

Guitar Aerobics A 52 Week One Lick Per Day Workout Program For Developing Improving And Maintaining Guitar Technique

Strumming the Guitar Book 1 is a detailed course for beginners and upward, focusing solely on the subject of guitar strumming. Separate sections take on strumming, changing chords and coordinating chord changes while strumming, therefore maintaining a thorough approach throughout with components broken down at every level. With this incremental method, this guitar strumming book enables the beginner to absorb everything important from the start and progress consistently as the difficulty level increases. Guitar Strumming Techniques - Before anything else, the basics of strumming are covered from the ground up for the beginner, assisted with professional hand drawn illustrations. Learn how to hold the plectrum for strumming, how to strum chords that require you to miss certain strings, pre-emptive chord changing, open strums and more. Guitar Strumming Patterns - There are 70 different guitar strumming patterns that can be used throughout the book, all written with easy to understand, graphical, strumming diagrams. Reading Rhythmical Notation - Understand the common language of music by becoming familiar with rhythmical notation. Learn whole notes, half notes, quarter notes, eighth notes and their equivalent rests, dotted notes, ties and the basics of time signatures. All shown with clear charts and diagrams. Chord Changes - Seven groups of chord changes are included, made up almost entirely of open chords. The book starts with the easiest chord changes in which fretting finger locations can be shared, moving to chord changes in which fretting fingers relocate with the same shape, then more difficult chord changes where fretting fingers need to relocate in independent directions, such as C major to G major open chords or Aadd9 to Dmaj7 open chords. Strumming Exercises and Study Pieces - Every section includes strumming exercises that combine chord changes with strumming, each section concluding with a musical study piece using the skills learnt and practised in styles of Slow Pop, Spanish style, Grunge and Country Pop. In total there are 85 strumming exercises and 10 musical study pieces, while more combinations can be found by selecting from the 70 given strumming patterns to use with them. Audio and Video - All exercises and musical study pieces are demonstrated with audio (downloadable 154 MB). All study pieces have a demonstration audio track and a backing audio track in which the rhythm guitar part has been removed for you to play over. Online videos (of which there are 21 in total size of 775 MB) are also used to enhance explanations. Please Note: The eBook includes musical pieces so is not suitable for smaller screens. (Guitar Educational). Loaded with valuable info, this guide features: easy-to-read chord grids, easy-to-see color photos, basic chord theory and fingering principles, open chords and barre chords, partial chords and

Unleash the song of your soul with Zen Guitar, a contemplative handbook that draws on ancient Eastern wisdom and applies it to music and performance. Each of us carries a song inside us, the song that makes us human. Zen Guitar provides the key to unlocking this song—a series of life lessons presented through the metaphor of music. Philip Sudo offers his own experiences with music to enable us to rediscover the harmony in each of our lives and open ourselves to Zen awareness uniquely suited to the Western Mind. Through fifty-eight lessons that provide focus and a guide, the reader is led through to Zen awareness. This harmony is further illuminated through quotes from sources ranging from Eric Clapton and Jimi Hendrix to Miles Davis. From those who have never strummed a guitar to the more experienced, Zen Guitar shows how the path of music offers fulfillment in all aspects of life—a winning idea and an instant classic.

Have you been practicing for hours and hours with little progress? Here's how to get the most out of your practice sessions. "Practice, practice, practice until you can play it right!" The biggest lie the industry wants you to believe. A big fat lie! You shouldn't have to practice for hours or wait for years to be able to play your favorite songs. It sucks the joy out of learning the guitar and makes it boring and tedious. Yes, you need to practice. But not as much as you've been told to! With the right practice strategy - you can get 10x results out of each practice session. And it's disturbing to see so many beginner guitarists fall into the trap of practicing with no end. To solve this problem - we created "Guitar Exercises for Beginners: 10x your guitar skills in 10 minutes a day". A book designed to provide a structured, systemized and disciplined way to practice guitar. We say you can enhance your guitar playing by practicing just 10 minutes a day. That's all it takes for most people to make incredible progress with their guitar skills. 10 minutes of the right practice every day. Automate progress in your guitar playing The book has exercises for whatever you might be practicing - finger independence, chords, scales, chord progressions etc. Pick a few exercises and practice it every day for 10 minutes - you can easily slide in these exercises into your everyday guitar routine. It's that simple! As the chapters in the book are divided according to stages of a beginner's guitar journey - the book will make sure you always have something to work on! The right way to practice With over 100 well-crafted exercises this book will ensure a balanced mix of melody, harmony and rhythm. It Starts with simple guitar tablature and finger independence exercises. Then we move up a level to things like - how to hold a pick, picking methods, and strumming patterns. Followed by exercises for techniques like hammer-ons and pull-offs. With exercises dedicated to chords and scales - the book will make sure the concepts stick! After having mastered the basics - we move onto playing melodies and chords. Where we then end in style! With 10 popular chord progressions used by guitar gods such as - Jimi Hendrix, The Beatles, Green Day, Aerosmith we'll get you ready for your journey with popular songs. Here's a glimpse of what you'll find inside A simplified way to read guitar tablature A step-by-step approach to master complete finger independence The secret method of getting rhythmic with time signatures 10 easy and popular melodies and chord progressions Learn where these exercises are applied - references from popular songs Visual references to help you nail all the methods and techniques No prior experience needed - completely beginner friendly We also provide free downloadable audio for each exercise in slow and medium tempo. Learning all the notes on the fretboard taking too long? Or worse - seems impossible? This book will unlock all the notes in 5 Simple steps! Why Should I learn the Fretboard? Throughout my years of experience with the guitar, I have come across multiple "pro guitarists" who cannot name the note they just played. Learning guitar theory with no knowledge about the names of the fretboard is comparable to learning complex arithmetic equations without knowing numbers! This book will make sure you don't end up like one of those guitarists! Here is why you should learn the fretboard: Understand how notes are arranged on the fretboard Create a mind map to navigate through the fretboard Communicate the ideas you have in your head to written format or to other musicians Create various visual references to make the fretboard less daunting And lots more Why Should I buy this book? It's only fair to ask yourself this question before spending your hard-earned money on anything. Here is what you'll find inside: The whole process of learning the fretboard simplified into 5 easy steps A step by step approach which will give you results even if you are a complete beginner 35+ exercises and tips to make sure you get results as fast as humanly possible The theory behind every concept for those who need it Countless memory techniques to make the process as simple as possible Beginner friendly - no prior music experience required All this taught in less than a day! Why this book from among the 100 others? I know there are multiple books out there that teaches you the exact same things. They have a lot more reviews and have been out for longer than this book. But here is how this book is different: Unique memory techniques which cannot be found elsewhere High quality pictures and diagrams to give you the whole picture Free bonus material including fretboard diagrams, Flash cards, Reference material and lots more!
