing people fit for purpose. Far from being locked in an ivory tower, a bastion of privilege, Mr Little has used his time as a teacher and headmaster to get to grips with fundamental questions concerning education. He wants to produce people fit to work in the modern world. How do children

absorb information? What kind of people does society need? What is education for? Not only is the author one of the great reforming headmasters of our time but he has planted Academies in the East end of London, founded a state boarding school near Windsor and yet is a passionate advocate of single sex schools. This book is a text book for colleges of education - it is a book to enlighten the teaching profession and just as much for anxious parents. The book is simply arranged under topics such as authority, expectations, progress, self-confidence, sex, crises and creativity. Tony Little thinks it is time to ask some fundamental questions, and to make
