major strategies—h

researchers can  
use in conducting  
concrete  
qualitative studies.  
The question of  
methods begins  
with questions of

design and the  
matters of money  
and funding. These

questions always  
begin with the  
researcher who  
moves from a  
research question  
to a paradigm or  
perspective, and  
then to the  
empirical world.  
The history and  
uses of these
